Azoth - Or, The Star in the East Arthur Edward Waite, 2020-08-06 Azoth Or The Star in the East is a 1893 work by A E Waite Arthur Edward Waite 1857 1942 more commonly referred to as A E Waite was an American born British mystic and poet He wrote profusely on the subject of the occult and esoteric matters and is famous for being the co creator of the Rider Waite Tarot deck His work arguably constitutes the first attempt to systematically studying the history of western occultism which he viewed more of a spiritual tradition than proto science or pseudo religion as was the more common conception Contents include The Agnostic Standpoint as the Threshold of Mysticism Intellectual Difficulties of a Certain Class of Thinkers Connection between Religion and Morality Certain Consolation to be Derived from the Mysteries of Life Philosophical Basis of this Statement Appeal of Material Philosophy Ultimately Worthless Nature of this Life Except as a Preparation for the Higher Life etc Many vintage books such as this are becoming increasingly scarce and expensive It is with this in mind that we are republishing this volume now in a modern high quality edition complete with a specially commissioned new biography of the author **A New Light of Mysticism. Azoth, Or The Star in the East ...** Arthur Edward Waite, 1893 *Hermeticism: A Note on the Philosophical School* Pons Malleus, 2025-07-11 In an era where the search for meaning has become as fragmented as the digital age itself the ancient wisdom of Hermeticism offers a coherent and profoundly integrated worldview one that bridges the spiritual with the material the mystical with the rational and the personal with the cosmic This book is an invitation to enter the timeless stream of Hermetic philosophy to explore its roots principles and enduring relevance in a modern world often estranged from mystery and transcendence Hermeticism is not merely a historical curiosity or a footnote in the annals of Western esotericism It is a living tradition a philosophical and spiritual path that has shaped and echoed through the teachings of alchemists Renaissance magi Neoplatonists and even contemporary seekers of truth At its heart lies a set of core principles famously distilled in texts like the Corpus Hermeticum and The Kybalion which articulate a vision of the universe as a unified conscious whole governed by universal laws These principles mentalism correspondence vibration polarity rhythm cause and effect and gender present not a rigid dogma but a metaphysical framework for understanding the hidden architecture of reality This book does not aim to reduce Hermeticism to a set of formulas or to present it as a system to be passively accepted Rather it seeks to engage the reader in a dialogue with a tradition that has always prized direct knowledge gnosis and personal transformation The Hermetic path is one of inner alchemy of transmuting base consciousness into spiritual gold It calls upon the individual to become both philosopher

and practitioner both questioner and mystic Historically Hermeticism emerged in the syncretic crucible of Hellenistic Egypt where Greek Egyptian and early Christian ideas coalesced into a rich spiritual synthesis The legendary figure of Hermes Trismegistus part Greek god part Egyptian sage and wholly symbolic of the union of wisdom traditions became the imagined author of a body of teachings concerned with divine knowledge cosmic order and human destiny Though modern scholarship may dissect the textual origins and historical contexts of Hermetic writings the deeper significance of this tradition remains in its ability to speak to perennial questions What is the nature of the universe What is the purpose of life How can we come to know the divine This book is structured to guide both newcomers and seasoned readers through the essential themes of Hermetic thought It will trace the historical development of Hermeticism examine its central philosophical concepts and explore its influence across disciplines alchemy magic psychology and metaphysics More importantly it will encourage the reader to reflect on how these teachings can be interpreted and lived today In an age dominated by materialism and uncertainty the Hermetic vision reintroduces the sacred the symbolic and the interconnectedness of all things To study Hermeticism is to embark on a journey not just through time and text but through the depths of the self and the fabric of the cosmos It asks us to see beyond appearances to recognize the divine spark within and to awaken to a universe where nothing is truly separate In the words of the Emerald Tablet As above so below as within so without May this book serve as a companion on your journey not as a final answer but as a lantern in the labyrinth illuminating paths of thought and spirit that have guided seekers for centuries and continue to whisper their truths to those who listen with both reason and reverence

**Alchemy: ancient and modern, being a brief account of the alchemistic** Herbert Stanley Redgrove, 1922      **The Qabalah** Papus, 2025-09-12 Papus Dr Gerard Encausse 1865-1916 was one of the great occultists of France and was instrumental in developing and popularizing Eliphas Levi's earlier suggestions of a link between the Hebrew alphabet and the twenty-two trumps of the tarot. *The Qabalah*, first published in 1892, is particularly valuable because, along with his original theoretical explorations of the Qabalah, it also contains his complete translation of the *Sepher Yetzirah*, Eliphas Levi's famous *Ten Lessons on the Qabalah*, Rabbi Drach's important and rare treatise *The Qabalah of the Hebrews* and an extensive Qabalistic bibliography. This book gives a concise and valuable introduction to the sacred science of the Hebrews and thus to the esoteric teachings of Christianity.      *The Alchemical Mercurius* Mathew Mather, 2014-03-05 The figure of the alchemical Mercurius features ubiquitously and radically in Jung's later works, but despite this, there has been little research concerning Mercurius in Jungian studies to date. In this book, Mathew Mather explores the figure of the alchemical Mercurius and contextualises and clarifies its significance in Jung's life and works. Placing the alchemical Mercurius as a central concern reveals a Jungian interpretation in which the grail legend, alchemy and precessional astrology as three thematic threads converge. In such a treatment, Jung's belief in the dawning of a new Platonic month emerges as a central consideration, and an esoteric perspective on Jung's life and works is brought more fully to light, constructing a life-myth interpretation. The book is comprised of three parts: *Aurea Catena*, locating the figure of the alchemical Mercurius within the Western esoteric tradition.

Daimonic Encounter the relevance of this figure in Jung's personal life Magnum Opus Jung's portrayal of this figure in key texts such as Synchronicity Aion Mysterium Coniunctionis and Emma Jung and von Franz's The Grail Legend The Alchemical Mercurius is a unique contribution to analytical psychology substantially revealing esoteric Jung and providing valuable perspectives on the theme of his myth for our times The book will appeal to researchers and academics in the field of analytical psychology as well as postgraduate students
