Old, Daniel Swagerty, 2007 Designed for easy use at the bedside this manual contains the practical information health care professionals need to provide optimal end of life care The book presents a multidimensional holistic approach to assessment and management of the physical psychological social and spiritual needs of the patient and family Topics covered include cultural diversity in end of life care communicating with patients and families predicting life expectancy terminal care non pain symptom management pain control palliative interventions pediatric palliative care record keeping and ethics The succinct

user friendly presentation features bullet points and numerous quick reference tables Each chapter includes an In a Nutshell summary of key points Delivering Cancer and Palliative Care Education Lorna Foyle,Janis Hostad,2018-12-14 The quality of cancer and palliative care is going through unprecedented change and development as a result of policy initiatives The impact of these policies on education is unparalleled and it is essential that clinicians and educationalists are aware of the policy formation processes and educational strategies that meet the demands of these changing times This book takes a holistic approach to patient care and draws on the diverse experience in hospices and highlights best practice to present a comprehensive and practical guide However it does more New topics are given an educational perspective those with limited educational experience are given sound advice the implication of policy change is outlined This is an important book and one which should be read by all clinicians educators and managers responsible for improving services in cancer and palliative care *Innovations in Cancer and Palliative Care Education* Lorna Foyle,Janis Hostad,2017-10-03 This work includes Foreword by Nigel Sykes Medical Director St Christopher s Hospice London This practical evidence based guide has been specifically designed for teachers in cancer and palliative care It is completely up to date and covers the recent complex changes in cancer and palliative care delivery offering a range of different creative approaches Ideal for training the text includes highlighted key points self help questions for reflection and references where applicable It provides invaluable guidance for all healthcare professionals with palliative care teaching responsibilities including undergraduate and postgraduate healthcare educators and Macmillan lecturers This book gives us a three dimensional view of how to respond to the demands on cancer and palliative care education today set particularly in a British context but of course capable of extrapolation to other settings These three dimensions of innovation can be summarised as What do you teach How do you teach it To whom do you teach it Innovation in all three aspects simultaneously may be difficult to achieve but all who have a responsibility for education are faced with the challenges of making their teaching more effective and demonstrating that they have done so keeping abreast of advancing knowledge and clinical practice and of reaching out to groups of learners who hitherto have been neglected Of significant help to anyone in this field whose concern is the delivery of effective and appropriate education Nigel Sykes in the Foreword Palliative Care Jean Lugton,Rosemary McIntyre,2006-01-04 This title is directed primarily towards health care professionals outside of the United States Palliative Care The Nursing Role is an introductory text for nurses and other health care professionals who deliver palliative care across a range of settings It lays a clear foundation of knowledge focusing on the needs and perspectives of patients and families who face the challenge of advanced incurable illness The style is highly accessible yet challenges readers to analyze key issues that present within palliative care Covering the wide range of care provision in hospices hospitals and patients homes the book draws widely from practice based examples to explain and expand upon theoretical issues Research evidence underpins each of the chapters Guided activities encourage readers to reflect in a focused way on their clinical experience and current practice

This new edition has been fully updated to reflect ongoing developments and shifting trends in palliative care education and practice. It will suit the needs of both pre and post qualifying students seeking to develop their knowledge and is well suited to practitioners working within either generalist or specialist palliative care settings or within acute or community settings as well as those studying a range of palliative care educational curricula. The authors have a wide range of experience in palliative care and all are actively engaged in practice and or education. A clear broad based approach offers a thorough introduction for the non specialist nurse. Written and edited by an experienced team of nurses working in this field grounding it in current practice. Learning outcomes listed at the start of each chapter aid learning and comprehension. Reflective practice activities and an outline of CPD is especially useful for students working independently. Case histories, recommended reading lists and references provide a solid evidence base for clinically based practice and facilitate further study. Thoroughly revised and updated to reflect changes in policy direction. A new chapter on pain and symptom management. Revised content reflects the recent shift in the evidence base concerning spirituality. Includes psychosocial issues of loss for the patient, their family and carers.

Oxford Textbook of Palliative Medicine Nathan Cherny, Marie Fallon, Stein Kaasa, Russell K. Portenoy, David C. Currow, 2015-04-30. The definitive Oxford Textbook of Palliative Medicine now in its fifth edition has again been thoroughly updated to offer a truly global perspective in this field of extraordinary talent and thoughtfulness. Updated to include new sections devoted to assessment tools, care of patients with cancer and the management of issues in the very young and the very old, this leading textbook covers all the new and emerging topics since its original publication in 1993. In addition, the multi-disciplinary nature of palliative care is emphasized throughout the book, covering areas from ethical and communication issues, the treatment of symptoms and the management of pain. This fifth edition of the Oxford Textbook of Palliative Medicine is dedicated to the memory of Professor Geoffrey Hanks, pioneer in the field of palliative medicine and co-editor of the previous four editions. Winner in the Medicine category of the British Medical Association Book Awards, this is a truly comprehensive text. No hospital, hospice, palliative care service or medical library should be without this essential source of information.
