Spirituality And The Occult From The Renaissance To The Modern:

Spirituality and the Occult Brian Gibbons, 2013-07-04 Spirituality and the Occult argues against the widely held view that occult spiritualities are marginal to Western culture Showing that the esoteric tradition is unfairly neglected in Western culture and that much of what we take to be modern derives at least in part from this tradition it casts a fresh intriguing and persuasive perspective on intellectual and cultural history in the West Brian Gibbons identifies the influence and continued presence of esoteric mystical movements in disciplines such as medicine science philosophy Freudian and Jungian psychology radical political movements imaginative literature A History of Western Astrology Volume II Nicholas Campion, 2009-04-16 Astrology is a major feature of contemporary popular culture Recent research indicates that 99% of adults in the modern west know their birth sign In the modern west astrology thrives as part of our culture despite being a pre Christian pre scientific world view Medieval and Renaissance Europe marked the high water mark for astrology It was a subject of high theological speculation was used to advise kings and popes and to arrange any activity from the beginning of battles to the most auspicious time to have one s hair cut Nicholas Campion examines the foundation of modern astrology in the medieval and Renaissance worlds Spanning the period between the collapse of classical astrology in the fifth century and the rise of popular astrology on the web in the twentieth Campion challenges the historical convention that astrology flourished only between the twelfth and seventeenth centuries Concluding with a discussion of astrology s popularity and appeal in the twenty first century Campion asks whether it should be seen as an integral part of modernity or as an element of the post modern world **A Republic of Mind and Spirit** Catherine L. Albanese, 2007-01-01 In the nineteenth and early twentieth centuries Mexicans and Americans joined together to transform the U S Mexico borderlands into a crossroads of modern economic development This book reveals the forgotten story of their ambitious dreams and their ultimate failure to control this fugitive terrain Focusing on a mining region that spilled across the Arizona Sonora border this book shows how entrepreneurs corporations and statesmen tried to domesticate nature and society within a transnational context Efforts to tame a wild frontier were stymied by labour struggles social conflict and revolution Fugitive Landscapes explores the making and unmaking of the U S Mexico border telling how ordinary people resisted the domination of empires nations and corporations to shape transnational history on their own terms By moving beyond traditional national narratives it offers new lessons for our own border crossing age **Religious and Spiritual Groups in Modern America** Robert Ellwood, Harry Partin, 2016-11-03 This text explores the major new or unconventional religions and spiritual movements in America that exist outside the Judeo Christian tradition *Magical Religion and Modern Witchcraft* James R. Lewis, 1996-04-19 Provides an overview of neo paganism from the Goddess to magic and rituals from history and ethics to the relationship of neo paganism to Christianity **Victorian Occultism and the Making of Modern Magic** A. Butler, 2011-01-05 The late Victorian period witnessed the remarkable revival of magical practice and belief Butler examines the individuals institutions

and literature associated with this revival and demonstrates how Victorian occultism provided an alternative to the tightening camps of science and religion in a social environment that nurtured magical beliefs The Dawn of Astrology: The medieval and modern worlds Nicholas Campion, 2008 **Witchcraft, Madness, Society, and Religion in Early Modern Germany** H.C. Erik Midelfort, 2024-10-28 H C Erik Midelfort has carved out a reputation for innovative work on early modern German history with a particular focus on the social history of ideas and religion This collection pulls together some of his best work on the related subjects of witchcraft the history of madness and psychology demonology exorcism and the social history of religious change in early modern Europe Several of the pieces reprinted here constitute reviews of recent scholarly literature on their topics while others offer sharp departures from conventional wisdom A critique of Michel Foucault's view of the history of madness proved both stimulating but irritating to Foucault's most faithful readers so it is reprinted here along with a short retrospective comment by the author Another focus of this collection is the social history of the Holy Roman Empire where towns peasants and noble families developed different perceptions of the Protestant and Catholic Reformations and of the options the religious revolutions of the sixteenth century offered Finally this collection also brings together articles which show how Freudian psychoanalysis and academic sociology have filtered and interpreted the history of early modern Germany *Modern Occultism* Mitch Horowitz, 2023-09-19 From Cleopatra to Chaos Magic A Vibrant Epic History of Occultism in Thought and Practice In his most sweeping historical work occult scholar and widely known voice of esoteric ideas Mitch Horowitz presents a lively intellectually serious historical exploration of modern occultism from astrology and alchemy to the dawn of Theosophy and modern witchcraft and the spiritual revolutions that followed In this lively full circle history Mitch explores Preservation of hidden wisdom in late ancient Hermeticism Rebirth of esoterica during the Renaissance including Kabbalah ceremonial magick alchemy Gnosticism and the backlash culminating in the Thirty Years War Rise of the modern secret society such as Rosicrucians Freemasons and Illuminati Migration of religious radicalism to the New World including how enslaved people devised the magickal system of hoodoo Wave of occultism ignited by John Dee the Romantics Franz Anton Mesmer Eliphas Levi and P B Randolph The revolution brought by occult explorer Madame H P Blavatsky Growth of New Thought and mind metaphysics How fin de siècle scientists devised clinical protocols to study the supernatural Occult influences in politics a delicate topic weighed maturely Heterodox movements and figures such as The Process Church TOPY Michael Aquino and Anton LaVey Pioneering voices including Manly P Hall Aleister Crowley Rudolf Steiner Edgar Cayce Carl Jung Gerald Gardner Jack Parsons Annie Besant G I Gurdjieff Alice Bailey Austin Osman Spare and Carlos Castaneda Surprising occult influences on wide ranging modern icons such as Frederick Douglass Sigmund Freud and Isaac Newton How models of interdimensionality are loosening the hold of materialism on modern thought **Modern Occultism in Late Imperial Russia** Julia Mannherz, 2012-10-15 Modern Occultism in Late Imperial Russia traces the history of occult thought and practice from its origins in private salons to its popularity in turn of the

century mass culture In lucid prose Julia Mannherz examines the ferocious public debates of the 1870s on higher dimensional mathematics and the workings of seance phenomena discusses the world of cheap instruction manuals and popular occult journals and looks at haunted houses which brought together the rural settings and the urban masses that obsessed over them In addition Mannherz looks at reactions of Russian Orthodox theologians to the occult In spite of its prominence the role of the occult in turn of the century Russian culture has been largely ignored if not actively written out of histories of the modern state For specialists and students of Russian history culture and science as well as those generally interested in the occult Mannherz s fascinating study remedies this gap and returns the occult to its rightful place in the popular imagination of late nineteenth and early twentieth century Russian society

Mental Health, Spirituality, and Religion in the Middle Ages and Early Modern Age Albrecht Classen, 2014-07-28 This volume continues the critical exploration of fundamental issues in the medieval and early modern world here concerning mental health spirituality melancholy mystical visions medicine and well being The contributors who originally had presented their research at a symposium at The University of Arizona in May 2013 explore a wide range of approaches and materials pertinent to these issues taking us from the early Middle Ages to the eighteenth century capping the volume with some reflections on the relevance of religion today Lapidary sciences matter here as much as medical psychological research combined with literary and art historical approaches The premodern understanding of mental health is not taken as a miraculous panacea for modern problems but the contributors suggest that medieval and early modern writers scientists and artists commanded a considerable amount of arcane sometimes curious and speculative knowledge that promises to be of value and relevance even for us today once again Modern palliative medicine finds for instance intriguing parallels in medieval word magic and the mystical perspectives encapsulated highly productive alternative perceptions of the macrocosm and microcosm that promise to be insightful and important also for the post modern world

Religion, Magic, and the Origins of Science in Early Modern England John Henry, 2018-02-06 In these articles John Henry argues on the one hand for the intimate relationship between religion and early modern attempts to develop new understandings of nature and on the other hand for the role of occult concepts in early modern natural philosophy Focussing on the scene in England the articles provide detailed examinations of the religious motivations behind Roman Catholic efforts to develop a new mechanical philosophy theories of the soul and immaterial spirits and theories of active matter There are also important studies of animism in the beginnings of experimentalism the role of occult qualities in the mechanical philosophy and a new account of the decline of magic As well as general surveys the collection includes in depth studies of William Gilbert Sir Kenelm Digby Henry More Francis Glisson Robert Boyle Robert Hooke and Isaac Newton

Medicine, Religion, and Magic in Early Stuart England Ofer Hadass, 2018-03-26 The astrologer physician Richard Napier 1559 1634 was not only a man of practical science and medicine but also a master of occult arts and a devout parish rector who purportedly held conversations with angels This new

interpretation of Napier reveals him to be a coherent and methodical man whose burning desire for certain true knowledge contributed to the contemporary venture of putting existing knowledge to useful ends Originally trained in theology and ordained as an Anglican priest Napier later studied astrological medicine and combined astrology religious thought and image and ritual magic in his medical work Ofer Hadass draws on a remarkable archive of Napier's medical cases and religious writings including the interviews he claimed to have held with angels to show how Napier's seemingly inconsistent approaches were rooted in an inclusive and coherent worldview combining equal respect for ancient authority and for experientially derived knowledge Napier's endeavors exemplify the fruitful relationship between religion and science that offered a well founded alternative to the rising mechanistic explanation of nature at the time Carefully researched and compellingly told *Medicine Religion and Magic in Early Stuart England* is an insightful exploration of one of the most fascinating figures at the intersection of medicine magic and theology in early modern England and of the healing methods employed by physicians of the era *Religion, Magic, and Science in Early Modern Europe and America* Allison P. Coudert, 2011-10-17 This fascinating study looks at how the seemingly incompatible forces of science magic and religion came together in the 15th 16th and 17th centuries to form the foundations of modern culture As *Religion Magic and Science in Early Modern Europe and America* makes clear the early modern period was one of stark contrasts witch burnings and the brilliant mathematical physics of Isaac Newton John Locke's plea for tolerance and the palpable lack of it the richness of intellectual and artistic life and the poverty of material existence for all but a tiny percentage of the population Yet for all the poverty insecurity and superstition the period produced a stunning galaxy of writers artists philosophers and scientists This book looks at the conditions that fomented the emergence of such outstanding talent innovation and invention in the period 1450 to 1800 It examines the interaction between religion magic and science during that time the impossibility of clearly differentiating between the three and the impact of these forces on the geniuses who laid the foundation for modern science and culture **Superstition and Magic in Early Modern Europe: A Reader** Helen L. Parish, 2014-11-20 *Superstition and Magic in Early Modern Europe* brings together a rich selection of essays which represent the most important historical research on religion magic and superstition in early modern Europe Each essay makes a significant contribution to the history of magic and religion in its own right while together they demonstrate how debates over the topic have evolved over time providing invaluable intellectual historical and socio political context for readers approaching the subject for the first time The essays are organised around five key themes and areas of controversy Part One tackles superstition Part Two the tension between miracles and magic Part Three ghosts and apparitions Part Four witchcraft and witch trials and Part Five the gradual disintegration of the magical universe in the face of scientific religious and practical opposition Each part is prefaced by an introduction that provides an outline of the historiography and engages with recent scholarship and debate setting the context for the essays that follow and providing a foundation for further study This collection is an invaluable

toolkit for students of early modern Europe providing both a focused overview and a springboard for broader thinking about the underlying continuities and discontinuities that make the study of magic and superstition a perennially fascinating topic

Magic, Science, and Religion in Early Modern Europe Mark A. Waddell, 2021-01-28 An accessible new exploration of the vibrant world of early modern Europe through a focus on magic science and religion

Music, Rhetoric and Christian Hebraism in Early Modern Europe Hyun-Ah Kim, 2025-10-01 This book presents the first in depth exploration of the relationship between music rhetoric and Christian Hebraism by re appraising the significance of the first German humanist Johannes Reuchlin s study of Kabbalah and cantillation in the light of Renaissance rhetoric Few studies have investigated how Renaissance humanists learned Hebrew language for the delivery pronuntiatio of the Hebrew Bible as an aural oral tradition Hyun Ah Kim examines the way in which grammarian philosopher Reuchlin reconstructed the modulata recitatio of the Hebrew Bible and its underlying intellectual foundation Consequently Kim demonstrates the hitherto neglected Hebraic aspect of Renaissance rhetoric and its mystical implications that played a vital role in shaping a new theoretical framework for the art of accented singing an art which has changed European musical culture ever since Music Rhetoric and Christian Hebraism in Early Modern Europe elucidates why this nexus is essential for understanding the integral relationship between music language and theological philosophy

Both from the Ears and Mind Linda Phyllis Austern, 2020-07-15 Both from the Ears and Mind offers a bold new understanding of the intellectual and cultural position of music in Tudor and Stuart England Linda Phyllis Austern brings to life the kinds of educated writings and debates that surrounded musical performance and the remarkable ways in which English people understood music to inform other endeavors from astrology and self care to divinity and poetics Music was considered both art and science and discussions of music and musical terminology provided points of contact between otherwise discrete fields of human learning This book demonstrates how knowledge of music permitted individuals to both reveal and conceal membership in specific social intellectual and ideological communities Attending to materials that go beyond music s conventional limits these chapters probe the role of music in commonplace books health maintenance and marriage manuals rhetorical and theological treatises and mathematical dictionaries Ultimately Austern illustrates how music was an indispensable frame of reference that became central to the fabric of life during a time of tremendous intellectual social and technological change

Religion and Culture in Early Modern Europe, 1500-1800

Kasper von Greyerz, 2008 In the pre industrial societies of early modern Europe religion was a vessel of fundamental importance in making sense of personal and collective social cultural and spiritual exercises This text presents Kaspar von Greyerz s important overview and interpretation of the religions and cultures of Early Modern Europe

Spirituality, Feminism, and Pre-Raphaelitism in Modern British Art and Culture Alice Eden, 2024-04-17 This book proposes new understandings of modern life in Britain by bringing constructs of female spirituality centre stage and examining three forgotten artists identified with the Pre Raphaelites and Victorianism Thomas Cooper Gotch Robert Anning Bell and

Frederick Cayley Robinson are resituated squarely within the tumultuous social and cultural changes of the period. Becoming visible again in more inclusive histories allows such artists not only to re-inhabit but to reshape narratives of modernism, reanimating the scholarly discourse and creating a dynamic cultural history of modern Britain expressed through their striking visions of womanhood. This book will be of interest to scholars in art history, gender studies, and British studies.
