Duped Timothy R. Levine,2019-11-05 A scrupulous account that overturns many commonplace notions about how we can best detect lies and falsehoods From the advent of fake news to climate science denial and Bernie Madoff s appeal to investors people can be astonishingly gullible Some people appear authentic and sincere even when the facts discredit them and many people fall victim to conspiracy theories and economic scams that should be dismissed as obviously ludicrous This happens because of a near universal human tendency to operate within a mindset that can be characterized as a truth default We uncritically accept most of the messages we receive as honest We all are perceptually blind to deception We are hardwired to be duped The question is can anything be done to militate against our vulnerability to deception without further eroding the trust in people and social institutions that we so desperately need in civil society Timothy R Levine s *Duped Truth Default Theory and the Social Science of Lying and Deception* recounts a decades long program of empirical research that culminates in a new theory of deception truth default theory This theory holds that the content of incoming communication is typically and uncritically accepted as true and most of the time this is good Truth default allows humans to function socially Further because most deception is enacted by a few prolific liars the so called truth bias is not really a bias after all Passive belief makes us right most of the time but the catch is that it also makes us vulnerable to occasional deceit Levine s research on lie detection and truth bias has produced many provocative new findings over the years He has uncovered what makes some people more believable than others and has discovered several ways to improve lie detection accuracy In *Duped* Levine details where these ideas came from how they were tested and how the findings combine to produce a coherent new understanding of human deception and deception detection Love Inspired Suspense October 2023 - Box Set 1 of 2
