Teaching The Ancient World:

Study and Teaching Guide: The History of the Ancient World Julia Kaziewicz, 2013-11-10 A curriculum guide to accompany *The History of the Ancient World From the Earliest Accounts to the Fall of Rome* by Susan Wise Bauer. Susan Wise Bauer's narrative world history series is widely used in advanced high school history classes as well as by home educating parents. The Study and Teaching Guide designed for use by both parents and teachers provides a full curriculum with study questions and answers, critical thinking assignments, essay topics, instructor rubrics, and test forms. Explanations for answers and teaching tips are also included. The Study and Teaching Guide designed by historian and teacher Julia Kaziewicz in cooperation with Susan Wise Bauer makes *The History of the Ancient World* recommended for high school study in *The Well Trained Mind: A Guide to Classical Education at Home*, even more accessible to educators and parents alike.

Teaching Global History Alan J. Singer, 2012-04-27 *Teaching Global History* challenges prospective and beginning social studies teachers to formulate their own views about what is important to know in global history and why. It explains how to organize the curriculum around broad social studies concepts and themes and student questions about humanity, history, and the contemporary world. All chapters include lesson ideas, a sample lesson plan with activity sheets, primary source documents, and helpful charts, graphs, photographs, and maps. High school students' responses are woven in throughout. Additional material corresponding to each chapter is posted online at http://people.hofstra.edu/alan_j_singer. The traditional curriculum tends to highlight the Western heritage and to race through epochs and regions, leaving little time for an in-depth exploration of concepts and historical themes for the evaluation of primary and secondary sources and for students to draw their own historical conclusions. Offering an alternative to such pre-packaged textbook outlines and materials, this text is a powerful resource for promoting thoughtful reflection and debate about what the global history curriculum should be and how to teach it.

Teaching Classics Worldwide Steven Hunt, John Bulwer, 2025-02-06 Designed for instructors in schools and universities as well as stakeholders and policy makers in education everywhere, this book is a systematic guide to contemporary school teaching of classical languages, literature, and civilisation in major countries across the world. This book examines the trends and assesses the rationale for such diversity in programmes of study and asks the question: What are classical subjects for in today's schools? Each chapter is arranged by geographical area and draws on the experiences of teachers and other education experts in each country, commenting on contemporary practices. Themes such as the impact of national education policies, enrolment, assessment, accessibility, and inclusion are discussed. The teaching of Classics has wide variations in practices and purposes from one education system to another. In some, the teaching of Classics continues to be focused on the mastery of language and grammar; in others, active use of the ancient languages is growing in popularity; and yet in others, the focus is shifting towards the study of the languages and civilisations in translation. Presenting an overview, survey, and comparison of practices across the world, this book is essential reading for instructors and teaching training courses in the world of classical
