Technical Difficulties African American Notes On The State Of The Union:

Technical Difficulties June Jordan, 1994 A noted scholar discusses such topics as the American myths of race and class the link between poetry and politics the poverty of American education and African American literature by women **Urban Triage** James Kyung-Jin Lee, 2004 In the 1980s America witnessed an explosion in the production popularity and influence of literary works by people of color and a decade long economic downturn that severely affected America's inner cities and the already disadvantaged communities of color that lived there Marked by soaring levels of unemployment homelessness violence drug abuse and despair this urban crisis gave the lie to the American dream particularly when contrasted with the success enjoyed by the era's iconic stockbrokers and other privileged groups whose fortunes increased dramatically under Reaganomics In *Urban Triage* James Kyung Jin Lee explores how these parallel trends of literary celebration and social misery manifested themselves in fictional narratives of racial anxiety by focusing on four key works Alejandro Morales's *The Brick People* John Edgar Wideman's *Philadelphia Fire* Hisaye Yamamoto's *A Fire in Fontana* and Tom Wolfe's *The Bonfire of the Vanities* Each of these fictions he finds addresses the decade's racial ethnic and economic inequities from differing perspectives Morales's revisions of Chicano identity Yamamoto's troubled invocation of the affinities between African Americans and Asian Americans the problematic connections between black intellectuals and the black community aired by Wideman and Wolfe's satirization of white privilege Drawing on the fields of literary criticism public policy sociology and journalism Lee deftly assesses the success with which these multicultural fictions engaged in the debates over these issues and the extent to which they may actually have alienated the very communities that their creators purported to represent Challenging both the uncritical celebration of abstract multiculturalism and its simpleminded vilification Lee roots *Urban Triage* in specific instances of multiracial contact and deeply informed readings of works that have been canonized within ethnic studies and of those that either remain misunderstood or were misguided from the start James Kyung Jin Lee is assistant professor of English and Asian American studies at the University of Texas at Austin Black Women As Cultural Readers Jacqueline Bobo, 1995 A pathbreaking study of African American women's responses to literature and film Bobo focuses on a small group of middle class African American women as they process literature by Terry McMillan Alice Walker that addresses their own experiences This work should command the attention of all scholars of American popular culture Choice How do black women react as an audience to representations of themselves and how do their patterns of consumption differ from other groups Interviews with ordinary black women from many backgrounds uses novels and films to reveal how black female audiences absorb works *Midwest Book Review* **I Am a Man!** Steve Estes, 2005 The civil rights movement was first and foremost a struggle for racial equality but questions of gender lay deeply embedded within this struggle Steve Estes explores key groups leaders and events in the movement to understand how activists used race a **Black Women, Writing and Identity** Carole Boyce-Davies, 2002-09-11 *Black Women Writing and Identity* is an exciting work by one of the

most imaginative and acute writers around The book explores a complex and fascinating set of interrelated issues establishing the significance of such wide ranging subjects as re mapping re naming and cultural crossings tourist ideologies and playful world travelling gender heritage and identity African women s writing and resistance to domination marginality effacement and decentering gender language and the politics of location Carole Boyce Davies is at the forefront of attempts to broaden the discourse surrounding the representation of and by black women and women of colour Black Women Writing and Identity represents an extraordinary achievement in this field taking our understanding of identity location and representation to new levels *Working the Ruins* Elizabeth St. Pierre, Wanda Pillow, 2002-05-03 From some of the leading feminist scholars in education comes a collection of writings discussing how they use feminist poststructural theory in their classrooms and research Drawing on real life situations in their work they show how using this theory has transformed their work Topics covered include theory in everyday life ethnography writing the body emotions in the classroom qualitative research and gossip as a counter discourse The range of topics processes and styles presented provides the reader with a variety of examples illustrating the diversity and power of the effects of poststructural theory as well as showing the possibilities of work still to be done Women Take Care Katie Hogan, 2018-08-06 Self sacrificing mothers and forgiving wives caretaking lesbians and vigilant maternal surrogates these good women are all familiar figures in the visual and print culture relating to AIDS In a probing critique of that culture Katie Hogan demonstrates ways in which literary and popular works use the classic image of the nurturing female to render queer AIDS more acceptable while consigning women to conventional roles and reinforcing the idea that everyone with this disease is somehow suspect In times of crisis the figure of the idealized woman who is modest and selfless has repeatedly surfaced in Western culture as a balm and a source of comfort and as a means of mediating controversial issues Drawing on examples from journalism medical discourse fiction drama film television and documentaries Hogan describes how texts on AIDS reproduce this historically entrenched paradigm of sacrifice and care a paradigm that reinforces biases about race and sexuality Hogan believes that the growing nostalgia for women s traditional roles has deflected attention away from women s own health needs Throughout her book she depicts caretaking as a fundamental human obligation but one that currently falls primarily to those members of society with the least power Only by rejecting the stereotype of the good woman she says can Americans begin to view caretaking as the responsibility of the entire society **Violence Against Black Bodies** Sandra E. O'Connor,2010-11-01 A look at the importance that shared beliefs attitudes and behaviors have on combating homophobia racism sexism and other forms of discrimination and violence *Qualitative Inquiry Under Fire* Norman K

Denzin,2017-03-02 This collection of recent works by Norman K Denzin provides a history of the field of qualitative inquiry over the past two decades As perhaps the leading proponent of this style of research Denzin has led the way toward more performative writing toward conceptualizing research in terms of social justice toward inclusion of indigenous voices and toward new models of interpretation and representation In these 13 essays which originally appeared in a wide variety of sources and are edited and updated here the author traces how these changes have transformed qualitative practice in recent years In an era when qualitative inquiry is under fire from conservative governmental and academic bodies he points the way toward the future including a renewed dialogue on paradigmatic pluralism

Mulattas and Mestizas Suzanne

Bost,2010-02-25 In this broadly conceived exploration of how people represent identity in the Americas Suzanne Bost argues that mixture has been central to the definition of race in the United States Mexico and the Caribbean since the nineteenth century Her study is particularly relevant in an era that promotes mixed race musicians actors sports heroes and supermodels as icons of a new America Bost challenges the popular media s notion that a new millennium has ushered in a radical transformation of American ethnicity in fact this paradigm of the changing face of America extends throughout American history Working from literary and historical accounts of mulattas mestizas and creoles Bost analyzes a tradition

dating from the nineteenth century of theorizing identity in terms of racial and sexual mixture By examining racial politics in Mexico and the United States racially mixed female characters in Anglo American African American and Latina narratives and ideas of mixture in the Caribbean she ultimately reveals how the fascination with mixture often corresponds to racial segregation sciences of purity and white supremacy The racism at the foundation of many nineteenth century writings encourages Bost to examine more closely the subtexts of contemporary writings on the browning of America Original and ambitious in scope Mulattas and Mestizas measures contemporary representations of mixed race identity in the United States against the history of mixed race identity in the Americas It warns us to be cautious of the current millennial celebration of mixture in popular culture and identity studies which may contrary to all appearances mask persistent racism and nostalgia for purity
