ROBERT FISHER

Teaching Thinking Philosophical Enquiry In The Classroom 2d Ed

Neil Mercer, Rupert Wegerif, Louis Major

Teaching Thinking Philosophical Enquiry In The Classroom 2d Ed:

Teaching Thinking Robert Fisher, 1998 *Teaching Thinking* is a guide to ways of using discussion in the classroom to develop children's thinking learning and literacy skills It shows the reader how to engage children in a special kind of discussion called a community of enquiry This book illustrates how philosophical discussion helps promote critical thinking and the moral and social values essential for citizenship in a democratic society It shows how a community of enquiry can be created in any classroom enriching learning across the whole curriculum *Teaching Thinking* is a sourcebook of ideas to help teachers students and others interested in education to understand and engage in philosophical enquiry with children

Teaching Thinking Robert Fisher, 2013-10-10 This fully updated fourth edition of the highly successful guide *Teaching Thinking* explores how to use discussion in the classroom to develop children's thinking learning and literacy skills This new edition includes material on the latest trends in teaching thinking including philosophy for children dialogic teaching and education for citizenship The book will help readers from different cultural traditions to critically engage with teaching thinking in schools and other educational contexts *Teaching Thinking* is essential reading for anyone seeking to develop children's thinking build their self esteem and improve the quality of teaching and learning ***Teaching Thinking*** Robert Fisher, 2003-08-01 This fully updated second edition is a sourcebook of ideas to help teachers students and others interested in education to understand and engage in philosophical enquiry with children It illustrates how philosophical discussion can help to promote critical thinking as well as the moral and social values essential for citizenship in a democratic society It shows how a community of enquiry can be created in any classroom enriching learning across the whole curriculum **The**

Pedagogy of the Community of Philosophical Enquiry as Citizenship Education Joshua Forstenzer, Fufy Demissie, Vachararutai Boontinand, 2024-07-19 This edited volume combines reflections methods and experiences from a globally diverse group of scholars to investigate the meaning value and effectiveness of the pedagogy of the Community of Philosophical Enquiry CoPE derived from or in conversation with Lipman and Sharp's Philosophy for Children P4C in the context of civic education Maintaining that a rich diversity of voices is an important corrective to narrower academic discourses the chapters in this book bring an array of scholarly thought from across the world working in various political and educational contexts to bear on a common question How can CoPE help practitioners engage in civic education The contributions draw on qualitative methods philosophical literature and practitioner case studies to explore the benefits challenges questions and methods related to the use of CoPE for the sake of citizenship education in Thailand Malaysia Italy Iceland Israel Greece Canada the United Kingdom and the United States of America Ultimately the book provides critical reflections and insights into the civic dimension of CoPE and some CoPE related practices across a wide range of pedagogic cultural and political contexts Addressing the need for a touchstone publication on the interplay between CoPE and citizenship education the book will be of interest to academics and postgraduate students interested in the philosophy of

education citizenship education democratic education and international and comparative education **Developing Active Learning in the Primary Classroom** Anitra Vickery, 2013-10-10 Establishing an effective learning environment in the classroom requires a clear understanding of different teaching strategies that make children active participants in their own learning This book explores a range of philosophies and strategies to develop active learning in primary education It balances theory with practice to provide evidence based guidance and suggestions for use in the classroom Key topics include Creating a supportive learning environment Developing the questioning skills of teachers and children Learning through assessment Developing thinking skills through curriculum subjects Active learning in early years education Philosophy for Children P4C Frameworks to promote thinking This is essential reading for professional studies modules on primary initial teacher education courses including university based PGCE PGDE BA QTS BEd school based SCITT School Direct and employment based routes into teaching It also serves as a handbook for schools that are developing their approaches to active learning Anitra Vickery works as senior lecturer in primary mathematics education and the Professional Studies Coordinator at Bath Spa University **Teaching Students Thinking Skills and Strategies** Dorothy Howie, 2011-08-15 This book sets out the theory and outlines a model for implementing the teaching of thinking at whole school group and individual levels in inclusive settings The model uses a three tier approach to ensure that all learners are included teaching thinking for all working with small groups and addressing individualised learning needs How to Teach Thinking and Learning Skills CJ Simister, 2007-04-30 Includes Online Resources The author puts into perspective the importance of teaching thinking and learning skills providing clear explanations and easy to follow activities that can be used as a series of lessons or simply as a one off As a resource for the primary practitioner it is both practical and informative ESCalate A treasure trove of practical resources to stretch young people s thinking muscles Professor Guy Claxton University of Bristol It is full of useful ideas for busy teachers and helpful in getting the children rather than the teachers to do the thinking in the classroom Professor Robert Fisher Brunel University By helping children to form positive thinking and learning habits and to develop a range of transferable skills we give them the tools they need to become successful learners This book is grounded in the best of current practice and theories surrounding thinking and learning skills It provides a highly effective method for introducing a comprehensive set of thinking and learning skills to children aged 5 to 11 as well as for integrating these skills through the curriculum By means of carefully developed games activities and group tasks these ready to use lessons will appeal to a wide range of learners and abilities Features of the book include a clear explanation of what thinking and learning skills are lots of photocopiable activities for use by individual teachers and in INSET a plan for introducing thinking and learning skills in your school suggestions for further reading and development of the programme Headteachers Curriculum Co ordinators and classroom practitioners wishing to introduce and develop thinking and learning skills in their school can either follow this programme in its entirety or dip into it when appropriate for specific activities **Learning to**

Teach in the Primary School James Arthur, Teresa Grainger, David Wray, 2006 This new textbook provides support to student teachers on primary ITT BED and PGCE courses It supplies a practical introduction to the teaching skills as well as the theory underpinning them

Education in the Age of Misinformation Lana Parker, 2023-06-23 This edited volume examines the implications of misinformation and youth digital life in a new information environment This new information environment is characterized by high levels of user engagement hidden algorithmic manipulations and information abundance including misinformation and disinformation While misinformation and disinformation in the post truth era have been previously investigated this edited volume offers a distinctive educational focus that scholars have not yet addressed Chapters contribute to the ongoing discussion of the role of education in democracies while uniquely contextualizing the problem of misinformation as a pedagogical opportunity Contributions from across the globe answer the question of how education might respond to the changing information environment through engagements with educational philosophy democracy and everyday practices of teaching and learning The book adds to a growing body of work exploring what it means to engage in responsive rather than reactive or stagnant pedagogy

Teaching for Social Justice and Sustainable Development Across the Primary Curriculum Anne Marie Kavanagh, Fionnuala Waldron, Benjamin Mallon, 2021-03-21 This volume supports educators in integrating meaningful education for social justice and sustainability across a wide range of curricular subjects by drawing on educational theory innovative pedagogical approaches and creative ideas for teaching and learning Both practical and theoretical in its approach it addresses subject areas ranging from mathematics to visual arts to language teaching Chapters provide subject entry points for teachers seeking to embed social justice and sustainability principles and pedagogies into their work Transferable across various areas of learning a range of pedagogical approaches are exemplified ranging from inquiry approaches to ethical dilemmas to critical relational pedagogies Ready to use teaching exemplars activities and resources address issues which are of interest and relevance to children's lives including gender stereotyping racism heterosexism climate change and species extinction Practical guidance is provided on how to engage children in dialogue and reflection on these complex issues in a safe and ethical way This accessible and unique volume is essential reading for student teachers teachers educational leaders teacher educators and anyone interested in inspiring children to work towards creating a more socially just and sustainable world

Socializing Intelligence Through Academic Talk and Dialogue Lauren Resnick, Christa Asterhan, Sherice Clarke, 2015-04-19 Socializing Intelligence Through Academic Talk and Dialogue focuses on a fast growing topic in education research Over the course of 34 chapters the contributors discuss theories and case studies that shed light on the effects of dialogic participation in and outside the classroom This rich interdisciplinary endeavor will appeal to scholars and researchers in education and many related disciplines including learning and cognitive sciences educational psychology instructional science and linguistics as well as to teachers curriculum designers and educational policy makers

Philosophy for Children Through

the Secondary Curriculum Lizzy Lewis, Nick Chandley, 2012-05-31 Philosophy for Children P4C is an approach to learning and teaching that aims to develop reasoning and judgement. Students learn to listen to and respect their peers' opinions, think creatively and work together to develop a deeper understanding of concepts central to their own lives and the subjects they are studying. With the teacher adopting the role of facilitator, a true community develops in which rich and meaningful dialogue results in enquiry of the highest order. Each chapter is written by a leading P4C expert and provides an introduction to the relationship between P4C and the subject area, lesson stimuli and activities for extending and deepening students' thinking. The book includes guidance on how to embed P4C in curriculum subjects in a crowded and demanding secondary curriculum timetable, troubleshooting advice for the teacher turned facilitator, a companion website containing useful links, downloadable resources and material to display on your interactive whiteboard. Edited and collated by the UK's leading P4C organisation, this book introduces a rationale for using and adapting P4C in the secondary curriculum. *Learning to Teach in the Primary School* Teresa Cremin, James Arthur, 2014-02-24 Flexible, effective and creative primary school teachers require subject knowledge, an understanding of their pupils and how they learn, a range of strategies for managing behaviour and organising environments for learning, and the ability to respond to dynamic classroom situations. This third edition of *Learning to Teach in the Primary School* is fully updated with reference to the new National Curriculum and has been revised to provide even more practical advice and guidance to trainee primary teachers. Twenty-two new authors have been involved and connections are now made to Northern Irish, Welsh and Scottish policies. In addition, five new units have been included on making the most of your placement, play and exploration in learning, behaviour management, special educational needs, phonics. With Masters-level reflective tasks and suggestions for research-based further reading, the book provides valuable support to trainee teachers engaged in learning through school-based experience and through reading, discussion and reflections as part of a teacher education course. It provides an accessible and engaging introduction to knowledge about teaching and learning that every student teacher needs to acquire in order to gain qualified teacher status (QTS). This comprehensive textbook is essential reading for all students training to be primary school teachers, including those on undergraduate teacher training courses (BED, BA with QTS, BSc with QTS), postgraduate teacher training courses (PGCE, SCITT) and employment-based teacher training courses (Schools Direct, Teach First), plus those studying Education Studies. This textbook is supported by a free companion website with additional resources for instructors and students and can be accessed at www.routledge.com/cw/cremin. **Values and Vision in Primary Education** Kathleen Taylor, Richard Woolley, 2013-07-16 Against a backdrop of ever-changing government initiatives and strategies, it is essential that you have a firm vision for the roles and purposes of education to inform your interpretation of education. This accessible and engaging book provides you with the scaffolding to develop your reflective practice as you journey towards developing your own philosophy of education. It enables you to consider how your aspirations and vision can be enacted in practical ways in the

classroom and provides a means to evaluate and analyse your own practice The structure of the book and its individual chapters guides you through supported reflective activities and case study examples so that the exploration of educational philosophy is thoroughly grounded in professional practice The book offers Supported reflection on values underpinning primary education Practical examples to set theory within context An issues based approach to pedagogy and curriculum Examples of philosophy and practice developed by practitioners With its wide range of thought provoking ideas examples and case studies this is an excellent resource if you are thinking about becoming a teacher training to teach or beginning your teaching career This book reaffirms in a very readable and engaging way the liberal humane values that have informed and still inform the work of so many primary schools and teachers It challenges its readers to engage personally with both values and vision This is particularly necessary in the current context where primary education is in danger of being replaced by primary schooling through government diktat The book is part of the principled resistance necessary to combat this menace to English childhood and teacher professionalism Colin Richards former senior HMI and Emeritus Professor University of Cumbria UK A book putting children at the centre of education is a rare delight It sloughs away the boredom of government directives and the compliant culture Compton that follows Chapters begin with eye catching vignettes about learning The text is evocatively written and like a good novel has memorable nuggets at regular intervals e g Taylor s curiosity is all about possibilities The book delivers practical approaches for student teachers by practitioners It is refreshing in its willingness to articulate values Kimaliro and Woolley present the challenge for us all how can teachers make possible the dreams that are to shape tomorrow s pathways Dr Trevor Kerry Emeritus Professor University of Lincoln UK Linda Cooper Karen Elvidge Nigel Hutchinson Eunice Kimaliro Lindy Nahmad Williams Rachael Paige Mike Steele **The Routledge International Handbook of Research on Dialogic Education** Neil Mercer, Rupert Wegerif, Louis Major, 2019-09-26 The Routledge International Handbook of Research on Dialogic Education provides a comprehensive overview of the main ideas and themes that make up the exciting and diverse field of Dialogic Education With contributions from the world s leading researchers it describes underpinning theoretical approaches debates methodologies evidence of impact how Dialogic Education relates to different areas of the curriculum and ways in which work in this field responds to the profound educational challenges of our time The handbook is divided into seven sections covering The theory of Dialogic Education Classroom dialogue Dialogue teachers and professional development Dialogic Education for literacy and language Dialogic Education and digital technology Dialogic Education in science and mathematics Dialogic Education for transformative purposes Expertly written and researched the handbook marks the coming of age of Dialogic Education as an important and distinctive area of applied educational research Featuring chapters from authors working in different educational contexts around the world the handbook is of international relevance and provides an invaluable resource for researchers and students concerned with the study of educational dialogue and allied areas of socio cultural research It will interest students on PhD programmes in

Education Faculties Master s level courses in Education and postgraduate teacher training courses The accounts of results achieved by high impact research projects around the world will also be very valuable for policy makers and practitioners

A Broad and Balanced Curriculum in Primary Schools Susan Ogier,2019-06-29 As pressures of standardised testing and the focus on English and maths impact on teaching time how can teachers ensure that the curriculum truly is broad and balanced How do we ensure that we are educating the whole child This book provides both an exploration of the current challenges in the curriculum as well as practical guidance on how to tackle them This book is needed to contextualise the current situation and to inform and inspire today s teachers to teach across the curriculum The Routledge International

Companion to Gifted Education Tom Balchin,Barry Hymer,Dona J. Matthews,2013-02-01 The Routledge International Companion to Gifted Education is a ground breaking collection of fully referenced chapters written by many of the most highly respected authorities on the subject from around the world These fifty contributors include distinguished scholars who have produced many of the most significant advances to the field over the past few decades like Joseph Renzulli and Robert Sternberg alongside authorities who ask questions about the very concepts and terminology embodied in the field scholars such as Carol Dweck and Guy Claxton This multi faceted volume highlights strategies to support giftedness in children providing ideas that work and weeding out those that don t is written in jargon free language in an easy to use themed format is the most authoritative collection of future focused views ideas and reflections practices and evaluations yet produced includes chapters dealing with the major controversies and concerns in the field today from the problems of identification to changing understandings of giftedness and creativity The international aspect of the Companion and its juxtaposition of points of view whereby chapters are deliberately positioned and accompanied by editorial commentary to highlight the contrasts with each other ensures that different views are addressed allowing the reader to absorb and reflect upon the many perspectives on each issue The Companion is a guide to the new ideas and controversies that are informing gifted education discussion and policy making around the world It is a first class resource to students and researchers alike

Philosophical Inquiry with Children Gilbert Burgh,Simone Thornton,2018-12-07 Philosophy in schools in Australia dates back to the 1980s and is rooted in the Philosophy for Children curriculum and pedagogy Seeing potential for educational change Australian advocates were quick to develop new classroom resources and innovative programs that have proved influential in educational practice throughout Australia and internationally Behind their contributions lie key philosophical and educational discussions and controversies which have shaped attempts to introduce philosophy in schools and embed it in state and national curricula Drawing together a wide range of eminent scholars and practitioners in the field of educational philosophy this anthology the first of its kind provides not only a historical narrative but an opportunity to reflect on the insights and experiences of the authors that have made history The collection is divided into three parts The overarching theme of Part I is the early years of Philosophy for Children in Australia and how they informed the course that

the philosophy in schools movement would take Part II focuses on the events and debates surrounding the development and production of new materials including arguments for and against the suitability of the original Philosophy for Children curriculum In Part III key developments relating to teaching philosophy in schools are analysed This collection of diverse views critical appraisals and different perspectives of historical currents is intended to stimulate thought provoking questions about theory and practice and to increase general awareness both nationally and internationally of the maturation of philosophy in schools in Australia It is also intended to encourage readers to identify emerging ideas and develop strategies for their implementation The If Machine, 2nd edition Peter Worley, 2019-07-25 Fully updated edition with five brand new sessions and bonus features Fully updated with new developments in the theory and practice of teaching philosophy this new edition of the bestselling book *The If Machine* presents 30 clear ready to use plans to teach philosophy in the classroom with children aged five to 13 Each tried and tested session offers an imaginary situation followed by a series of questions to encourage children to challenge key philosophical ideas such as values and ethics gender and identity and existence and beauty With a star system indicating the level of difficulty this practical book by Peter Worley founder of The Philosophy Foundation outlines Peter's philosophical enquiry method which he has developed over 20 years of teaching This fantastic resource also includes a new hints and tips section as well as a troubleshooting table with guidance and links to further resources about how to deal with common problems such as unanimity Accompanied by a companion website featuring an introduction to the philosophy that inspired the ideas *The If Machine* is a must have resource for all classrooms

Transforming Thinking Catherine C. McCall, 2013-12-02 Essential reading for anyone who seeks to prepare active citizens for the twenty first century this long awaited book considers Philosophical Inquiry an empowering teaching method that can lead to significant improvements in confidence and articulacy and produce positive effects in other school activities and in interactions in the wider world Readers are guided through the creation of a Community of Philosophical Inquiry CoPI in the kindergarten the classrooms of primary and secondary schools the community centre and beyond with practical ideas to make CoPI work With examples ranging from five year old children to underachieving teenagers and even senior citizens the book shows how participation in a CoPI develops the skills of reasoning critical and creative thinking concept formation and judgment the virtues of intellectual honesty and bravery Including chapters on the theory and development of Philosophical Inquiry the creation of a community and using CoPI with groups of different ages this book forms essential reading for teachers professionals and community workers
