experiencing its modern cities there's something for everyone Each chapter will take you through different aspects of Slovakian life and culture aiming to provide a full picture of what this remarkable country has to offer , Life in Post-communist Eastern Europe After EU Membership Donnacha Ó Beacháin, Vera Sheridan, Sabina Stan, 2012 This book examines how membership of the European Union has affected life in the ten former communist countries of Central and Eastern Europe that are now members of the European Union It attempts to answer some fundamental questions Was the reward of EU membership worth the sacrifices made How have the new member states fared Has the promise of EU membership on which so many expectations were based been realised Or have the new member states traded a Socialist Commonwealth with Moscow pulling the strings for an over centralised Brussels bureaucracy that lacks transparency and accountability How has a shared communist past influenced the countries post socialist and post accession trajectory How have the populations of post communist Europe fared Have some done better than others Are these divergences confined to the political economic or social spheres or to more than one If there have been disappointments how have the populations reacted to these By taking stock of debates within domestic elites popular opinion non governmental organisations civil society and external actors this book seeks to answer these crucial questions Slovakia ,2002 **Slovakia Doing Business for Everyone Guide - Practical Information and Contacts** IBP USA, 2012-01-01 Business in Slovakia for Everyone Practical Information and Contacts for Success **Report on Human Rights and the Process of NATO Enlargement** ,1997 *Affirming the Importance of NATO, and for Other Purposes; Recommending the Integration of Lithuania, Latvia, and Estonia Into NATO; and Recommending the Integration of the Republic of Slovakia Into NATO* United States. Congress. House. Committee on International Relations. Subcommittee on Europe, 2002 *NATO and the Czech and Slovak Republics* Jeffrey Simon, 2004 This is the second of three books by Jeffrey Simon on emerging post communist countries to recently join NATO As with the previous volume Hungary this book represents a tremendous amount of first hand research grounded in primary source material and personal interviews with key civil and military leaders Visit our website for sample chapters *Report on Human Rights and the Process of NATO Enlargement* United States. Congress. Commission on Security and Cooperation in Europe, 1997 The Future of NATO Expansion Zoltan Barany, 2003-07-21 In 1999 three East Central European states Poland Hungary and the Czech Republic gained membership in the North Atlantic Treaty Organization Professor Barany argues that once it began the Alliance should continue the enlargement process Nevertheless he maintains that only states that satisfy NATO's membership criteria should be allowed to join Through an extensive analysis of four countries Bulgaria Romania Slovakia and Slovenia who at the time of the book's original publication in 2003 were NATO aspirants Barany demonstrates that they were in several important respects unprepared for membership and that there was no pressing reason for NATO's haste Barany argues that while NATO should be clear that its doors remain open to qualified candidates the Alliance should hold off further expansion until prospective members will

become assets rather than liabilities Crafting Democracy Jennifer A. Yoder, 2013-02-07 The importance of subnational regions to politics governance and economic development in Western Europe has long been recognized However far less is known about recent steps to introduce a regional level of politics in East Central Europe Reforms there are part of the larger process of crafting democracy that is regional reforms are linked to the economic and political transition away from communism and toward Europe specifically the European Union Crafting Democracy offers an important comparative analysis of the process and outcomes of region building in the four Visegrád countries Jennifer A Yoder investigates why some but not other post communist countries chose to introduce a regional level of elected government In the 1990s for example Poland boldly took the lead in regionalization while the Czech Republic and Slovakia lagged behind Hungary meanwhile declined to create regions The author argues that these regional reform processes have potentially far reaching implications for state society relations political participation and policymaking at the domestic level The emergence of new actors at the subnational level moreover creates opportunities for cross border and European Union level initiatives Russia, the Former Soviet Republics, and Europe Since 1989 Katherine Graney, 2019-08-27 This book explores what the concept of being European means to people in Russia and the states of the former Soviet Union Katherine Graney provides a panoramic and historically rooted overview of politics in the post Soviet world focusing in particular on how Europe as both real place and symbol has structured the political trajectory of this vast region In sum Graney provides both a theoretical discussion of contemporary Europeanness and an empirical examination of how Russia and each of the fourteen former Soviet states are actually attempting to be European or not *Central European History and the European Union* S. Kirschbaum, 2015-12-11 This is a volume of scholarly essays that considers the meaning of Europe by examining aspects of Central European history as well as issues dealing with the EU's enlargement into Central Europe These factors contribute to ideas of a definition of Europe that reflects the values and aspirations of all its citizens **Parameters**, 2004 Russia, the Former Soviet Republics, and Europe Since 1989 Katherine E. Graney, 2019 Nearly three decades after the fall of the Berlin Wall early hopes for the integration of the post Soviet states into a Europe whole and free seem to have been decisively dashed Europe itself is in the midst of a multifaceted crisis that threatens the considerable gains of the post war liberal European experiment In Russia the Former Soviet Republics and Europe Since 1989 Katherine Graney provides a panoramic and historically rooted overview of the process of Europeanization in Russia and all fourteen of the former Soviet republics since 1989 Graney argues that deeply rooted ideas about Europe's cultural civilizational primacy and concerns about both ideological and institutional alignment with Europe continue to influence both internal politics in contemporary Europe and the processes of Europeanization in the post Soviet world By comparing the effect of the phenomenon across Russia and the ex republics Graney provides a theoretically grounded and empirically rich window into how we should study politics in the former USSR **Slovak Foreign Policy Affairs**, 2001 Foreign Ministries and the Information Revolution: Going

Virtual? Jozef Bátora, 2008-07-25 The ongoing information revolution is perceived as a profound organizational challenge for foreign ministries Yet there is only scant empirical evidence on the nature of the change dynamics Anchored in new institutionalist approaches in political science this book reconceptualizes diplomacy as an institution of the modern state order and identifies its key organizing principles maintained by the global group of foreign ministries With this conceptualization as a point of departure the book provides a comparative analysis of information technology effects in the foreign ministries of Canada Norway and Slovakia The result is a comprehensive assessment of the magnitude and the direction of change in the organizational machinery of diplomacy in early 21st Century
