aphorisms and meditations expresses Taleb's major ideas in ways you least expect. The Bed of Procrustes takes its title from Greek mythology the story of a man who made his visitors fit his bed to perfection by either stretching them or cutting their limbs. With a rare combination of pointed wit and potent wisdom Taleb plows through human illusions contrasting the classical views of courage elegance and erudition against the modern diseases of nerdiness philistinism and phoniness.

History and Memory after Auschwitz Dominick LaCapra, 2018-09-05 The relations between memory and history have recently become a subject of contention and the implications of that debate are particularly troubling for aesthetic ethical and political issues. Dominick LaCapra focuses on the interactions among history memory and ethicopolitical concerns as they emerge in the aftermath of the Shoah. Particularly notable are his analyses of Albert Camus's novella *The Fall*, Claude Lanzmann's film *Shoah* and Art Spiegelman's comic book *Maus*. LaCapra also considers the Historians Debate in the aftermath of German reunification and the role of psychoanalysis in historical understanding and critical theory. In six essays LaCapra addresses a series of related questions: Are there experiences whose traumatic nature blocks understanding and disrupts memory while producing belated effects that have an impact on attempts to address the past? Do some events present moral and representational issues even for groups or individuals not directly involved in them? Do those more directly involved have special responsibilities to the past and the way it is remembered in the present? Can or should historiography define itself in a purely scholarly and professional way that distances it from public memory and its ethical implications? Does art itself have a special responsibility with respect to traumatic events that remain invested with value and emotion?

Günter Grass and His Critics Siegfried Mews, 2008 A comprehensive narrative overview and analysis of the criticism of the controversial German author's works. When the Swedish Academy announced that Günter Grass had been awarded the 1999 Nobel Prize for Literature it singled out his first novel *The Tin Drum* (1959, English translation 1963) as a seminal work that had signaled the postwar rebirth of German letters, auguring a new beginning after decades of linguistic and moral destruction. Nearly fifty years after its publication the novel's significance has been generally acknowledged; it is the uncontested favorite among Grass's works of fiction on the part of reading public and critics alike, yet its canonical status tends to obscure the decidedly mixed and even hostile reactions it initially elicited. Along with *The Tin Drum*, Grass's impressive body of literary work since the 1950s has spawned a cottage industry of Grass criticism, making a reliable guide through the thicket of sometimes contradictory readings a definite desideratum. Siegfried Mews fills this lacuna in Grass scholarship by way of a detailed but succinct descriptive as well as analytical and evaluative overview of the scholarship from 1959 to 2005. Grass's politically motivated interventions in public discourse have kept him highly visible, blurring the boundaries between politics and aesthetics. Mews therefore examines not only academic criticism but also the daily and weekly press and other news media, providing additional insight into the reception of Grass's works. Siegfried Mews is Professor of German at the University of North Carolina at Chapel Hill.
