**Arts-Based Multiliteracies for Teaching and Learning**

Peters, Beryl, 2024-10-17 The current educational landscape demands more than traditional literacy skills to equip learners with the necessary tools to thrive in the modern world The traditional focus on reading and writing print text may not be sufficient to comprehend the diverse forms of meaning making necessary for effective communication and understanding in diverse communities This poses a crucial challenge for educators who aspire to foster engaged and critically aware learners who can navigate the complexities of contemporary society Arts Based Multiliteracies for Teaching and Learning offers a transformative solution by advocating for a pedagogy of multiliteracies centered on arts based approaches By redefining literacy to encompass diverse modalities such as dance drama music visual arts and multi media this book challenges educators to expand their understanding of literacy beyond traditional boundaries The book provides a compelling rationale for integrating arts based multiliteracies across all levels and curricular areas
