Afro-Latin America, 1800-2000 George Reid Andrews, 2004-07-15 Covering the last two hundred years and including Spanish America Brazil and the Caribbean this book examines how African descended people made their way out of slavery and into freedom and how once free they helped build social and political democracy in the region

African American Religious Thought Cornel West, Eddie S. Glaude, 2003-01-01 Believing that African American religious studies has reached a crossroads Cornel West and Eddie Glaude seek in this landmark anthology to steer the discipline into the future Arguing that the complexity of beliefs choices and actions of African Americans need not be reduced to expressions of black religion West and Glaude call for more careful reflection on the complex relationships of African American religious studies to conceptions of class gender sexual orientation race empire and other values that continue to challenge our democratic ideals

The History of a Periphery Juliet B. Wiersema, 2024-01-09 An exploration of Colombian maps in New Granada During the late Spanish colonial period the Pacific Lowlands also called the Greater Choc was famed for its rich placer deposits Gold mined here was central to New Granada's economy yet this Pacific frontier in today's Colombia was considered the periphery of the periphery Infamous for its fierce unconquered Indigenous inhabitants and its brutal tropical climate it was rarely visited by Spanish administrators engineers or topographers and seldom appeared in detail on printed maps of the period In this lavishly illustrated and meticulously researched volume Juliet Wiersema uncovers little known manuscript cartography and makes visible an unexamined corner of the Spanish empire In concert with thousands of archival documents from Colombia Spain and the United States she reveals how a periphery was imagined and projected largely for political or economic reasons Along the way she unearths untold narratives about ephemeral settlements African adaptation and autonomy Indigenous strategies of resistance and tenuous colonialisms on the margins of a beleaguered viceroyalty

The Sweat of Their Brow: A History of Work in Latin America David McCreery, 2016-07-01 Throughout Latin America's history the world of work has been linked to race class and gender within the larger framework of changing social political and economic circumstances both in the region and abroad In this compelling narrative David McCreery situates the work experience in Latin America's broader history Rather than organizing the coverage by forms of work he proceeds chronologically breaking 500 years of history into five periods Encounter and Accommodation 1480 1550 The Colonial System 1550 1750 Cities and Towns 1750 1850 Export Economies 1850 1930 Work in Modern Latin America 1930 the Present Within each period McCreery discusses the chief economic political and social characteristics as they relate to work identifying both continuities and discontinuities from each preceding period Specific

The New Kingdom of Granada Santiago Muñoz-Arbeláez, 2025-04-11 The New Kingdom of Granada tells the history of the making and unmaking of empire in the diverse and decentralized Indigenous landscapes of the Northern Andes Santiago Mu oz Arbel ez examines the intricate and disputed processes that reshaped the peoples and landscapes of present day Colombia into a kingdom within the global Spanish monarchy Drawing on correspondence visitation reports judicial records maps textiles and accounting and legal documents created by Europeans and Indigenous peoples Mu oz Arbel ez outlines the painstaking century long effort between 1530 and 1630 to consolidate the kingdom A diverse group of people that included Indigenous interpreters scribes and intellectuals spearheaded these projects which eventually expanded colonial control outward from its base in the highland Andean plateaus down to the lowland river valleys Meanwhile autonomous Indigenous political projects constantly threatened imperial rule as rebels often encircled the kingdom and seized the corridors that linked it to Spain By foregrounding the kingdom s difficult establishment and tenuous hold on power Mu oz Arbel ez challenges traditional understandings of imperial politics and the myriad ways Indigenous peoples participated in disputed and negotiated the establishment of colonial rule

Colonialism and Postcolonial Development James Mahoney, 2010-02-15 In this comparative historical analysis of Spanish America Mahoney offers a new theory of colonialism and postcolonial development He explores why certain kinds of societies are subject to certain kinds of colonialism and why these forms of colonialism give rise to countries with differing levels of economic prosperity and social well being Mahoney contends that differences in the extent of colonialism are best explained by the potentially evolving fit between the institutions of the colonizing nation and those of the colonized society Moreover he shows how institutions forged under colonialism bring countries to relative levels of development that may prove remarkably enduring in the postcolonial period The argument is sure to stir discussion and debate both among experts on Spanish America who believe that development is not tightly bound by the colonial past and among scholars of colonialism who suggest that the institutional identity of the colonizing nation is of

Bound Lives Rachel Sarah O'Toole, 2012-04-15 *Bound Lives* chronicles the lived experience of race relations in northern coastal Peru during the colonial era Rachel Sarah O Toole examines how Andeans and Africans negotiated and employed *casta* and in doing so constructed these racial categories Royal and viceregal authorities separated Indians from blacks by defining each to specific labor demands *Casta* categories did the work of race yet not all *casta* categories did the same type of work since Andeans Africans and their descendants were bound by their locations within colonialism and slavery The secular colonial legal system clearly favored indigenous populations Andeans were afforded greater protections as threatened native vassals Despite this in the 1640s during the rise of sugar production Andeans were driven from their assigned colonial towns and communal property by a land privatization program Andeans did not disappear however they worked as artisans muleteers and laborers for hire By the late seventeenth and early eighteenth centuries Andeans employed their legal status as Indians to defend their prerogatives to political representation that included the policing of Africans As rural slaves Africans often found themselves outside the bounds of secular law and subject to the judgments of local slaveholding authorities Africans therefore developed a rhetoric of valuation within the market and claimed new kinships to protect themselves in disputes with their captors and in slave trading negotiations Africans countered slaveholders claims on their time overt supervision of their labor and control of their rest moments by invoking customary practices *Bound Lives* offers an entirely new perspective
