Anna Julia Cooper, Visionary Black Feminist Vivian M. May, 2012-08-21 Vivian M May explores the theoretical and political contributions of Anna Julia Cooper a renowned Black feminist scholar educator and activist whose ideas deserve far more attention than they have received Drawing on Africana and feminist theory May places Cooper s theorizing in its historical contexts and offers new ways to interpret the evolution of Cooper s visionary politics subversive methodology and defiant philosophical outlook Rejecting notions that Cooper was an elitist duped by dominant ideologies May contends that Cooper s ambiguity code switching and irony should be understood as strategies of a radical methodology of dissent May shows how across six decades of work Cooper traced history s silences and delineated the workings of power and inequality in an array of contexts from science to literature economics to popular culture religion to the law education to social work and from the political to the personal May emphasizes that Cooper eschewed all forms of mastery and called for critical consciousness and collective action on the part of marginalized people at home and abroad She concludes that in using a border crossing intersectional approach Cooper successfully argues for theorizing from experience develops inclusive methods of liberation and crafts a vision of a fundamentally egalitarian social imaginary *Serve the People* Karen L. Kamau,2004-08-02 This work sets forth the guidelines for an Afrocentric literary theory and goes on to apply that theory to three novels *Invisible Man* *Song of Solomon* and *The Chaneysville Incident* *Postcolonial Theory and the United States*

Amritjit Singh,Peter Schmidt,2009-11-12 At the beginning of the twenty first century we may be in a transnational moment increasingly aware of the ways in which local and national narratives in literature and elsewhere cannot be conceived apart from a radically new sense of shared human histories and global interdependence To think transnationally about literature history and culture requires a study of the evolution of hybrid identities within nation states and diasporic identities across national boundaries Studies addressing issues of race ethnicity and empire in US culture have provided some of the most innovative and controversial contributions to recent scholarship *Postcolonial Theory and the United States Race Ethnicity and Literature* represents a new chapter in the emerging dialogues about the importance of borders on a global scale This book collects nineteen essays written in the 1990s in this emergent field by both well established and up and coming scholars Almost all the essays have been either especially written for this volume or revised for inclusion here These essays are accessible well focused resources for college and university students and their teachers displaying both historical depth and theoretical finesse as they attempt close and lively readings The anthology includes more than one discussion of each literary tradition associated with major racial or ethnic communities Such a gathering of diverse complementary and often competing viewpoints provides a good introduction to the cultural differences and commonalities that comprise the United States today The volume opens with two essays by the editors first a survey of the ideas in the individual pieces and second a long essay that places current debates in US ethnicity and race studies within both the history of American studies as a whole and recent developments in postcolonial theory **Urban Triage** James Kyung-Jin Lee,2004 In the 1980s America witnessed an explosion in the production popularity and influence of literary works by people of color and a decade long economic downturn that severely affected America s inner cities and the already disadvantaged communities of color that lived there Marked by soaring levels of unemployment homelessness violence drug abuse and despair this urban crisis gave the lie to the American dream particularly when contrasted with the success enjoyed by the era s iconic stockbrokers and other privileged groups whose fortunes increased dramatically under Reaganomics In *Urban Triage* James Kyung Jin Lee explores how these parallel trends of literary celebration and social misery manifested themselves in fictional narratives of racial anxiety by focusing on four key works Alejandro Morales s *The Brick People* John Edgar Wideman s *Philadelphia Fire* Hisaye Yamamoto s *A Fire in Fontana* and Tom Wolfe s *The Bonfire of the Vanities* Each of these fictions he finds addresses the decade s racial ethnic and economic inequities from differing perspectives Morales s revisions of Chicano identity Yamamoto s troubled invocation of the affinities between African Americans and Asian Americans the problematic connections between black intellectuals and the black community aired by Wideman and Wolfe s satirization of white privilege Drawing on the fields of literary criticism public policy sociology and journalism Lee deftly assesses the success with which these multicultural

fictions engaged in the debates over these issues and the extent to which they may actually have alienated the very communities that their creators purported to represent Challenging both the uncritical celebration of abstract multiculturalism and its simpleminded vilification Lee roots *Urban Triage* in specific instances of multiracial contact and deeply informed readings of works that have been canonized within ethnic studies and of those that either remain misunderstood or were misguided from the start James Kyung Jin Lee is assistant professor of English and Asian American studies at the University of Texas at Austin
