The Ethics of History David Carr,Thomas Robert Flynn,Rudolf A. Joseph,Greg Grandin,2010-10-21 A collection exploring the ideological hardening and accelerated polarization that marked twentieth century Latin America and its epochal cycles of revolutionary and counterrevolutionary violence *Imagining Alternative*

*Worlds* Christoffer Kølvraa,Bernhard Forchtner,2024-11-11 Imagining Alternative Worlds explores how the far right employs fictionality as a powerful political tool in the 21st century It does so by examining the far right s own cultural production and commentary through a large collection of its novels novellas short stories and film reviews illustrating how the alternative worlds articulated in such cultural products convey its ideology More specifically the book identifies and analyses four distinct far right cultural imaginaries a primordial a nostalgic a promethean and a nihilist one that each subtly conveys different yet linked ideas about space time race gender and heroic identity By drawing attention to the cultural heterogeneity of the contemporary far right Imagining Alternative Worlds offers key insights into the dreams identities and norms such actors hope will define our future The book will be of interest to researchers of the far right of literary media and communication studies and of social and cultural history     Recovering Pragmatism's Voice Lenore Langsdorf,Andrew R. Smith,1995-01-01 This book establishes a new paradigm for CAD expanding computer tools beyond the technical processes of computer aided design to include the discussion and negotiation which are a necessary complement to developing design ideas thus introducing the concept that design is fundamentally a social process     *Cyber Security and the Politics of Time* Tim Stevens,2016 Explores how security communities think about time and how this shapes the politics of security in the information age     Jovian Donald Moffitt,2014-04-01 Like all human colonists born into the crushing gravity of Jupiter Jarls Anders commands tremendous physical strength and survival ability And like his fellow Jovians Jarls has grown up innocent easy to exploit Shipped between Jupiter Venus and Earth in indentured servitude Jarls finds his life in constant danger not just from the harsh landscapes of distant planets but also from the treacherous politics of human aristocracy Navigating the solar system proves much easier than navigating political conspiracy and a government coup Jarls s only chance for survival is if he can leave behind his rustic innocence and build a strength of character to match the strength of his body In JOVIAN author Donald Moffitt creates a fast moving SF adventure packed with grand themes and big ideas sure to please fans of his other titles and of brand new and classic SF adventure alike
