Spanish Sign Language:

Sign Languages of the World Julie Bakken Jepsen, Goedele De Clerck, Sam Lutalo-Kiingi, William B. McGregor, 2015-10-16 Although a number of edited collections deal with either the languages of the world or the languages of particular regions or genetic families only a few cover sign languages or even include a substantial amount of information on them This handbook provides information on some 38 sign languages including basic facts about each of the languages structural aspects history and culture of the Deaf communities and history of research This information will be of interest not just to general audiences including those who are deaf but also to linguists and students of linguistics By providing information on sign languages in a manner accessible to a less specialist audience this volume fills an important gap in the literature Semantic Fields in Sign Languages Ulrike Zeshan, Keiko Sagara, 2016-02-22 Typological studies require a broad range of linguistic data from a variety of countries especially developing nations whose languages are under researched This is especially challenging for investigations of sign languages because there are no existing corpora for most of them and some are completely undocumented To examine three cross linguistically fruitful semantic fields in sign languages from a typological perspective for the first time a detailed questionnaire was generated and distributed worldwide through emails mailing lists websites and the newsletter of the World Federation of the Deaf WFD This resulted in robust data on kinship colour and number in 32 sign languages across the globe 10 of which are revealed in depth within this volume These comprise languages from Europe the Americas and the Asia Pacific region including Indonesian sign language varieties which are rarely studied Like other volumes in this series this book will be illuminative for typologists students of linguistics and deaf studies lecturers researchers interpreters and sign language users who travel internationally The Linguistics of Sign Languages Anne Baker, Beppie van den Bogaerde, Roland Pfau, Trude Schermer, 2016-06-23 How different are sign languages across the world Are individual signs and signed sentences constructed in the same way across these languages What are the rules for having a conversation in a sign language How do children and adults learn a sign language How are sign languages processed in the brain These questions and many more are addressed in this introductory book on sign linguistics using examples from more than thirty different sign languages Comparisons are also made with spoken languages This book can be used as a self study book or as a text book for students of sign linguistics Each chapter concludes with a summary some test yourself questions and assignments as well as a list of recommended texts for further reading The book is accompanied by a website containing assignments video clips and links to web resources The Linguistics of British Sign Language Rachel Sutton-Spence, Bencie Woll, 1999-03-18 This is the first detailed explanation of the way British Sign Language works and is the product of many years experience of research and teaching sign linguistics to deaf and hearing people It assumes no previous knowledge of linguistics or sign language and is not structured around traditional headings such as phonology morphology and syntax Instead it is set out in such a way as to help learners and their teachers understand the linguistic

principles behind the language There are sections on BSL grammar and also on the use of BSL including social acceptability in signing variation and poetry and humour in BSL Technical terms and linguistic jargon are kept to a minimum and the text contains many examples from English BSL and other spoken and sign languages The book is amply illustrated and contains exercises as well as a reading list for further study An accompanying 90 minute DVD is available from Talk With Sign Books To find out more visit <http://www.talkwithsign.com/linguistics/british-sign-language/p/741.html> **Sign Language Machine**
