Rollie, 2014-08-15 Includes 3 maps and more than 10 illustrations The preponderance of conflicts fought over the last seventy years have included or been centered on irregular warfare and counter insurgency Indeed the helicopter's first significant trials in combat took place during the Algerian War 1954-1962 the Vietnam War 1955-1975 and the Soviet Afghan War 1979-1989 During these wars French U S and Soviet militaries used significant numbers of helicopters to fight insurgents and guerrillas and each country lost their respective conflict As conventional organizations these militaries used helicopters to seek military dominance often blind to or in spite of politico strategic goals like legitimacy The helicopter's firepower and mobility tactically decimated insurgents but the nature of irregular warfare rendered tactical dominance indecisive Helicopters were indecisive or bad at enabling legitimacy population control and isolation key tenets of successful COIN Convinced that helicopter enabled military dominance could win the French U S and Soviet militaries were unable to balance the pursuit of military and politically objectives Airmobility distracted leaders from focusing on the political aspects of counter insurgency Soldiers and the Soviet State Timothy J. Colton, Thane Gustafson, 2014-07-14 How much power does the Soviet military exert on the politics of the Kremlin This is one of the most controversial questions in the study of the Soviet Union here addressed by eight top Western specialists on Soviet politics and security policy While the authors assert that the civil military relationship has been less turbulent than often believed they also point out that Gorbachev's reforms threaten the system of buffers that have until now shielded the military industrial world from disruption and change Introduced by Timothy Colton's essay Perspectives on Civil Military Relations the volume discusses civil military relations in relation to political change Bruce Parrott the KGB Amy Knight resource stringency and civil military resource allocation Robert Campbell the defense industry Julian Cooper response to technological challenge Thane Gustafson social change Ellen Jones and consequences of external expansion Bruce D Porter Gustafson has written a concluding chapter Toward a Crisis in Civil Military Relations Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **The God Machine** James R. Chiles, 2008-09-30 From transforming the ways of war to offering godlike views of inaccessible spots revolutionizing rescues worldwide and providing some of our most watched TV moments including the cloud of newscopters that trailed O J Simpson's Bronco the helicopter is far more capable than early inventors expected Now James Chiles profiles the many helicoptrians who contributed to the development of this amazing machine and
