Sundquist, 2006 A revealing juxtaposition of the literatures of Manifest Destiny and a dream deferred **New Essays on Native Son** Keneth Kinnamon, 1990-05-25 A collection of essays providing original insights into this major American novel by Richard Wright Media and the Affective Life of Slavery Allison Page, 2022-03-08 How media shapes our actions and feelings about race Amid fervent conversations about antiracism and police violence Media and the Affective Life of Slavery delivers vital new ideas about how our feelings about race are governed and normalized by our media landscape Allison Page examines U S media from the 1960s to today analyzing how media culture instructs viewers to act and feel in accordance with new racial norms created for an era supposedly defined by an end to legal racism From the classic television miniseries Roots to the edutainment video game Mission 2 Flight to Freedom and the popular website slaveryfootprint.org Media and the Affective Life of Slavery provides an in depth look at the capitalist and cultural artifacts that teach the U S public about slavery Page theorizes media not only as a system of representation but also as a technology of citizenship and subjectivity wherein race is seen as a problem to be solved Ultimately she argues that visual culture works through emotion a powerful lever for shaping and managing racialized subjectivity Media and the Affective Life of Slavery delivers compelling provocative material and includes a wealth of archival research into such realms as news entertainment television curricula video games and digital apps providing new and innovative scholarship where none currently exists **The Harvard Guide to African-American History** Evelyn Brooks Higginbotham, 2001 This massive guide sponsored by the W E B Du Bois Institute for Afro American Research at Harvard University and compiled by renowned experts offers a compendium of information and interpretation on over 500 years of black experience in America **The debate on black civil rights in America** Kevern Verney, 2024-01-16 This book

examines the historiography of the African American freedom struggle from the 1890s to the present. It considers how and why the study of African American history developed from being a marginalized subject in American universities and colleges at the start of the twentieth century to become one of the most extensively researched fields in American history today. There is analysis of the changing scholarly interpretations of African American leaders from Booker T. Washington through to Barack Obama. The impact and significance of the leading civil rights organizations are assessed as well as the white segregationists who opposed them and the civil rights policies of presidential administrations from Woodrow Wilson to Donald Trump. The civil rights struggle is also discussed in the context of wider political, social and economic changes in the United States and developments in popular culture.

Comprising 45 chapters, the volume covers the following topics: Disciplinary perspectives of nostalgias including philosophy, history, literature and psychology; Conceptual aspects of nostalgia including homesickness, temporality, affectivity and memory; Historical and political dimensions such as afro nostalgia, populism, feminism and queer nostalgia; Spatial and material aspects of nostalgia including ruins, regionalism and objects; Media-related nostalgia such as analogue and digital nostalgia, reboots, revivals, gaming and graphic novels. Essential reading for students and researchers working in nostalgia studies, this book will also be beneficial to related disciplines such as philosophy, anthropology, geography, history and literature, cultural media, heritage, museum and film studies courses and more generally for readers interested in how the past is represented and used in the present.

Ring Shout, Wheel About Katrina Dyonne Thompson, 2014-01-30. In this ambitious project, historian Katrina Thompson examines the conceptualization and staging of race through the performance, sometimes coerced, of black dance from the slave ship to the minstrel stage. Drawing on a rich variety of sources, Thompson explicates how black musical performance was used by white Europeans and Americans to justify enslavement, perpetuate the existing racial hierarchy and mask the brutality of the domestic slave trade. Whether on slave ships at the auction block or on plantations, whites often used coerced performances to oppress and demean the enslaved. As Thompson shows, however, blacks' backstage use of musical performance often served quite a different purpose. Through creolization and other means, enslaved people preserved some native musical and dance traditions and invented or adopted new traditions that built community and even aided rebellion. Thompson shows how these traditions evolved into nineteenth-century minstrelsy and ultimately raises the question of whether today's mass media performances and depictions of African Americans are so very far removed from their troublesome roots.
