

The background of the entire slide is a repeating pattern of a stylized rooster. The rooster is depicted in a simple, graphic style with a prominent comb and tail feathers. It is positioned on a checkered grid, where the rooster appears on the light-colored squares and the dark-colored squares are empty. The pattern is consistent across the entire image.

Teaching As Subversive Activity:

Teaching As a Subversive Activity Neil Postman, 1971-07-15 A no holds barred assault on outdated teaching methods with dramatic and practical proposals on how education can be made relevant to today's world Praise for Teaching As a Subversive Activity A healthy dose of Postman and Weingartner is a good thing if they make even a dent in the pious American classroom the book will be worthwhile New York Times Book Review Teaching and knowledge are subversive in that they necessarily substitute awareness for guesswork and knowledge for experience Experience is no use in the world of Apollo 8 It is simply necessary to know However it is also necessary to know the effect of Apollo 8 in creating a new Global Theatre in which student and teacher alike are looking for roles Postman and Weingartner make excellent theatrical producers in the new Global Theatre Marshall McLuhan It will take courage to read this book but those who are asking honest questions what's wrong with the worlds in which we live how do we build communication bridges cross the Generation Gap what do they want from us these people will squirm in the discovery that the answers are really within themselves Saturday Review Neil Postman and Charles Weingartner go beyond the now familiar indictments of American education to propose basic ways of liberating both teachers and students from becoming personnel rather than people the authors have created what may become a primer of the new education Their book is intended for anyone teacher or not who is concerned with sanity and survival in a world of precipitously rapid change and it's worth your reading Playboy This challenging liberating book can unlock not only teachers but anyone for whom language and learning are not dead Nat Hentoff

Critical Legal Education as a Subversive Activity Helen Gibbon, Ben Golder, Lucas Lixinski, Marina Nehme, Prue Vines, 2015-10-16 In an age when everyone aspires to teach critical thinking skills in the classroom what does it mean to be a subversive law teacher Who or what might a subversive law teacher seek to subvert the authority of the law the university their own authority as teachers perhaps Are law students ripe for subversion agents of or impediments to subversion Do they learn to ask critical questions Responding to the provocation in the classic book *Teaching as a Subversive Activity* by Postman and Weingartner the idea that teaching could or even should be subversive still holds true today and its premise is particularly relevant in the context of legal education We therefore draw on this classic book to discuss in the present volume the consideration of research into legal education as lifetime learning as creating meaning as transformative and as developing world changing thinking within the legal context The volume offers research into classroom experiences and theoretical and historical interrogations of what it means to teach law subversively Primarily aimed at legal educators and doctoral students in law planning careers as academics its insights speak directly to tensions in higher education more broadly
