Leitch,M. Keith Booker,2001 The Norton Anthology of Theory and Criticism presents a staggeringly varied collection of the most influential critical statements from the classical era to the present day *The Norton Anthology of Literature by Women* Sandra M. Gilbert,Susan Gubar,2007 Long the standard teaching anthology the landmark Norton Anthology of Literature by Women has introduced generations of readers to the rich variety of women s writing in English Centenary Reflections on Mark Twain's No. 44, the Mysterious Stranger Joseph Csicsila,Chad Rohman,2009 In this first book on No 44 in thirty years thirteen especially commissioned essays by some of today s most accomplished Twain scholars cover an array

of topics from domesticity and transnationalism to race and religion and reflect a variety of scholarly and theoretical approaches to the work This far reaching collection considers the status of No 44 within Twain s oeuvre as they offer cogent insights into such broad topics as cross culturalism pain and redemption philosophical paradox and comparative studies of the Mysterious Stranger manuscripts All of these essays attest to the importance of this late work in Twain s canon whether considering how Twain s efforts at truth telling are premeditated and shaped by his own experiences tracing the biblical and religious influences that resonate in No 44 or exploring the text s psychological dimensions Several address its importance as a culminating work in which Twain s seemingly disjointed story lines coalesce in meaningful albeit not always satisfactory ways An afterword by Alan Gribben traces the critical history of the Mysterious Stranger manuscripts and the contributions of previous critics A wide ranging critical introduction and a comprehensive bibliography on the last century of scholarship bracket the contributions Close inspection of this multidimensional novel shows how Twain evolved as a self conscious thinker and humorist and that he was a more conscious artist throughout his career than has been previously thought Centenary Reflections deepens our understanding of one of Twain s most misunderstood texts confirming that the author of No 44 was a pursuer of an elusive truth that was often as mysterious a stranger as Twain himself **Social**

Constructionist Identity Politics and Literary Studies S. Gupta,2007-01-10 This study presents a critique of social constructionist identity politics which is distinguished from specific identity based political positions from within and with social constructionist commitments Gupta examines the institutionalization of social constructionist identity politics in literary studies considering the notions of canonicity *Rebecca West Today* Bernard Schweizer,2006 Almost the entire corpus of West s fiction receives attention in this volume with the exception of *The Thinking Reed* which is in itself a telling fact Jacket *The British National Bibliography* Arthur James Wells,2003 Teaching Theory R. Bradford,2011-01-27 Teaching Theory offers a selection of essays on the pragmatics benefits and shortcomings of Theory as a key aspect of literature teaching in universities They range from reflective discussions of Theory as an intellectual challenge for undergraduates to accounts of the day to day problems of planning and teaching courses and implementing Theory
