## **Teaching The Tough Ones:**

Teaching Tough Topics Larry Swartz, 2020-01-15 Teaching Tough Topics shows teachers how to lead students to become caring citizens as they read and respond to quality children's literature. It focuses on topics that can be challenging or sensitive yet are significant in order to build understanding of social justice, diversity and equity. Racism, Homophobia, Bullying, Religious Intolerance, Poverty and Physical and Mental Challenges are just some of the themes explored. The book is rooted in the belief that by using picture books, novels, poetry and nonfiction, teachers can enrich learning with compassion and empathy as students make connections to texts, to others and to the world. *Teaching Tough Kids* Mark Le

Messurier, 2009-12-04 How can you really make a difference for your students? Teaching Tough Kids delivers a refreshing collection of realistic ideas to sustain the organisational and behavioural transformations of all students, particularly those who do it tough, who learn and react differently. They are complex kids who find life tougher than most. Managing their emotion and behaviour presents educators with a spectacular challenge in schools today and numbers are on the rise. Filled with inspirational case studies, this book focuses on building improved relationships, structures and behaviours rather than seeing the student as the problem that must be fixed. Highlighting the value of promoting positive connections with students of all ages, the author presents ways to incorporate inclusive ideas into everyday practice and construct pathways for students to become engaged in their learning and achieve success. This stimulating book shows teachers how to build student connectedness to learning, set achievable goals for each individual child, support emotional stability, strengthen organisation, patterns, address behavioural issues, improve homework planning, create friendships and deal with bullying. Teaching Tough Kids takes a particularly close focus on students identified with Learning Disability, Attention Deficit Disorder, Attention Deficit Hyperactivity Disorder, Oppositional Defiant Disorder and Asperger Syndrome. Another group of students with executive functioning difficulties are emerging in schools. These are the kids who have endured neglect or too much stress and uncertainty in their lives and as a result display classic symptoms of hyperactivity, hyper vigilance and impulsivity. Teaching Tough Kids will be of immense interest to teachers, student teachers, staff in Pupil Referral Units, SENCos and all those involved with Behaviour Support work. *An Administrator's Guide to Better Teacher Mentoring* William L.

Fibkins, 2011-01-16 This book addresses a major gap in the current mentoring programs at the secondary level. Staff development resources are often concentrated on helping new teachers be successful in their early school experience. Yes, a good idea, but a limited vision. Meanwhile, many veteran teachers go without the mentoring assistance they need to be effective classroom teachers. While a few become mentors themselves, many veteran teachers just settle slowly, giving up and become at risk of failure, burnout and thinking only of retirement. This book is a call to school superintendents, building administrators, department chairs, school board members, union leaders, parent leaders and teacher educators to address the need to provide ongoing mentoring for all teachers. **Teaching Difficult History through Film** Jeremy Stoddard, Alan

Marcus, David Hicks, 2017-06-26 **Teaching Difficult History through Film** explores the potential of film to engage young people in controversial or contested histories and how they are represented ranging from gender and sexuality to colonialism and slavery Adding to the education literature of how to teach and learn difficult histories contributors apply their theoretical and pedagogical expertise and experiences to a variety of historical topics to show the ways that film can create opportunities for challenging conversations in the classroom and attempts to recognize the perspectives of historically marginalized groups Chapters focus on translating research into practice by applying theoretical frameworks such as critical race theory auto ethnography or cultural studies as well as more practical pedagogical models with film Each chapter also includes applicable pedagogical considerations such as how to help students approach difficult topics model questions or strategies for engaging students and examples from the authors own experiences in teaching with film or in leading students to develop counter narratives through filmmaking These discussions of the real considerations facing classroom teachers and professors are sure to appeal to experienced secondary teachers pre service teacher education programs graduate students and academic audiences within education history and film studies Part and chapter discussion guides full references of the films included in the book and resources for teachers are available on the book s companion website [www.teachingdifficulthistory.com](http://www.teachingdifficulthistory.com)

**Teaching Difficult Topics** Olivia R. Lucas, Laura Moore Pruett, 2024-10-14 **Teaching Difficult Topics** provides a series of on the ground reflections from college music instructors working in a wide variety of institutional settings about their approaches to inclusive supportive pedagogy in the music classroom Although some imagine the music classroom to be an apolitical space instructors find themselves increasingly in need of resources for incorporating issues of race and ethnicity gender and sexuality and historical trauma into their classrooms in ways that support student learning and safeguard their classroom communities The teaching reflections in **Teaching Difficult Topics** examine difficult themes that fall into three primary categories subjects that instructors sense to be controversial or emotionally challenging to discuss those that derive from or intersect with real world events that are difficult to process and bigger picture discussions of how music studies often focuses on dominant narratives while overlooking other perspectives Some chapters offer practical guidance lesson plans and teaching materials to enable instructors to build discussions of race gender sexuality and traumatic histories into their own classrooms others take a more global view reflecting on the importance and relevance of teaching these difficult topics and on how to respond in the music classroom when external events disrupt daily life

**Teaching Difficult Students** Nicole M. Gnezda, 2004-12-08 Here is an easy to read and inspiring text that explores the nature of young people and the effects traditional discipline strategies have on them The author recommends humanistic approaches that promote personal growth in students rather than the common system of reward and punishment that aggravates underlying psychological issues and encourages resentment retaliation apathy and failure Includes an academic review of educational psychology theories step by step instructions on how to discipline students humanely and effectively
