The Hambros 1779-1979 Bo Bramsen, 1975      *The Hambros, 1779-1979* Bo Bramsen, Kathleen Wain, 1979      Handbook on the History of European Banks Manfred Pohl, 1994-01-01 Analyse Banque cantonale vaudoise p 1072 1078      **Special Operations in Norway** Ian Herrington, 2019-04-04 Between 1940 and 1945 Britain's Special Operations Executive SOE carried out sabotage and organised resistance across occupied Europe Over 5 years SOE sent over 500 agents into Norway to carry out a range of operations from sabotage and assassination to attempts to organise an underground guerrilla army This book is the first multi archival international academic analysis of SOE's policy and operations in Norway and the influences that shaped them challenging previous interpretations of the relationship between this organisation and both the Norwegian authorities and the Milorg resistance movement      **From Crisis to Crisis** Brian O'Sullivan, 2018-12-11 From Crisis to Crisis examines the impact of the harsh conditions of the interwar economy on the British merchant banks The financial crises of 1914 and 1931 are assessed using primary sources The competitive threats including the rise of New York as a rival financial centre are considered It challenges alleged special treatment and provides fresh perspectives on the interwar rationalisation of industry During the late nineteenth century Britain's merchant banks had become pre eminent in a world of fixed exchange rates free trade and the unfettered mobility of international capital This world was increasingly challenged in the interwar period being replaced by floating exchange rates trade protectionism and restrictions on capital movements This book fills a gap in the historiography of British banking by recovering the histories of long forgotten merchant banks rather than focusing on the better known firms Using a wide range of archival resources it traces the strategic transformation by some merchant banks from higher risk capital intensive activities to lower risk advisory services Brian O Sullivan has been jointly awarded the 2019 BAC Wadsworth Prize for From Crisis to Crisis The Transformation of Merchant Banking 1914 1939 It was judged by the Business Archives Council BAC to have made an outstanding contribution to the study of British business history Brian shared the prize with Professor Priya Satia of Stanford University in California      **City State** David Kynaston, 2010-08-06 An engaging account of the rise and dominance of the City of London arguably the most important phenomenon of British history in the last 300 years The City today is the most dynamic and world beating sector of the British economy Increasingly it is the City that calls the shots More than ever governments and industry are constrained in their conduct by the fear of the judgement of the financial markets This book looks back over the past 20 years and examines the extraordinary rise of this economic entity that is the City of London      City Bankers, 1890-1914 Youssef Cassis, 1994-09-15 City Bankers 1890 1914 is a major contribution to a controversial area of economic history and to the debate about the nature of British society in the late Victorian and Edwardian eras It provides a detailed analysis of the banking community of London between 1890 and 1914 when the City of London was the undisputed financial centre of the world      **The World of Private Banking** Youssef Cassis, Philip Cottrell, Iain L. Fraser, 2016-12-05 This is a full and

authoritative account of the history of private banking beginning with its development in conjunction with the world markets served by and centred on a few European cities notably Amsterdam and London These banks were usually partnerships a form of organization which persisted as the role of private banking changed in response to the political and economic transformations of the late 18th and early 19th centuries It was in this period and the succeeding Golden Age of private banking from 1815 to the 1870s that many of the great names this book treats rose to fame Baring Rothschild Mallet and Hottinger became synonymous with wealth and economic power as German French and the remarkably long lasting Geneva banks flourished and expanded The last parts of this study detail the way in which private banking adapted to the age of the corporate economy from the 1870s to the 1930s the decline during and after the Great Depression and the post war renaissance It concludes with an appraisal of the causes and consequences of the modern expansion of private banking no longer the exclusive preserve of partnerships the management of investment portfolios of wealthy individuals and institutions is now a major concern of international joint stock banks

**Gentlemen Capitalists** Howard L. Malchow,1992 A Stanford University Press classic

**British Banking** John Orbell,2017-07-05 This substantially expanded new edition of the Guide to the Historical Records of British Banking contains details of over 700 archive collections held in local record offices university and local libraries and of course banks Wider coverage is given to the records of major domestic banks British owned overseas banks merchant banks and discount houses There are also additional listings of records of long defunct banks Arranged alphabetically by name the entries for each bank contain in most cases A brief history of the bank to explain numerous name changes Information as to where the bank s records are held Details of what the records consist of The entries are set in context by introductory chapters covering the historical structure and function of British banking and the purpose format and research value of the chief series of historical records commonly found in bank archives Bank records concern not just banks but the varied activities that they financed In addition to its contribution to the study of banking history this monumental reference work facilitates a wider knowledge and understanding of the history of British finance

Scandinavia and the Great Powers 1890-1940 Patrick Salmon,2002-04-11 At the beginning of the twentieth century Scandinavia lay on the margin of European power politics but with the polarisation of international relations in the era of the two world wars Denmark Finland Norway and Sweden became the point where the spheres of influence of three great powers Great Britain Germany and Russia intersected In this book Patrick Salmon uses his extensive research in British German and Scandinavian archives to examine the position of the Nordic countries in the great power rivalries and conflicts of the period 1890 1940 However it does not treat the Nordic countries merely as passive victims It seeks to show that despite the disparity in strength between the great powers and the small states of northern Europe the latter had means of adapting to great power pressures and even influencing the policies of their formidable neighbours

**Capitals of Capital** Youssef Cassis,2010 useful reading for anyone interested in the antecedents of today s vibrant international financial markets

Clifford Chance Judy Slinn,1993      European Banks and the American Challenge Stefano Battilossi,Youssef Cassis,2002

The book provides a fresh historical perspective on the internationalization of banking business and the emergence of the Euro Dollar and Euro Bond markets from the late 1950s to the early 1970s a process which laid the foundations of the subsequent financial globalization Since the mid 1950s multilateralism and rapidly growing trade among OECD countries the gradual though asymmetrical relaxation of exchange controls and the return to external convertibility had sowed the seeds of economic interdependence and financial integration All these factors actively encouraged American and European banks to pursue the expansion of their international business largely free of regulations and controls affecting their domestic activity International banking of the 1960s was also the forge of a restless wave of financial innovations In fact Euro Dollars along with other minor Euro Currencies and Euro Bonds fostered the emergence of fast growing international money and capital markets mainly based in the City of London which rapidly became the new frontier of growth for banking business Aggressive behaviour of American banks in Europe coupled with an efficient multinational structure and a remarkable degree of financial creativity added a sharp competitive edge to Euro banking Following their multinational customers as much as escaping from cumbersome domestic regulation US banks rapidly attained a dominant position in London while establishing at the same time their footholds on the Continent This volume is based primarily upon largely unexplored archive records and addresses original issues The causes of the primacy of London as an international financial centre are investigated as well as the impact of Euro banking on British clearing banks as a boost towards liability management and business diversification Some wider perspectives are also included which focus on innovative strategies designed by European banks such as consortium banking and other cooperative ventures in response both to the American challenge and to the establishment of the European Community      **The Palgrave Dictionary of Anglo-Jewish History** W.

Rubinstein,Michael A. Jolles,2011-01-27 This authoritative and comprehensive guide to key people and events in Anglo Jewish history stretches from Cromwell s re admittance of the Jews in 1656 to the present day and contains nearly 3000 entries the vast majority of which are not featured in any other sources      *Genealogies in the Library of Congress* Marion J.

**Merchant Banking before 1850** Manuel Llorca-Jaña,2017-07-05 London merchant bankers emerged during the 1820s in the wake of financial turmoil caused by the wars of American Independence the Napoleonic campaigns and the Anglo American war of 1812 Though the majority of merchant bankers remained cautious in their affairs Huth Co established an impressive global network of trade and lending dealing with over 6 000 correspondents in more than seventy countries Based on archival research this comparative study provides a new chronology of early nineteenth century commercial and financial expansion Huth Co were truly market makers and key intermediaries of commodities and capital flows in the international economy This is an important example of a firm shaping globalisation well before the transport and communication

revolution of the last quarter of the nineteenth century But rather than a case study this is a comparative study concerned with the commercial and financial activities of the leading merchant bankers of the period This book will be of great interest to business and economic historians interested in the nature of the early decades of the first globalization

**The History of Foreign Investment in the United States to 1914** Mira Wilkins, 1989 From the colonial era to 1914 America was a debtor nation in international accounts owing more to foreigners than foreigners owed to us By 1914 it was the world's largest debtor nation Mira Wilkins provides the first complete history of foreign investment in the United States during that period The book shows why the United States was attractive to foreign investors and traces the changing role of foreign capital in the nation's development covering both portfolio and direct investment The immense new wave of foreign investment in the United States today and our return to the status of a debtor nation once again the world's largest debtor nation makes this strong exposition far more than just historically interesting Wilkins reviews foreign portfolio investments in government securities federal state and local and in corporate stocks and bonds as well as foreign direct investments in land and real estate manufacturing plants and even such service sector activities as accounting insurance banking and mortgage lending She finds that between 1776 and 1875 public sector securities principally federal and state securities drew in the most long term foreign investment whereas from 1875 to 1914 the private sector was the main attraction The construction of the American railroad system called on vast portfolio investments from abroad there was also sizable direct investment in mining cattle ranching the oil industry the chemical industry flour production and breweries as well as the production of rayon thread and even submarines In addition there were foreign stakes in making automobile and electrical and nonelectrical machinery America became the leading industrial country of the world at the very time when it was a debtor nation in world accounts
