iPad Mediated Instructional Strategy (iPMIS) for Enhancing Reading Skills in Children with Autism - A Research Study Dr. Anita Paul, Dr. T. Geetha, 2022-12-06

Rebuilding the Foundation Timothy V. Rasinski, 2011-11-09 Teaching reading is a complex task without a simple formula for developing quality instruction. The authors present a deep and thoughtful conversation about what is meant by effective reading instruction for all students. Rather than build on or alter existing models, this book considers how educators and policymakers might think about rebuilding and reconceptualizing reading education perhaps from the ground up.

Foundations of Braille Literacy Evelyn J. Rex, 1994 This ground-breaking text addresses the teaching of braille reading and writing in the context of general literacy. Employing theoretical frameworks and approaches to teaching print reading and writing and practical applications for instruction in braille literacy, this innovative book can be used both in university training programs and by practicing educators working with braille learners. Foundations of Braille Literacy also includes perspectives on literacy, the history of literacy for people who are blind, the learning processes of people who are blind, and assessment of braille literacy.

Literacy in Australia Amy Seely Flint, Mark Vicars, Amanda Muscat, Maria Bennet, Robyn Ewing, Kylie Shaw, Lisa Kervin, Jessica Mantei, Jeanne Iorio, Catherine Hamm, Mitchell Parker, Marcelle Cacciattolo, Lawry Mahon, Sarah Tartakover, 2024-02-20 Infused with our authors' personal experiences teaching Literacy in Australia, 4th Edition is delivered as a full-colour printed textbook with an interactive eBook code included. With a prioritised focus on the Aboriginal and Torres Strait Islander histories and cultures featured throughout the text and a greater focus on using ICT in the classroom, pre-service teachers will be well equipped with the knowledge of what kinds of activities they can include in and out of the classroom for an enriching learning experience for their students.

Powerful Teacher Education Linda Darling-Hammond, 2012-06-28 Powerful Teacher Education describes the strategies, goals, content and processes of seven highly successful and long-standing teacher education programs: Alverno College, Bank Street College, Trinity University, University of California Berkeley, University of Southern Maine, University of Virginia, and Wheelock College. All these colleges and universities have succeeded in preparing teachers to teach diverse learners to achieve high levels of performance and understanding. In discussing the common features of these programs, Linda Darling-Hammond shows what outstanding teacher education models do and how they do it, and what their graduates accomplish as a result. Powerful Teacher Education also examines the policies, organizational features, resources and relationships that have enabled these programs to succeed.

Structured Literacy Jacquelyn Chovanes, Emily Sharp, 2025-03-04

This book follows the explicit instructional sequence noted by educational researchers as the most effective means of teaching students new skills and content. It begins by offering a rationale for why students should be interested in learning about structured literacy and how they can use it in their teaching practice. It provides background knowledge needed to contextualize the book's content. Then it takes learners step by step through the process of assessing students and creating effective structured literacy instructional routines. Detailed information about how to implement structured literacy instruction and intervention at all three tiers is provided. This textbook will be a unique and valuable addition to the extant literature because thus far no book has approached the topic in this way. There are books about structured literacy that include examples of learning activities (Spear-Swerling et al. 2021) but there is no single comprehensive textbook that can be readily picked up and used by college instructors and their students. This book is not a compendium of the research nor is it a program with scripted lessons. It is a comprehensive textbook that uniquely provides the background information on structured literacy and the methods related content needed to successfully prepare preservice teachers to assess, plan, and implement structured literacy instruction and intervention. The book is designed to be used in the context of a college-level one or two semester undergraduate or graduate literacy course. Currently no similar textbook exists. This book defines structured literacy, describes the history of reading research and the science of reading. Then the book provides explicit information about how students learn to read and the most effective methods and strategies teachers can use to teach reading to all students. Next, the book provides detailed and specific instruction in specific structured literacy practices to use at Tiers 1 and 2. Intensive assessment, diagnostic, and instructional strategies for learners who require individualized Tier 3 intervention are thoroughly explained. Many detailed examples of specific instructional routines and corrective procedures are included along with reproducibles that support lesson planning, implementation, and assessment. At the end of each chapter, discussion questions and suggestions for hands-on learning activities are provided. Preparing pre-service teachers in the whys and hows of structured literacy instruction and intervention allows them to teach reading effectively according to current understanding of the science of reading. Teachers prepared with this knowledge base will be able to use the resources in this book to create additional materials and adapt materials from any literacy program to individualize instruction according to the needs of their students. This book will be a valuable addition to any college-level general or special education reading methods course. The instructional routines taught in the book are designed to be accessible to students with and without disabilities. Effective reading instruction such as the kind described in this book increases educational equity for students of color and English learners. Suggestions for differentiating instruction based upon individual student needs are provided.
