**Youth's Companion**, 1918  
The Ashgate Companion to the History of Textile Workers, 1650-2000 Els Hiemstra-Kuperus, 2016-04-01 This impressive collection offers the first systematic global and comparative history of textile workers over the course of 350 years. This period covers the major changes in wool and cotton production and the global picture from pre industrial times through to the twentieth century. After an introduction the first part of the book is divided into twenty national studies on textile production over the period 1650-2000. To make them useful tools for international comparisons each national overview is based on a consistent framework that defines the topics and issues to be treated in each chapter. The countries described have been selected to include the major historic producers of woollen and cotton fabrics and the diversity of global experience and include not only European nations but also Argentina Brazil China Egypt India Japan Mexico Turkey Uruguay and the USA. The second part of the book consists of ten comparative papers on topics including globalization and trade organization of production space identity workplace institutions production relations gender ethnicity and the textile firm. These are based on the national overviews and additional literature and will help apply current interdisciplinary and cultural concerns to a subject traditionally viewed largely through a social and economic history lens. Whilst offering a unique reference source for anyone interested in the history of a particular country's textile industry the true strength of this project lies in its capacity of international comparison. By providing global comparative studies of key textile industries and workers both geographically and thematically this book provides a comprehensive and contemporary analysis of a major element of
