Space And Time In Homer:

Space and Time in Homer Geoffrey C. Horrocks,1984 The March of Time Friedel Weinert,2013-04-03 The aim of this interdisciplinary study is to reconstruct the evolution of our changing conceptions of time in the light of scientific discoveries It will adopt a new perspective and organize the material around three central themes which run through our history of time reckoning cosmology and regularity stasis and flux symmetry and asymmetry It is the physical criteria that humans choose relativistic effects and time symmetric equations or dynamic kinematic effects and asymmetric conditions that establish our views on the nature of time This book will defend a dynamic rather than a static view of time Space, Time and Language in Plutarch Aristoula Georgiadou,Katerina Oikonomopoulou,2017-10-10 Space and time have been key concepts of investigation in the humanities in recent years In the field of Classics in particular they have led to the fresh appraisal of genres such as epic historiography the novel and biography by enabling a close focus on how ancient texts invest their representations of space and time with a variety of symbolic and cultural meanings This collection of essays by a team of international scholars seeks to make a contribution to this rich interdisciplinary field by exploring how space and time are perceived linguistically codified and portrayed in the biographical and philosophical work of Plutarch of Chaeronea 1st 2nd centuries CE The volume s aim is to show how philological approaches in conjunction with socio cultural readings can shed light on Plutarch s spatial terminology and clarify his conceptions of time especially in terms of the ways in which he situates himself in his era s fascination with the past The volume s intended readership includes Classicists intellectual and cultural historians and scholars whose field of expertise embraces theoretical study of space and time along with the linguistic strategies used to portray them in literary or historical texts *Untimely Epic* Tom Phillips,2020 Untimely Epic offers a new interpretation of time in Apollonius Rhodius Argonautica rather than focusing predominantly on the structure of the narrative it employs a range of theoretical concepts drawn from ancient and modern criticism to address how the poem shapes readers experience of time and temporality The Language of Mathematics Keith Devlin,2000-03-13 Taking the reader on a wondrous journey through the invisible universe that surrounds us a universe made visible by mathematics Devlin shows us what keeps a jumbo jet in the air explains how we can see and hear a football game on TV and allows us to predict the weather the behavior of the stock market and the outcome of elections Microwave ovens telephone cables children s toys pacemakers automobiles and computers all operate on mathematical principles Far from a dry and esoteric subject mathematics is a rich and living part of our culture **Vision** Frank C. Origins and Futures: Time Inflected and Reflected Raji C. Steineck,Claudia Clausius,2013-05-16 Origins and Futures Time Inflected and Reflected provokes an interdisciplinary dialogue about culture politics and science s strategies to divert the relentless trajectory of time Literature socio political policy physics among other subjects demonstrate the human refusal to enlist in temporal determinism Articles ranging from how detective fiction and international terrorism manipulate the

narration of events to the unlocking of political trauma through forgiveness to the genetic archaeology of the Human Genome project and the lacunar amnesia of nuclear energy corporations all argue that wherever human minds meet they wrestle to undo the irrevocable the irreversible the fixed Although such efforts look to the future they rarely look straight ahead Whatever their enterprise writers philosophers and scientists believe that origins are alacritous keys to future hopes and aspirations Contributors include Marcus Bullock Michael Crawford Patricia Engle Carol Fischer J T Fraser Sabine Gross Paul Harris Rosemary Huisman Karmen MacKendrick Steven Ostovich Walter Schweidler Friedel Weinert and Masae Yuasa **A**
