Hispania archaeologically historically culturally ethnologically linguistically etc This book reveals the Ancient Egyptian roots of the Romany Gypsies and how they brought about the civilization and orientalization of Hispania over the past 6 000 years The book also shows the intimate relationship between Egypt and Hispania archaeologically historically culturally ethnologically linguistically etc as a result of the immigration of the Egyptian Romany Gypsies to Iberia This Expanded Version of the book consists of 14 chapters Chapter one The Romany Gypsy Essence of Hispania sorts through the subject of the Gypsies and differentiates the Egyptian Romany from non Egyptian nomadic groups It highlights their Egyptian characteristics and their different related groups Chapter two Our Heavenly Mother shows how Ancient Egypt and Iberia share the intense love for the Virgin Mother known in Ancient Egypt as Isis and in Christianity as Mary Maria A shortened version of the story of Isis and Osiris is presented so as to draw parallels between the Ancient Egyptian Isis and the Virgin Mary The role of Mary Auset formed the basis for the matrilineal matriarchal societal framework This chapter also shows the role of the bull in Ancient Egypt and Iberia and that the practices of bullfights and running of the bulls in Iberia can only be found in Ancient Egypt since at least 5 000 years ago Chapter three Out of Egypt gives an overview of the major pitfalls in the common theories about the history of Iberia It highlights the false chronology and dating in most references It also highlights the incredible silence in most references about the role of the most populous wealthiest and prominent civilization in the ancient world namely Egypt It provides the accounts of early Egyptian immigration to other countries and accounts of some of their early settlements in Asia and Europe It also provides the general consensus on the population characteristics in Iberia and how the Ancient Egyptians of all nations in the world match these characteristics exactly Chapter four The Egyptian Hispanic Alloys describes the Ancient Egyptian knowledge of metallurgy and their ability to make numerous metallic alloys It will show how Ancient Egypt lacked certain minerals to make specific alloys such as electrum copper and bronze the high demand for metals in Egypt and how the fluctuation in the production of such goods in Ancient Egypt correlated to the rise and fall of mining activities in Iberia It also shows the Ancient Egyptian history of organization and management of large mining sites settlement fortifications etc Chapter five In the Beginning Almeria highlights the archaeological findings at the early settlements in several Iberian regions beginning at Almeria and correlates these activities in Iberia with Ancient Egypt to show unique similarities and affinities between Ancient Egypt in pre and early dynastic times and Iberia in all aspects of religion architecture farming metalworking etc Chapter six Masters of the Seas shows the supremacy of the Ancient Egypt ships their sizes types and functions It provides an overview of the Egyptian goods that were sought worldwide It identifies the patrons deities of travel and how they were adopted 100% by others such as the Phoenicians Chapter seven Merchants of the Seas evaluates the common theory about the role of the Phoenicians Punics in the history of Iberia by describing the archaeological and historical evidence in the Phoenicians homeland The evidence is overwhelming that Phoenicia was a vassal of Ancient Egypt and that the Phoenicians copied all aspects of the Ancient

Egyptian culture It shows that Phoenicians were experienced seafarers and traders and nothing else The Phoenicians did not have the number of people or the talent for the farming art industry and building skills necessary to establish new settlements in Iberia or elsewhere Chapter eight Canopus and C diz A Tale of Two Harbors provides a clear history of C diz and its role as the western gateway to western Iberia northern Europe and the African continent It shows that the reported fishing and salting techniques as well as its famed dancers were duplicates of the same in Ancient Egypt It highlights the significance of the Canopus harbors Alexandria before Alexander as the center of commerce in the whole world for thousands of years It describes the role of the Egyptian Hercules Herakles at Egyptian harbors and how other countries imitated Egypt in this regard It shows the similarities between the C diz harbor with its temples and the harbor at Canopus with its temples Chapter nine The Assyrian Devastation and Aftershocks correlates the rise of power of the Assyrians and later the Persians to the waves of mass migration from Ancient Egypt which coincided with the increase in population and the number of settlements in Iberia Chapter ten Romanticizing the Romans addresses the lack of merit of Romans influence in Iberia in all aspects of Iberian life such as culture government religion language society buildings etc Chapter eleven The Moors and the Egyptians addresses the falsehoods of credits given to the Moors Moslems Arabs It identifies the true origin of these invaders and how they were removed from the civilized aspects in Iberia such as farming housing gardens arts crafts etc and how all these aspects and activities were only found in Egypt before they appeared in Iberia It also shows the huge number of Egyptian settlers in the areas that are the best farmed in Iberia such as Algarve and Murcia Chapter twelve The Origin of the Hispanic Languages Dialects defines the role of the Ancient Egypt language as the mother of all Semitic languages as well as all other languages dialects in the Mediterranean Basin and beyond Chapter thirteen The Animated Religious Traditions shows how the people of both Egypt and the Iberian Peninsula share the same concept of Animism the power of saints religious pilgrimages festivals etc It also describes the role of Ancient Egypt in Priscillianism which was and continues to be widespread It also relates the fate of Priscillian to the pilgrimage and traditions at Santiago de Compostela It shows that the history and practices of confraternities in Catholic ruled Iberia and southern Italy coincide exactly with Sufi Orders in Islamized countries and that the fundamentals and practices of these mystical groups under Islamic and Christian rules are of Ancient Egyptian origin Chapter fourteen The Egyptian Hispanic Musical Heritage shows the intimacy between the Egyptians and Iberian heritage as it relates to music poetry song and dance It shows that the Ancient Egyptians not the Moors are the source of music singing dancing and poetry in the Iberian Peninsula It highlights the role of the Egyptian Romany as the performers of these activities in the Iberian Peninsula It describes the major celebratory musical activities in both Egypt and the Iberian Peninsula
