In this second edition, Bailey provides band instructors with even more diagrams as well as information on computer charting techniques. The book is divided into four units. The first provides the fundamentals of the marching band and its terminology: marching forms and movements, selection and arrangement of music, charting of formations, and ways to arrange a show. Unit two covers music instruction, improvement of marching and memorization skills, warmups, methods for building endurance and power, and ways to organize band rehearsals. The third unit provides instruction in choosing props and structuring auxiliary units, as well as guidance in tuning and staging the marching percussion line. Global Percussion Innovations Louise Devenish, 2018-09-03 First emerging in North America and Europe in the late 1920s, contemporary percussion practices have transitioned from the fringes of contemporary music to the forefront over the past 90 years. In the 1960s, contemporary percussion practices reached Australian shores, and a new generation of artists added their voices to this narrative. The role of Australian activity is not yet embedded in the wider narrative of international contemporary percussion, nor is the significance of developments in contemporary percussion practices fully realised in the context of Australian music history. In this monograph, political, social, and cultural influences on this art form will be examined for the first time in a historical survey of contemporary percussion music in Australia over a 50-year period from 1960 to 2010. The rise of the percussion ensemble in the twentieth century to a standard chamber music ensemble is now recognised as one of the major advances in western art music practice internationally. A focus will be placed on ensemble

activity via definitive documentation and analysis of ensembles that are amongst the most pioneering and longest established of Australian contemporary music organisations including the Australian Percussion Ensemble Synergy Percussion Adelaide Percussions Nova Ensemble Tetrafile Percussion Taikoz Clocked Out and Speak Percussion amongst others Closing with a discussion of influences and identity this historical narrative will expand our understanding of the impact of Australian contributions to the international contemporary music scene while simultaneously examining how developments in contemporary percussion have contributed to Australia's cultural identity
