The Economics of Slavery John R. Meyer, 2017-07-28 How are economists and historians to explain what happened in history What statistical inferences can be drawn from historical data The authors believe that explanation in history can be identified with the problems of prediction in a probabilistic universe Using this approach the historian can act upon his a priori information and his judgment of what is unique and particular in each past event even with data hitherto considered to be intractable for statistical treatment In essence the book is an argument for and a demonstration of the point of view that the restricted approach of measurement without theory is not necessary in

history or at least not necessary in economic history After two chapters of theoretical introduction the authors explore the meanings and implications of evidence explanation and proof in history by applying econometric methods to the analysis of three major problems in 19th century economic history the profitability of slavery in the antebellum South income growth and development in the United States during the 1800 s and The Great Depression in the British economy also included is a postscript on growth reassessing some current arguments in the light of the findings of these papers The book presents an original and provocative approach to historical problems that have long plagued economists and historians and provides the reader with a new approach to these and similar questions Slavery, Childhood, and Abolition in Jamaica, 1788-1838

Colleen A. Vasconcellos, 2015-05-15 This study examines childhood and slavery in Jamaica from the onset of improved conditions for the island s slaves to the end of all forced or coerced labor throughout the British Caribbean As Colleen A Vasconcellos discusses the nature of child development in the plantation complex she looks at how both colonial Jamaican society and the slave community conceived childhood and how those ideas changed as the abolitionist movement gained power the fortunes of planters rose and fell and the nature of work on Jamaica s estates evolved from slavery to apprenticeship to free labor Vasconcellos explores the experiences of enslaved children through the lenses of family resistance race status culture education and freedom In the half century covered by her study Jamaican planters alternately saw enslaved children as burdens or investments At the same time the childhood experience was shaped by the ethnically linguistically and culturally diverse slave community Vasconcellos adds detail and meaning to these tensions by looking for instance at enslaved children of color legally termed mulattos who had unique ties to both slave and planter families In addition she shows how traditions beliefs and practices within the slave community undermined planters efforts to ensure a compliant workforce by instilling Christian values in enslaved children These are just a few of the ways that Vasconcellos reveals an overlooked childhood one that was often defined by Jamaican planters but always contested and redefined by the slaves themselves **Agency of the Enslaved** Daive A. Dunkley, 2013-01-01 In this book author D A Dunkley challenges the notion that enslavement fostered the culture of freedom in the former colonies of Western Europe in the Americas Dunkley explores the importance of the agency displayed by enslaved people and argues that this formed the real basis of the culture of freedom in the Atlantic societies **The Wages of Slavery** Michael Twaddle, 2013-06-17 The transition from chattel slavery to forced labour in Africa and the Caribbean during the nineteenth and early twentieth centuries has commanded increasing attention from scholars in recent years The Wages of Slavery tackles this subject from a protoproletarian perspective studies new labour regimes in Africa and the Caribbean and discusses work practices before and after emancipation the nature of the working week subsistence and surplus for slaves and free person and labour negotiations and confrontations *Slavery and the Enlightenment in the British Atlantic, 1750-1807* Justin Roberts, 2013-07-08 Clock work time quantification amelioration and the enlightenment Sunup to sudown agricultural diversity and seasonal patterns of work

Lockstep and line gang work and the division of labor Negotiating sickness health work and seasonality Labor and industry skilled and unskilled work Working lives occupations and families in the slave community **Material Cultures of Slavery and Abolition in the British Caribbean** Christer Petley, Stephan Lenik, 2018-04-19 Material things mattered immensely to those who engaged in daily struggles over the character and future of slavery and to those who subsequently contested the meanings of freedom in the post emancipation Caribbean Throughout the history of slavery objects and places were significant to different groups of people from the opulent master class to enslaved field hands as well as to other groups including maroons free people of colour and missionaries all of who shared the lived environments of Caribbean plantation colonies By exploring the rich material world inhabited by these people this book offers new ways of seeing history from below of linking localised experiences with global transformations and connecting deeply personal lived realities with larger epochal events that defined the history of slavery and its abolition in the British Caribbean This book was originally published as a special issue of Slavery Abolition The economics of slavery and other studies in econometric history Alfred H. Conrad, Historical essays on profitability of slavery in the ante bellum South income growth in 19th century America and the Great Depression in the British economy **Slaveholders in Jamaica** Christer Petley, 2015-10-06 Explores the social composition of the Jamaican slaveholding class during the era of the British campaign to end slavery looking at their efforts to maintain control over local society and considering how their economic cultural and military dependency on the colonial metropole meant that they were unable to avert the ending of British slavery *Slave Population and Economy in Jamaica* B. W. Higman, 1995 First published in 1976 see HLAS 40 2983 work is a masterful analysis of the dynamics of slave labor in the economic growth of early 19th century Jamaica Discusses various characteristics of slave and free colored population including mortality birth rates manumission distribution and structure as well as jobs performed on island as a whole Contains excellent statistical tables and new introduction by author Handbook of Latin American Studies v 58 The Making of New World Slavery Robin Blackburn, 2020-05-05 The Making of New World Slavery argues that independent commerce geared to burgeoning consumer markets was the driving force behind the rise of plantation slavery The baroque state sought successfully to feed upon this commerce and with markedly less success to regulate slavery and racial relations To illustrate this thesis Blackburn examines the deployment of slaves in the colonial possessions of the Portuguese the Spanish the Dutch the English and the French Plantation slavery is shown to have emerged from the impulses of civil society not from the strategies of individual states Robin Blackburn argues that the organization of slave plantations placed the West on a destructive path to modernity and that greatly preferable alternatives were both proposed and rejected Finally he shows that the surge of Atlantic trade predicated on the murderous toil of the plantations made a decisive contribution to both the Industrial Revolution and the rise of the West **General History of the Caribbean UNESCO Vol.3** NA NA, 2019-06-12 Volume 3 looks at various aspects of slave societies in the region from the seventeenth to the nineteenth centuries

Throughout the tortuous history of the Caribbean nothing exceeded in fundamental importance the twin experiences of slavery and the plantation system the defining episodes of Caribbean social reality Topics addressed include European settler colonies the sugar revolutions forms of resistance the influence of creolization and religious beliefs and the place of the Maroon communities Knight also examines the internal and external forces that led to the eventual collapse of the Caribbean slave system

General History of the Caribbean UNESCO Volume 6 NA NA,2019-06-12 Volume6 looks at the ways historians have written the history of the region depending upon their methods of interpretation and differing styles of communicating their findings The authors examine how the lingual diversity of the region has affected the historian s ability to coalesce an historical account The second half of the volume describes the writing of history in the individual territories taking into account changes in society economy and political structure This volume concludes with a detailed bibliography that is comprehensive of the entire series

Cultural Heritage and Slavery Stephan Conermann,Claudia Rauhut,Ulrike Schmieder,Michael Zeuske,2023-11-20 In the recent cultural heritage boom community based and national identity projects are intertwined with interest in cultural tourism and sites of the memory of enslavement Questions of historical guilt and present responsibility have become a source of social conflict particularly in multicultural societies with an enslaving past This became apparent in the context of the Black Lives Matter movement in 2020 when statues of enslavers and colonizers were toppled controversial debates about streets and places named after them re ignited and the European Union apologized for slavery after the racist murder of George Floyd Related debates focus on museums on artworks acquired unjustly in societies under colonial rule the question of whether and how museums should narrate the hidden past of enslavement and colonialism including their own colonial origins with respect to narratives about presumed European supremacy and the need to establish new monuments for the enslaved their resistance and abolitionists of African descent In this volume we address this dissonant cultural heritage in Europe with a strong focus on the tangible remains of enslavement in the Atlantic space in the continent This may concern for instance the residences of royal noble and bourgeois enslavers charitable and cultural institutions universities banks and insurance companies financed by the traders and owners of enslaved Africans merchants who dealt in sugar coffee and cotton and the owners of factories who profited from exports to the African and Caribbean markets related to Atlantic slavery

Slavery and the American South Annette Gordon-Reed,2003 In 1900 very few historians were exploring the institution of slavery in the South But in the next half century the culture of slavery became a dominating theme in Southern historiography In the 1970s it was the subject of the first Chancellor s Symposium in Southern History held at the University of Mississippi Since then scholarly interest in slavery has proliferated ever more widely In fact the editor of this retrospective volume states that since the 1970s the expansion has resulted in a corpus that has a huge number of components scores even hundreds rather than mere dozens He states that no such gathering could possibly summarize all the changes of those twenty five years Hence for the Chancellor Porter L Fortune Symposium in Southern

History in the year 2000 instead of providing historiographical summary the participants were invited to formulate thoughts arising from their own special interests and experiences Each paper was complemented by a learned penetrating reaction On balance the editor avers in his introduction reflection about the whole can convey a further sense of the condition of this field of scholarship at the very end of the last century which was surely an improvement over what prevailed at the beginning The collection of papers includes the following Logic and Experience Thomas Jefferson s Life in the Law by Annette Gordon Reed with commentary by Peter S Onuf The Peculiar Fate of the Bourgeois Critique of Slavery by James Oakes with commentary by Walter Johnson Reflections on Law Culture and Slavery by Ariela Gross with commentary by Laura F Edwards Rape in Black and White Sexual Violence in the Testimony of Enslaved and Free Americans by Norrece T Jones Jr with commentary by Jan Lewis The Long History of a Low Place Slavery on the South Carolina Coast 1670 1870 by Robert Olwell with commentary by William Dushinberre Paul Robeson and Richard Wright on the Arts and Slave Culture by Sterling Stuckey with commentary by Roger D Abrahams Winthrop D Jordan is William F Winter Professor of History and professor of African American studies at the University of Mississippi His previous books include White Over Black American Attitudes toward the Negro 1550 1812 and The White Man s Burden Historical Origins of Racism in the United States and his work has been published in the Atlantic Monthly Daedalus and the Journal of Southern History among other periodicals Slavery and Social Death Orlando Patterson, 2018-10-15 Patterson discusses the internal dynamics of slavery in 66 societies over time These include Greece and Rome medieval Europe China Korea the Islamic kingdoms Africa the Caribbean islands and the American South Slavery he argues is a single process of recruitment incorporation on the margin of society and eventual manumission or death
