The Gurkhas Mike Chappell, 1993-09-30 The origins of the Gurkhas date back to 1815 when one of the most skilled and determined opponents that the British soldier had to overcome in battle was the Nepalese warrior. The British were so impressed with the military skills of these fighters that they began recruiting units exclusively from Nepal. From this beginning grew the now famous

Gurkha units This volume examines the development of the Gurkhas through the various wars and confrontations of the 19th century through the First World War 1914 1918 Second World War 1939 1945 and the various postwar conflicts including Malaya Borneo and the Falklands The Social Construction of Rationality Onno Bouwmeester,2017-03-16 There are many different forms of rationality In current economic discourse the main focus is on instrumental rationality and optimizing while organization scholars behavioural economists and policy scientists focus more on bounded rationality and satisficing The interplay with value rationality or expressive rationality is mainly discussed in philosophy and sociology but never in an empirical way This book shows that not one but three different forms of rationality subjective social and instrumental determine the final outcomes of strategic decisions executed by major organizations Based on an argumentation analysis of six high profile public debates this book adds nuance to the concept of bounded rationality The chapters show how it is socially constructed and thus dependent on shared beliefs or knowledge institutional context and personal interests Three double case studies investigating the three rationalities illustrate how decision makers and stakeholders discuss the appropriateness of these rationalities for making decisions in different practice contexts The first touches more on personal concerns like wearing a niqab or looking at obscene art exposed in a public environment the second investigates debates on improving the rights and position of specific minorities and the third is based on the agreement on instrumental reasons for two kinds of investments but the cost arguments are regarded less relevant when social norms or personal interests are violated The Social Construction of Rationality is for those who study political economy economic psychology and public policy as well as economic theory and philosophy The Victorians at War, 1815-1914 Harold E.
