The language dimension in all subjects Jean-Claude Beacco, Mike Fleming, Francis Goullier, Eike Thürmann, Helmut

Vollmer, Joseph Sheils, 2016-10-24 Mastering the language of schooling is essential for learners to develop the skills necessary for school success and for critical thinking It is fundamental for participation in democratic societies and for social inclusion and cohesion This handbook is a policy and working document which promotes convergence and coherence between the linguistic dimensions of various school subjects It proposes measures to make explicit in curricula pedagogic material and teacher training the specific linguistic norms and competences which learners must master in each school subject It also presents the learning modalities that should allow all learners and in particular the most vulnerable among them to benefit from diversified language learning situations in order to develop their cognitive and linguistic capacities

International Handbook of the Religious, Moral and Spiritual Dimensions in Education Marian de Souza, Gloria Durka, Kathleen Engebretson, Robert Jackson, Andrew McGrady, 2007-06-04 Traditionally spirituality has resided and been contained within religious frameworks but while the links between the two areas are still acknowledged by many in the contemporary world spirituality is perceived by some as an aspect of human life that is distinct from religion Consequently many are searching for meaning within and without religious traditions today and seeking answers to ethical and moral questions that have been generated by the knowledge and technological explosion One outcome is the renewed interest in the religious spiritual and moral dimensions of education throughout the life cycle This International Handbook presents the research and professional practice of scholars who are daily engaged in the consideration of these dimensions in education The result is a collection of essays which reflects the discipline in all of its internationality as it is today Embedded within the chapters is also an agenda for the future where the religious moral and spiritual dimensions in education are proposed as an exciting and challenging way forward for educators at all levels in society As well it offers a vision for the emergence of a peaceful and just world

What Research Really Says about Teaching and Learning to Read Stephen B. Kucer, 2008 This groundbreaking collection examines official views of the teaching and learning of reading those endorsed by the National Reading Panel No Child Left Behind and Reading First initiatives and challenges the assumptions on which the views are based Together the contributors offer an alternate vision to currently accepted ideas and practices in reading education What Research Really Says about Teaching and Learning to Read provides historical context for the current reading debates and then examines forms of resistance to existing policies The contributors with support of NCTE's Commission on Reading synthesize a broad range of research concerning the nature of reading how it is learned and its development across the grades They examine specific curricular and instructional strategies for reading development in children and adolescents They also offer a powerful decision making matrix to help evaluate reading curricula as well as a research based collection of best practices Recognizing that classrooms are becoming more ethnically racially and linguistically diverse this pioneering book addresses the needs of multilingual students and of readers who struggle under current national reading policies The contributors highlight the transformative power of professional development and

celebrate success stories in the era of No Child Left Behind and Reading First From publisher description Observing Teacher Identities through Video Analysis Amy Vetter, Melissa Schieble, 2015-09-25 Teaching is often seen as an identity process with teachers constructing and enacting their identities through daily interactions with students parents and colleagues This volume explores how conducting video analysis helps teachers gain valuable perspectives on their own identities and improve classroom practice over time This form of interactional awareness fosters reflection and action on creating classroom conditions that encourage equitable learning The volume follows preservice English teachers as they examine video records of their practice during student teaching and how the evidence impacts their development as literacy teachers of diverse adolescents By applying an analytic framework to video analysis the authors demonstrate how novice teachers use positioning theory to transform their own identity performance in the classroom Education scholars teachers and professional developers will greatly benefit from this unique perspective on teacher identity work *Teaching Content and Language in the Multilingual Classroom* Svenja Hammer, Kara Mitchell Viesca, Nancy L. Commins, 2019-07-03 This book brings together research from six different countries across three continents where teacher educators and policy makers are addressing the under preparation of content teachers to work effectively with multilingual learners By highlighting this relatively young field of research at an international level the book advances the research based knowledge of the field and promotes international research relationships and partnerships to better support the education of multilingual learners and their teachers The chapters represent high quality empirical qualitative quantitative and mixed methods studies about pre service and in service teachers Comprising four sections each represents a critical aspect of the equitable teaching of multilingual learners All the research was conducted in countries that belong to OECD Organisation for Economic Co operation and Development and the PISA Programme for International Student Assessment enabling the reader to compare contexts and outcomes This book will be of particular interest to academics researchers and post graduate students in the fields of language education teacher education and education for multilingual learners It will be of great value to anyone concerned with equity and social justice for multilingual learners whose languages cultural practices and resources are often overlooked and or marginalized in the schools they attend *Proceedings of the 2023 3rd International Conference on Education, Information Management and Service Science (EIMSS 2023)* Guiyun Guan, Christian Kahl, Bootheina Majoul, Deepanjali Mishra, 2023-10-29 This is an open access book Amidst the advancement of modern science and technology especially the development of information technology our society has entered a stage of highly developed information technology We should do our utmost to utilize the achievements yielded by scientific and technological innovation vigorously promote the informatization of education management and provide quality services for education and teaching The importance of information technology education in educational management simply cannot be overstated Educational management is closely related to college education and teaching Only through good educational management
