Bednarek, 2018-10-04. This book offers a comprehensive linguistic analysis of contemporary US television series. Adopting an interdisciplinary and multimethodological approach, Monika Bednarek brings together linguistic analysis of the Sydney Corpus of Television Dialogue with analysis of scriptwriting manuals, interviews with Hollywood scriptwriters, and a survey undertaken with university students about their consumption of TV series. In so doing, she presents five new and original empirical studies. The focus on language use in a professional context, the television industry on scriptwriting pedagogy and on learning and teaching provides an applied linguistic lens on TV series. This is complemented by perspectives taken from media linguistics, corpus linguistics, and sociocultural linguistics/sociolinguistics. Throughout the book, multiple dialogue extracts are presented from a wide variety of well-known fictional television series, including *The Big Bang Theory*, *Grey's Anatomy*, and *Bones*. Researchers in applied linguistics, discourse analysis, critical discourse analysis, corpus linguistics, sociolinguistics, and media linguistics will find the book both stimulating and unique in its approach. *Teaching TV News* Eileen Lewis, 2003-11. Thomas S. C. Farrell, George M. Jacobs, 2020-11-26. This book is about how to teach English as a second language and how second language students learn. With Communicative Language Teaching (CLT) at its centre, it takes a practical approach to second language teaching backed up by clearly explained theory. Presenting eight essential principles across twelve chapters, the book covers Learner Autonomy, Social Learning, Integrated Curriculum, Meaning, Diversity, Thinking Skills, Alternative Assessment, and Teacher Co-learning, and shows how technology and reflective teaching can be used to support and enhance these essentials in the classroom. Combining theory and practice, *Essentials for Successful English Language Teaching* explains how these principles interweave and support each other within the CLT paradigm, demonstrating why they are best implemented as a whole rather than one at a time. Now revised and brought fully up to date, this new edition includes a brand new chapter covering technology and cooperation in teaching practice and how they support CLT-based activities. Vignettes

for each essential principle to consolidate theory and demonstrate best practice Updated real world examples drawing on teaching experiences from North America Africa and Asia Taking a big picture view that assumes no prior knowledge of linguistics or language education Essentials for Successful English Language Teaching is an energising and fun guide for language practitioners *Teaching and Learning English in the Arabic-Speaking World* Kathleen M.
