numerous policy initiatives there is a need to question the nature and function of school curricula and the purposes of formal public education Comparing curriculum developments around the globe Understanding the School Curriculum draws on a range of educational philosophical and sociological theories to examine the question What is a curriculum for In considering different answers to this fundamental question it explores a range of topical issues and debates including tensions and dynamics within curriculum policy The implications of uncertainty and rapid social change for curriculum development the positive and negative influence of free market ideologies on public education the impact of globalization and digital technologies arguments for and against common core curricula and state control It examines the possibility of a school curriculum that is not shaped and monitored by dominant interests but that has as its founding principles the promotion of responsibility responsiveness a love of learning and a sense of wonder and respect for the natural and social world Understanding the School Curriculum is for all students following undergraduate and Masters courses in curriculum public policy and education related subjects It is also for all training and practising teachers who wish to combine a deeper understanding of major curriculum issues with a critical understanding of the ways in which ideologies impact on formal state education and to consider ways of producing school curricula that are appropriate to the times we live in **Law as**

**Civic Education** Ariel Liberman, 2025-06-27 If a civic education is the essential foundation for a functioning discursive democracy how should it be taught This book offers an innovative solution arguing that far from abandoning the often grand promise of civic education as a means of cultivating reasoning skills and democratic character we should embrace it and proposes a reimagined civic education based on teaching students in primary and secondary school law and legal reasoning Drawing on a range of theoretical disciplines law philosophy ethics sociology psychology and moral educational and child development theory this monograph justifies the benefits of law learning as a form of character and civic education and offers historical and comparative educational examples to show what is possible It demonstrates how legal teaching can be incorporated into a K 12 curriculum and argues that such training can be transformative guiding students to become citizens capable of meeting the demands of democracy citizens with stronger reasoning skills a motivation to self examine their values and beliefs and bring them into conversation with social values and an ability to effectively navigate political institutions and participate in public discourse This compelling and deeply original work will be of interest to scholars and educators in the fields of civic education character and virtue education legal studies and philosophy of education

Teachers, Human Rights and Diversity Audrey Osler, 2005 How should we educate citizens in multicultural societies This question is receiving increasing attention in countries across the world In this volume authors from England Northern Ireland the Republic of Ireland and the United States report on recent research in this field and consider the implications for teachers teacher education and student teachers Case studies illustrate how young citizens can learn to apply the principles of human rights and equality in resolving complex and controversial issues The contributors include Hilary Claire Colm O

Cuanachain Carole Hahn Anne Hudson Ulrike Neins and Jackie Reilly Jill Rutter Chris Wilkins This book will be of particular interest to student teachers and their tutors Diversity and Citizenship Education James A. Banks, 2006-12-22 The increasing ethnic racial cultural religious and language diversity in nations throughout the world is forcing educators and policymakers to rethink existing notions of citizenship and nationality To experience cultural democracy and freedom a nation must be unified around a set of democratic values such as justice and equality that balance unity and diversity and protect the rights of diverse groups Diversity and Citizenship Education Global Perspectives brings together in one comprehensive volume a group of international experts on the topic of diversity and citizenship education These experts discuss and identify the shared issues and possibilities that exist when educating for national unity and cultural diversity Diversity and Citizenship Education Global Perspectives presents compelling case studies and examples of successful programs and practices from twelve nations discusses problems that arise when societies are highly stratified along race cultural and class lines and describes guidelines and benchmarks that practicing educators can use to structure citizenship education programs that balance unity and diversity The book covers a broad range of issues and includes vital information on such topics as Migration citizenship and education The challenge of racialized citizenship in the United States The contribution of the struggles by Indians and Blacks for citizenship and recognition in Brazil Crises of citizenship education and ethnic issues in Germany Russia and South Africa Conflicts between religious and ethnic factions Diversity globalization and democratic education Education and Development in Zimbabwe Edward Shizha, Michael T. Kariwo, 2012-01-01 The book represents a contribution to policy formulation and design in an increasingly knowledge economy in Zimbabwe It challenges scholars to think about the role of education its funding and the egalitarian approach to widening access to education The nexus between education democracy and policy change is a complex one The book provides an illuminating account of the constantly evolving notions of national identity language and citizenship from the Zimbabwean experience The book discusses educational successes and challenges by examining the ideological effects of social political and economic considerations on Zimbabwe s colonial and postcolonial education Currently literature on current educational challenges in Zimbabwe is lacking and there is very little published material on these ideological effects on educational development in Zimbabwe This book is likely to be one of the first on the impact of social political and economic meltdown on education The book is targeted at local and international academics and scholars of history of education and comparative education scholars of international education and development undergraduate and graduate students and professors who are interested in educational development in Africa particularly Zimbabwe Notwithstanding the book is a valuable resource to policy makers educational administrators and researchers and the wider community Shizha and Kariwo s book is an important and illuminating addition on the effects of social political and economic trajectories on education and development in Zimbabwe It critically analyses the crucial specifics of the Zimbabwean situation by providing an in depth discourse on education at this

historical juncture The book offers new insights that may be useful for an understanding of not only the Zimbabwean case but also education in other African countries Rosemary Gordon Senior Lecturer in Educational Foundations University of Zimbabwe Ranging in temporal scope from the colonial era and its elitist legacy through the golden era of populist universal elementary education to the disarray of contemporary socioeconomic crisis covering elementary through higher education and touching thematically on everything from the pernicious effects of social adjustment programmes through the local deprofessionalization of teaching this text provides a comprehensive wide ranging and yet carefully detailed account of education in Zimbabwe This engagingly written portrayal will prove illuminating not only to readers interested in Zimbabwe s education specifically but more widely to all who are interested in how the sociopolitical shapes education how ideology policy international pressures economic factors and shifts in values collectively forge the historical and contemporary character of a country s education Handel Kashope Wright Professor of Education University of British Columbia
