The Guide To English Language Teaching Yearbook 2006:

The Changing Faces of Ireland Merike Darmody, Naomi Tyrrell, Steve Song, 2011-10-22 Before the economic boom of the 1990s Ireland was known as a nation of emigrants. The past fifteen years however have seen the transformation of Ireland from a country of net emigration to one of net immigration on a scale and at a pace unprecedented in comparative context. As a result Irish society has become more diverse in terms of nationality, language, ethnicity and religious affiliation and these changes are now clearly reflected in the composition of both primary and secondary schools presenting these with challenges as well as opportunities. Despite the increased number of ethnically diverse immigrant children and young people in the Ireland currently there is a paucity of information about aspects of their lives in Ireland. This book is aimed at contributing to this gap in knowledge. This edited collection will be of interest to researchers in the fields of migration studies, childhood studies, education studies, human geography, sociology, applied social studies, social work, health studies and psychology. It will also be a useful resource to educators, social workers, youth workers and community members working with or preparing to work with children with immigrant and ethnic minority backgrounds in Ireland. It particularly focuses on EFL teachers' use of prescribed curriculum materials in higher education in Mainland China and presents a qualitative multi case study involving four Chinese EFL teachers and eight students (two students from each teacher's class) at one university in Mainland China. Drawing on data from pre-lesson and post-lesson interviews with the teachers, lesson observations and documents in three consecutive semesters at the target university, the book delineates the processes of materials use in classroom settings. It also identifies four domains of factors that influenced the enactment of curriculum materials. Most importantly by adopting

International Handbook of Children, Media and Culture Kirsten Drotner, Sonia Livingstone, 2008-02-19 This essential volume brings together the work of internationally renowned researchers, each experts in their field, in order to capture the diversity of children and young people's media cultures around the world. Why are the media such a crucial part of children's daily lives? Are they becoming more important, more influential, and in what ways? Or does a historical perspective reveal how past media have long framed children's cultural horizons, or perhaps how families, however constituted, have long shaped the ways children relate to media? In addressing such questions, the contributors present detailed empirical cases to uncover how children weave together diverse forms and technologies to create a rich symbolic tapestry which in turn shapes their social relationships. At the same time, many concerns, even public panics, arise regarding children's engagement with media, leading the contributors also to inquire into the risky or problematic aspects of today's highly mediated world. Deliberately selected to represent as many parts of the globe as possible and with a commitment to recognizing both the similarities and differences in children and young people's lives from China to Denmark, from Canada to India, from Japan to Iceland, the authors offer a rich contextualization of children's engagement with their particular media and communication environment while also pursuing cross-cutting themes in terms of comparative and global trends. Each chapter provides a clear orientation for new readers to the main debates and core issues addressed, combined with a depth of analysis and argumentation to stimulate the thinking of advanced students and established scholars. Since children and young people are a focus of study across different disciplines, the volume is thoroughly multi-disciplinary. Yet since children and young people are all too easily neglected by these same disciplines, this volume hopes to accord their interests and concerns they surely merit.
