Oral Presentations for Technical Communication Laura J. Gurak, 2000 Oral Presentations for Technical Communication provides what most technical communication books lack clear accessible instruction on speaking This book helps professionals master public speaking in a technical or scientific environment whether it be through traditional presentations with whiteboards and flipcharts or presentations with computer software such as PowerPoint Unlike most general speech texts which include examples from various disciplines Oral Presentations uses specific examples from the fields of science and technology and shows how skilled technical communicators make complex information accessible to non technical audiences The first three parts of the book focus on basic skills and concepts including four basic types of presentations relevant to technical communication The last two parts introduce more advanced topics such as legal privacy and censorship issues and the changing nature of presentations in the digital age Oral Presentations thus brings together the best most current instruction from three fields technical communication rhetoric speech communication and computer and information technology For professionals in public speaking oral presentations and technical communication

**Engineering Speaking by Design** Edward J. Rothwell, Michael J. Cloud, 2017-12-19 From the Authors of Engineering Writing by Design Creating Formal Documents of Lasting Value Engineering presentations are often a topic of frustration Engineers complain that they don't enjoy public speaking and that they don't know how to address audiences with varying levels of technical knowledge Their colleagues complain about the state of information transfer in the profession Non engineers complain that engineers are boring and talk over everybody's heads Although many public speaking books exist most concentrate on surface issues failing to distinguish the formal oral technical presentation from general public speaking Engineering Speaking by Design Delivering Technical Presentations
