The Here And Now:

The Here and Now Ann Brashares, 2014 Follow the rules Remember what happened Never fall in love Thrilling exhilarating haunting and heartbreaking The Here and Now is a twenty first century take on an impossible romance Ann Brashares first novel for teens since The Sisterhood of the Traveling Pants is about a girl from the future who might be able to save the world if she lets go of the one thing she's found to hold on to Meet seventeen year old Prenna James who immigrated to New York when she was twelve Except Prenna didn't come from a different country She came from a different time a future where a mosquito borne illness has mutated into a pandemic killing millions and leaving the world in ruins Prenna and the others who escaped to the present day must follow a strict set of rules never reveal where they're from never interfere with history and never ever be intimate with anyone outside their community Prenna does as she's told believing she can help prevent the plague that will one day ravage the earth But everything changes when she falls for Ethan Jarves

The Here and Now Gregg Easterbrook, 2002-12-11 Carter then undergoes a series of slightly magical experiences that cause him to review his life's choices and to dream of loving life and knowing love once more [The Here-and-Now Habit](#) Hugh G. Byrne, 2016-03-01 Almost everyone has a bad habit or two or three But some bad habits such as habitual drinking emotional overeating self criticism chronic worrying or even spending too much time in front of the TV can take a toll on our health and happiness The Here and Now Habit provides powerful practices based in mindfulness and neuroscience to help readers rewire their brain and finally break the bad habits that are holding them back from fully experiencing life **How To Live In The Here And Now** Paul Jones, 2011-03-16 Paul Jones rescues enlightenment from the specialists the superstitious and the pious and makes it available to everyone and anyone through a simple step by step process

Evolution in the Here and Now Nigel Barber, 2020-05-12 This book argues that the two most influential theories on modern human behavior cultural determinism and evolutionary psychology are quite inadequate Cultural deterministic theories deny personal experience and too often fall prey to anthropocentric bias Most evolutionary psychologists argue that humans are shaped to fit our ancestral past effectively freezing us in time Evolution in the Here and Now looks to new factors like social learning and adaptation to explain the idiosyncrasies of human behavior in a more complete and nuanced way Evolutionary psychologist Nigel Barber shows that human behavior is uniquely crafted by the surrounding environment in underappreciated and surprising ways For example commerce and agriculture can be interpreted as adaptive alternatives to hunting and gathering Irrigated farming was a response to land scarcity which ultimately permitted the rise of early cities This cross disciplinary approach unites the missing ingredients that have for so long impeded our understanding of our own species and its variation across cultures Evolution in the Here and Now is a bold step forward in the evolutionary understanding of human behavior that marries our biology with our history in ways that have never been attempted before

Where is God?: A Theology for the Here and Now, Volume One Andy Ross, 2018-10-19 We are experiencing God

always The experience of God however transcends our capacity to comprehend it We will never fully grasp what God is but this does not mean we should stop trying Our ideas about God set the tone for our spiritual development The further we are willing to journey into the mystery of God the more we will be transformed by it The bigger the ideas the bigger the God and the more our lives will reflect God When I set out to write *Where is God* it was my intention to entertain the biggest ideas possible I wanted to understand the God of all things the God of religion and science the God of music and beauty the God of life and death the God of love This is a book of ideas big ideas *Standing Stones Peace Here and Now* Jeja Rera,2011-04

Here and Now Graham Farmelo,Janet Carding,1997 Presenting contemporary science and technology provides science museums and science centres with some of their greatest challenges This book explores questions central to the thinking of every museum and science centre attempting to meet such challenges What are the implications of the information technology revolution How can objects be more effectively displayed And what are the key issues involved in developing exhibitions and events that address contemporary material **Here and Now** Youngjoo Son,2013-10-15 Working at the crossroads of contemporary geographical and cultural theory the book explores how social spaces function as sites which foreground D H Lawrence and Virginia Woolf s critiques of the social order and longings for change Looking at various social spaces from homes to nations to utopian space brought into the here and now the book shows the ways in which these writers criticize and deconstruct the contemporary symbolic physical and discursive spatial topoi of the dominant socio spatial order and envision a more liberating and inclusive human geography In addition the book calls for the need to redress the tendency of some spatial theories to underestimate the political potential of literary discourse about space instead of simply and mechanically appropriating some theoretical concepts to literary criticism One of the central findings in the book therefore is that literary texts can perform subversive interventions in the production of social space through their critical interaction with dominant spatial codes Beyond the Here and Now Lucy O'Hagan,2013-10-25 Beyond the Here Now is an account of how we have come to be where we are now in the modern era In explaining the things that have not served us well we can uncover how to put them right in order if we choose to bring about a way of experiencing this world and each other as never before No need for great blind leaps of faith or trickery as the book demonstrates everything we need is already at hand We must now apply what we inherently know and this book explains how **Parenting in the Here and Now** Lea Page,2015-04-13 Being a good parent doesn t mean being perfect learning complex theories or finding another twelve hours in the day Parenting in the Here and Now offers a refreshingly different way Rather than striving for and failing to reach a frustrating ideal parents can start from where they are right now and enjoy a more harmonious family life almost immediately Lea Page shows how to recognise emotions that get in the way and how to stay calm rather than getting overwhelmed Her practical parenting philosophy born from many years of personal experience observation and reflection encourages parents to respond to children with action rather than words Parenting in the Here and Now is filled with

examples of how to manage parental challenges in the moment from tantrums and whining to lying and disrespect Parents will appreciate the new confidence and calm authority this book a true companion gives them **Murray V. Chicago, St.**
