Gurak, 2008-10-01 divThe Internet has changed our social spaces our political and social realities our use of language and the way we communicate all with breathtaking speed Almost everyone who deals with the Internet and the new world of cyberspace communication at times feels bewildered dismayed or even infuriated In this clear and helpful book computer communications scholar Laura J Gurak takes a close look at the critical issues of online communication and discusses how to become literate in the new mass medium of our era In cyberspace Gurak shows us literacy means much more than knowing how to read Cyberliteracy means being able to sort fact from fiction to detect extremism from reasonable debate and to identify gender bias commercialism imitation parody and other aspects of written language that are problematic in online communication Active reading skills are essential in cyberspace where hoaxes abound advertising masquerades as product information privacy is often compromised and web pages and e mail messages distort the truth Gurak analyzes the new language of the Internet explaining how to prepare for its discourse and protect oneself from its hazards This book will appeal to anyone with an interest in the impact of the Internet on the practices of reading and writing and on our culture in general DIV **IT Girls** John S. 000 a year and widespread alcohol and drug use What the Krantzlers make clear is that aside from the simple geographical designation Silicon Valley is the name for a psychological obsession found any place where people believe that instant fame and fortune can be gained through silicon chips and Web sites This dream nourishes itself on an illusion of power and instant gratification And like heroin and cocaine it is highly addictive promising total happiness but often ending in disarray and despair Based on interviews with many Silicon Valley executives who have decided to change their lives to achieve true well being for themselves and their families this book concludes with a formula for real success a well rounded balanced and fully human life
