**Learning in the Secondary School** Ann Shelton Mayes, Bob Moon, 2016-12-22 Research and writing on secondary education is often a specialised treatment of isolated themes. This reader draws together the most significant work of recent years across a whole range of themes to give students and new teachers an overview of some of the most important issues and challenges that faced secondary teachers in the 1990s. It looks at the central players: the children and the teachers at the classrooms in which they work together at the curriculum both implicit and overt and at the wider community and political context of secondary education. Divided into sections to allow easy access to material of interest, the book covers learners, teachers, classrooms, curriculum, schools. Throughout the reader addresses the crucial issues of effectiveness, quality and achievement and how these will influence the work of the secondary teacher in the coming years **Preparing to Teach in**

Sandra Amos, Richard Boohan, 2002 This series brings together a range of articles, extracts from books and reports that inform an understanding of secondary schools in today's educational climate *Learning to Teach in the Secondary School* Susan Capel, Marilyn Leask, Sarah Younie, 2016-03-17 Learning to teach involves hard work and careful preparation. To become an effective teacher requires pedagogical and subject knowledge, an understanding of your pupils and how they learn, and the confidence to respond to dynamic classroom situations. *Learning to Teach in the Secondary School* is the market leading text for all undergraduate, postgraduate and school-based routes to qualified teacher status. It offers an in-depth and practical introduction to the knowledge, skills and understanding needed to become a confident and effective teacher. With a focus on evidence-based practice, the book includes a wealth of examples to demonstrate how to successfully apply theory to practice and how to critically analyse your practice to maximise pupil learning. This 7th edition is fully updated in light of the latest initiatives, evidence and research in the field, offering comprehensive coverage, unit by unit, of the key concepts and skills addressed on initial teacher education courses in preparation for work in schools. The wide range of pedagogical features support both university-based work, including that up to Masters Level, and school-based initial teacher education, and are designed to help you develop those qualities that lead to good practice and a successful future in education. Written by expert practitioners, thirty-six essential units include: adopting a positive approach to managing behaviour to support learning; ways pupils learn; planning lessons; units of work and schemes of work; motivating pupils; assessment; inclusion and special educational needs; using ICT and digital technologies; pupil grouping; progression and differentiation; managing time.
