The Adult Rider Sarah Montague, 2009-05-16 Sarah Montague's *The Adult Rider* describes everything you need to know if you are interested in introducing or reintroducing horses to your life The book begins with a thorough description of all equestrian disciplines from Western barrel racing reining cutting penning to English show jumping dressage eventing and so much more You might try endurance riding in which you and your equine partner hit the trails for miles or maybe you've considered polo a sport gaining popularity in the United States and creating opportunities for eager beginners Perhaps you love horses but aren't so sure you want to ride Montague will introduce you to the thrill of driving the artistry of in hand competitions and the joys of miniature horses Whichever discipline you consider the author takes you step by step through the process from choosing a stable what to look for in an instructor and in a barn to picking out your new riding clothes you need only a helmet and sturdy shoes to start but there's a world of apparel and accessories once you're hooked Do you think you might want to buy a horse someday *The Adult Rider* describes this process as well but also introduces you to other alternatives like leasing a month to month arrangement that lets you see how a horse fits into your life in both time and money before you make a commitment *The Adult Rider* recognizes that we are not the same as the resilient kids who fearlessly hop their pony over a fence for that very first time Montague discusses what makes adults mentally and physically different and how to overcome these challenges In the chapter *The View from the Other Side of the Arena* Montague interviews several riding instructors on the difference between teaching kids and adults and the ways in which adults learn differently All in all the point is to have fun and *The Adult Rider* provides you with the know how to jump into the horse world with both eyes open

The Evolution of Techniques Mathieu Charbonneau, 2024-03-26 A novel interdisciplinary exploration of the relative contributions of rigidity and flexibility in the adoption, maintenance, and evolution of technical traditions. Techniques can either be used in rigid, stereotypical ways or in flexibly adaptive ways or in some combination of the two. The Evolution of Techniques, edited by Mathieu Charbonneau, addresses the impacts of both flexibility and rigidity on how techniques are used, transformed, and reconstructed at varying social and temporal scales. The multidisciplinary contributors demonstrate the important role of the varied learning contexts and social configurations involved in the transmission, use, and evolution of techniques. They explore the diversity of cognitive, behavioral, sociocultural, and ecological mechanisms that promote and constrain technical flexibility and rigidity, proposing a deeper picture of the enablers of and obstacles to technical transmission and change. In line with the extended evolutionary synthesis, the book proposes a more inclusive and materially grounded conception of technical evolution in terms of promiscuous, dynamic, and multidirectional causal processes. Offering new evidence and novel theoretical perspectives, the contributors deploy a diversity of methods, including ethnographies, field and laboratory experiments, cladistics, and phylogenetic tree building, historiography, and philosophical analysis. Examples of the wide range of topics covered include field experiments with potters from five cultures, stability and change in Paleolithic toolmaking, why children lack flexibility when making tools, and cultural techniques in nonhuman animals. The volume's three thematic sections are: Timescales of technical rigidity and flexibility; Rigid copying to flexible reconstruction; Exogenous factors of technical rigidity and flexibility. The volume closes with a discussion by philosopher Kim Sterelny. Contributors: Rita Astuti, Adam Howell, Boyette Blandine, Bril Josep, Call Mathieu, Charbonneau Arianna, Curioni Nicola, Cutting Bert, De Munck Gyrgy, Gergely Anne, Lise Goujon, Ildik Kirly, Catherine Lara, Sbastien Manem, Luke McEllin, Helena Miton, Giulio Ongaro, Sarah Pope, Caldwell Valentine, Roux Manon, Schweinfurth Dan, Sperber Kim, Sterelny Dietrich, Stout James, W A Strachan, Sadie Tenpas.
