Space 2030 Tackling Society's Challenges OECD,2005-05-31 This book assesses the strengths and weaknesses of the institutional legal and regulatory frameworks that currently govern space activities in the OECD area and beyond *Space 2030 Tackling Society's Challenges* OECD,2005-05-31 This book assesses the strengths and weaknesses of the institutional legal and regulatory frameworks that currently govern space activities in the OECD area and beyond **Societal Impact of Spaceflight** Steven J. Dick,Roger D. Launius,2007 Since the dawn of spaceflight advocates of a robust space effort have argued that human activity beyond Earth makes a significant difference in everyday life Assertions about the impact of spaceflight on society and its relationship to the larger contours of human existence Fifty years after the Space Age began it is time to examine the effects of spaceflight on society in a historically rigorous way Has the Space Age indeed had a significant effect on society If so what are those influences What do we mean by an impact on society And what parts of society Conversely has society had any effect on spaceflight What would be different had there been no Space Age The purpose of this volume is to examine these and related questions through scholarly research making use especially of the tools of the historian and the broader social sciences and humanities Herein a stellar array of scholars does just that and arrives at sometimes surprising conclusions **Contracting for Space** Ingo Baumann,2016-05-13 Recent significant developments in the European space sector have had an impact on business and the growth of national and European commercial space law This book analyses and assesses the legal issues and key factors influencing the space sector in Europe It is an up to date guide to the regulatory background of space projects and examines the typical legal problems which need to be solved by practitioners in the field Taking into account public and commercial international law and practice this book examines substantive issues of law specific to launchers satellite manufacturers and space service providers with contributions from leading experts and practitioners in the field of European space law and policy *OECD Handbook on Measuring the Space Economy* OECD,2012-02-27 This publication provides a summary of the key methodological issues surrounding indicators and statistics on the space sector and the larger space economy **The Space Economy at a Glance 2007** OECD,2007-10-16 This book paints a richly detailed picture of the space industry its downstream services activities and its wider economic and social impacts **The Space Economy at a Glance 2011** OECD,2011-07-22 This second edition of *The Space Economy at a Glance* paints an updated and richly detailed picture of the space industry its downstream services activities and its wider economic and social impacts Space Technologies and Climate Change Implications for Water Management, Marine Resources and Maritime Transport OECD,2008-11-13 This book examines the contributions that space technologies can make in tackling some of the serious problems posed by climate change focusing on examples of water management marine resources and maritime transport **Outer Space in Society, Politics and Law** Christian Brünner,Alexander Soucek,2012-08-30 Spaceflight is a rational undertaking yet full of emotions

It is a dream of mankind and a multi billion industry likewise It is subject to a distinct branch of law and moreover part of modern pop culture In short spaceflight is fascinating Outer Space in society politics and law is an inter disciplinary approach to the understanding of modern space law Technical cultural and historical aspects lay the foundation for a sound comprehension why space law norms have been established and what they mean in practice The reader will realize the impact space and spaceflight have on society from Stonehenge to climate change A new approach to presenting space law comprehensive and illustrative We live in a society absolutely dependent on science and technology and yet have cleverly arranged things so that almost no one understands science and technology That s a clear prescription for disaster Carl Sagan

Satellite Earth Observations and Their Impact on Society and Policy Masami Onoda,Oran R Young,2017-06-16 The result of a workshop bringing together an international advisory board of experts in science satellite technologies industry innovations and public policy this book addresses the current and future roles of satellite Earth observations in solving large scale environmental problems The book showcases the results of engaging distinct communities to enhance our ability to identify emerging problems and to administer international regimes created to solve them It also reviews the work of the Policy and Earth Observation Innovation Cycle PEOIC project an effort aimed at assessing the impact of satellite observations on environmental policy and to propose a mission going forward that would launch an innovation cycle The achievements of such a mission would feed back to innovations in next generation observation technology thus contributing to global policy demand for policy relevant information This book is open access under a CC BY license
