## **Soviet Oil To 198:**

**Soviet Oil** Stephen Lewarne, 2019-07-19 This book details some of the problems experienced in the Soviet petroleum industry and includes a discussion on the downward trend in petroleum production It reviews a geological assessment of the offshore region and presents a discussion of activities in the Soviet offshore waters *Soviet Economy in the 1980's* United States. Congress. Joint Economic Committee, 1983 *Fuel and Power* Jeronim Perović, 2024-06-27 A very timely study of Russia's emergence as a global energy power from the Russian Revolution to the present day It reveals how Russian exports shaped global energy flows as well as how international trade impacted the fabric of the country's foreign relations and ultimately the course of Russian history Interest Representation In Soviet Policymaking Han-ku Chung, 2019-05-20 Dr Chung examines a little known facet of Soviet decisionmaking pressure group politics and policy formation He focuses on the pro Siberian forces involved with the development of energy resources in West Siberia an area rich in oil and natural gas Because West Siberia is a remote and relatively unexplored region controversy arose over the 1 Documents on Israeli-Soviet Relations, 1954-1967 Yaacov Ro'i, Yehoshua Freundlich, Boris Morozov, 2025-05-08 This book spanning the years 1957-1961 is the second in a four part collection of documents from the archives of the Russian Federation's Ministry of Foreign Affairs and the Israel State Archives portraying relations between the Soviet Union and the State of Israel Most of the documents are communications composed by successive Soviet ambassadors in Israel and Israeli ambassadors in Moscow and their respective staffs They illustrate the way Soviet ideology placed Israel irreparably in the enemy western camp in the Cold War Moscow's attempt to manipulate Israel into a seemingly neutral position in the international arena was therefore a ploy the failure of which was a foregone conclusion Israel's efforts to normalise relations between the two states were by turns genuine and unserious and similarly doomed to fail both because of ongoing Soviet arms supplies to Egypt and Syria which Israel perceived as a major threat to its security and because the Israeli government and public felt a commitment to the well being of the Soviet Jewish minority that they saw as deprived of basic rights The book will be of interest to scholars and students of Soviet foreign policy Israel's formative years the Arab Israeli conflict and Soviet Jewry and it will be a must for university libraries **Soviet Economy in the 1980's**, 1983 **Russian Oil Supply** John D. Grace, 2005 Russian Oil Supply traces the development of the Russian oil industry from its inception in the 1870s through the present The fundamental geology of the two main producing basins Volga Ural and West Siberia is presented along with a review of key production technologies The technical economic and policy aspects of achieving the 1987-88 peak production are described as well as the mechanics of the production collapse that followed and since 1999 the recovery of Russian output The performance of Russia's major oil companies independents and joint ventures is analyzed and conclusions drawn on the future course of production and exports *Impact of Oil Exports from the Soviet Bloc* National Petroleum Council. **Early Cold War** Roberto Cantoni, 2017-03-27 The importance of oil for national military industrial complexes appeared more clearly than ever in the Cold War This volume argues that the confidential acquisition of geoscientific knowledge was paramount for states not only to provide for their own energy needs but also to buttress national economic and geostrategic interests and protect energy security By investigating the postwar rebuilding and expansion of French and Italian oil industries from the second half of the 1940s to the early 1960s this book shows how successive administrations in those countries devised strategies of oil exploration and transport aiming at achieving a higher degree of energy autonomy and setting up powerful oil agencies that could implement those strategies However both within and outside their national territories these two European countries had to confront the new Cold War balances and the interests of the two superpowers     Foreign Relations of the United States United States.
