The Red Scare, Ufos & Elvis Claudine Burnett,2018-06-30 The baby boomer generation 1946-1964 grew up in a time of dramatic social change Their experiences in the Cold War were very different from those of their parents While adults perceived communism as a threat to the American way of life to their health and well being and those of their families their children learned to fear the loss of a future they could grow into and inhabit These kids of the atomic age wondered if they might be the last children on earth They were raised on civil defense films tales of nuclear annihilation and a world taken over by communism America had entered the atomic age Flying saucers were big news communism appeared rampant a war in Korea erupted teens turned to murderers and there was fear the world might end It was also a time of transition Rock n roll entered the scene space flight became a reality and the public learned not to blindly accept what the government told them especially when it came to atomic radiation and waste

The New Circlemakers Andrew Collins,2009-03 What is the mystery of the crop circles Are they manmade or supernatural Today the majestic crop formations grace the very same pastures of southern England that in the past were the haunts of fairies hobgoblins and mysterious lights Here too are some of Britain's most spectacular prehistoric landscapes Stonehenge Avebury and Silbury Hill all act as ominous backdrops to the crop circle phenomenon Did our ancestors know something about this beguiling enchanting landscape that we are only now waking up to for the first time Is there a higher intelligence responsible for such creations and if so who are they and what are they trying to tell us Bizarrely the answer might lie not here on earth but 37 000 light years away in the constellation of Cygnus the Northern Cross where lurks a star perhaps responsible not only for the foundation of the world's earliest stone monuments but for the emergence of humanity itself

Spaceships of the Pleiades Kal K. Korff,2010-08-05 The case of Eduard Billy Meier has gained worldwide attention for his claims of being in on going contact with aliens from the star cluster known as the Pleiades Purported to be the most documented UFO account of all time Meier's files consist of 1 000 photographs and 12 motion picture films of the visiting spacecraft Through thousands of pages of contact notes Meier claims to have passed on the wisdom and advanced technical knowledge from his conversations with these aliens designed to help guide our evolution In addition he alleges that 40 independent eyewitnesses have also seen the alien ships and observed Meier's contacts with them The aliens also left numerous landing tracks in the ground and gave Meier various rock metal mineral and crystal samples as proof of their visitations Author Kal Korff conducted the most thorough examination ever into the case of Billy Meier and all its alleged evidence and reveals here how a Swiss farmer hatched and continues to maintain the most elaborate UFO hoax in history

A Practical Guide to Death and Dying White, John,2004-04-01 In A Practical Guide to Death and Dying consciousness researcher John White provides a thorough compassionate look at death and explores the biology psychology and metaphysics of one's own demise In addition to recounting the personal stories of those

who have developed a healthy attitude toward death White also offers a program for personal action **The Ultimate Reality** Joseph H. Cater,1998-09 This book is Mr Cater s follow up work to The Awesome Life Force It contains countless gems of thought provoking ideas In this two volume set you will discover an explanation for seemingly unexplainable phenomena Levitation missile weight loss in space pyramid power and a closer look at the properties of light Joseph Cater points out the fundamental weakness in conventional mathematics The role of the soft electrons is expanded upon Magnetic fields and astronomical error in determining planetary sizes and distances are fully explained Volume 2 carries us into the mystery of the Crystal Skull Have you ever wondered how from certain rock formations water can be produced Everything in the process of creation proceeds from the simple to the more complex If there is a test for the validity of a theory or concept in its ability to be explained Joseph Cater accomplishes it in this set of books You do not have to be a genius to understand there is something here for everyone Civilizations development and species origin technologies Vadym Valeriyovych Korpachev,2020-07-07 The origin of life on Earth is the basic view of the world s concept At present its origin and development are treated either from the scientific evolutionary theory points of view or religious mythological ones At the same time the evolutionary theory fails to provide grounded explanations to a lot of events which have happened and are observed in nature The data related to the complexity of life processes genetic programming and many biology and palaeontological facts cast doubt on the possibility of spontaneous occurrence of protein organisms during evolutionary transformations They indicate that the protein life development occurred in the direction of the planned improvement through the complex technology s implementation which requires specific scientific knowledge Therefore the necessity to formulate the new technological concept of the life appearance on Earth which is provided by the given book has occurred It summarizes numerous well known facts which are being interpreted as the result of the highly developed civilization technological developments The stated views have more grounds for existence than the evolutionary theory and biblical ideas about the divine creation of the world The fact that society treats all the ideas of the life creation as religious ones and that they are used by the theologians turns out to be the ideological problem The book is aimed at overcoming the barrier of such non perception The analysis performed allows the reader to understand in which cases random events occur and in which ones there is a logical purposeful intelligent activity the result of which is the development of self replicating protein organisms programmed to perform the work necessary to meet the needs of their creators on Earth Reflections on the possible material nature of the highly developed mind carriers are given According to the author a human being is not a passive observer of random evolutionary changes in nature but has his mission in the artificially developed system of energy supply of Earth along with other protein organisms If the protein world including humans has been created for a specific purpose then mankind must not violate its implementation and should follow its mission A new worldview should introduce changes in the main mankind s activity spheres science politics religion and the human being s personal life The book is

designed for a wide range of readers of various specialties Conceptually it is important for people who do not share the evolutionary theory provisions and existing religious beliefs The UFO Literature Richard Michael Rasmussen,1985
