Space Academy The Kirsten Chronicles:

Chronicle of the Horse ,1983-04 **Writing History in the Digital Age** Jack Dougherty,Kristen Nawrotzki,2013-10-28 A born digital project that asks how recent technologies have changed the ways that historians think teach author and publish **Handbook of State Aid for Film** Paul Clemens Murschetz,Roland Teichmann,Matthias Karmasin,2018-04-01 This book is an analysis of the specificities of public film funding on an international scale It shows how public funding schemes add value to film making and other audio visual productions and provides a comprehensive analysis of today s global challenges in the film industry such as industry change digital transformation and shifting audience tastes Based on insights from fields such as cultural economics media economics media management and media governance studies the authors illustrate how public spending shapes the financial fitness of national and international film industries This highly informative book will help both scholars and practitioners in the film industry to understand the complexity of issues and the requirements necessary to preserve the social benefits of film as an important cultural good **JSTOR** Roger C. Schonfeld,2012-02-24 Ten years ago most scholars and students relied on bulky card catalogs printed bibliographic indices and hardcopy books and journals Today much content is available electronically or online This book examines the history of one of the first and most successful digital resources for scholarly communication JSTOR Beginning as a grant funded project of the Andrew W Mellon Foundation at the University of Michigan JSTOR has grown to become a major archive of the backfiles of academic journals and its own nonprofit organization Roger Schonfeld begins this history by looking at JSTOR s original mission of saving storage space and thereby storage costs a mission that expanded immediately to improving access to the literature What role did the University play Could JSTOR have been built without the active involvement of a foundation Why was it seen as necessary to spin off the project This case study proceeds as an organizational history of the birth and maturation of this nonprofit which had to emerge from the original university partnership to carve its own identity How did the grant project evolve into a successful marketplace enterprise How was JSTOR able to serve its twofold mission of archiving its journals while also providing access to them What has accounted for its growth Finally Schonfeld considers implications of the economic and organizational aspects of archiving as well as the system wide savings that JSTOR ensures by broadly distributing costs **The Chronicle of the Horse** ,2010 **Geography, Religion, Gods, and Saints in the Eastern Mediterranean** Erica Ferg,2020-01-16 Geography Religion Gods and Saints in the Eastern Mediterranean explores the influence of geography on religion and highlights a largely unknown story of religious history in the Eastern Mediterranean In the Levant agricultural communities of Jews Christians and Muslims jointly venerated and largely shared three important saints or holy figures Jewish Elijah Christian St George and Muslim al Khi r These figures share peculiar characteristics such as associations with rain greenness fertility and storms Only in the Eastern Mediterranean are Elijah St George and al Khi r shared between religious communities or characterized by these same agricultural attributes attributes

that also were shared by regional religious figures from earlier time periods such as the ancient Near Eastern Storm god Baal Hadad and Levantine Zeus This book tells the story of how that came to be and suggests that the figures share specific characteristics over a very long period of time because these motifs were shaped by the geography of the region Ultimately this book suggests that regional geography has influenced regional religion that Judaism Christianity and Islam are not historically or textually speaking separate religious traditions even if Jews Christians and Muslims are members of distinct religious communities and that shared religious practices between members of these and other local religious communities are not unusual Instead shared practices arose out of a common geographical environment and an interconnected religious heritage and are a natural historical feature of religion in the Eastern Mediterranean This volume will be of interest to students of ancient Near Eastern religions Judaism Christianity Islam sainthood agricultural communities in the ancient Near East Middle Eastern religious and cultural history and the relationships between geography and religion **The Oxford**
