Spanish John And The Great Armada:

The Enterprise of England John Roger Scott Whiting,1988 *State Papers Relating to the Defeat of the Spanish Armada, Anno 1588* John Knox Laughton,1894 **The Confident Hope of a Miracle** Neil Hanson,2007-12-18 The real story of the Spanish Armada In the winter of 1587 the Spanish Armada the largest force of warships ever assembled set sail to crush the English navy This breathtaking overview of one of the most fascinating campaigns in European history begins with the execution of Mary Queen of Scots the event that precipitated the launching of the Armada From the first whispers of the threat against England and the English crown to the return of the battered remnants of the fleet to Spain eighteen months later it is a story rich in incident and intrigue In this controversial study Neil Hanson claims that Francis Drake s intention was not to sink the Armada ships but to disable and plunder them He further claims that Queen Elizabeth was a monarch who left many of the survivors of the battle to die of disease or starvation and whose parsimony prevarication and cynicism left her unable to make crucial decisions Drawing on previously undiscovered personal papers Neil Hanson conveys in vivid detail how the highest and the lowest in the land fared in those turbulent months when the destiny of all Europe hung in the balance From the Trade Paperback edition **The Spanish Armada** Jay Williams,2015-10-28 In the summer of 1588 a great body of ships sailed from Spain on a Crusade to restore England to Catholicism The ensuing events brought a Spanish word armada into the English language and created a host of legends Intrepid English sea dogs in tiny ships it was said had bravely faced down towering Spanish galleons Finally a storm sent by a vengeful God wrecked most of that proud fleet on its way home Award winning author Jay Williams sheds new light on the traditional picture Although the English were superior sailors the two fleets were evenly matched Moreover the battle emerges as the high point of a four year cold war between England and Spain Only when set in the context of a Europe bitterly divided between Catholics and Protestants can the contest be fully understood The personalities of Queen Elizabeth I of England and King Philip II of Spain and their commanders especially Francis Drake are also key to this dramatic story *The Defeat of the Spanish Armada, Anno 1588* John Knox Laughton,1971 *States Papers Relating to the Defeat of the Spanish Armada* Sir John Knox Laughton,1894
