Experiencing Digital Discourses Camilla Vásquez, Jan Chovanec, 2025-05-14 This edited book addresses current trends in digital discourse analysis. The central theme of the volume is the notion of digital experiences in other words how users rely on mediating technologies both to communicate and bond with others and to organize themselves for joint action. The chapters are grouped into three overarching themes: user engagement, multimodal communication, and online activism. Topics covered include memetic and multimodal humor on the internet, sticker use on WeChat, language ideology debates on YouTube, covert communication in QAnon forums, COVID narratives on Korean vlogs, and political activism on Twitter among others. The book will be of interest to scholars in the broadly defined field of digital discourse analysis. It will be relevant to linguists, social media researchers, communication scholars, and media and cultural studies specialists. *European Integration, Processes of Change and the National Experience* S. Börner, M. Eig Müller, 2015-06-02 In order to better understand processes of European integration, this book offers a new perspective that compares past experiences of change to current transitional moments at the European level. It addresses key questions about European society, EU integration, and social change to reveal the social construction of emergent polities and societies. *Mining and Engineering World*, 1915 *Processes of Cultural Change and Integration in the Roman World*, 2015-06-29 *Processes of Cultural Change and Integration in the Roman World* is a collection of studies on the interaction between Rome and the peoples that became part of its Empire between c. 300 BC and AD 300. The book focuses on the mechanisms by which interaction between Rome and its subjects occurred, e.g., the settlements of colonies, by the Romans' army, service, economic, and cultural interaction. In many cases, Rome exploited the economic resources of the conquered territories without allowing the local inhabitants any legal autonomy. However, they usually maintained a great deal of cultural freedom of expression. Those local inhabitants who chose to engage with Rome, its economy, and culture could rise to great heights in the administration of the Empire. *English Mechanic and World of Science*, 1888 *Exploring Virtuality Within and Beyond Organizations* N. Panteli, M. Chiasson, 2008-05-09 In recent years, there has been much interest in the virtual teams, organizations, and communities in management research and practice. As technology and social practices change, we have more opportunity to experience different forms of virtuality, and in the process, our understanding and conception of virtuality changes. **5G, Artificial Intelligence, and Next Generation Internet of Things: Digital Innovation for Green and Sustainable Economies** Ordóñez de Pablos, Patricia, Zhang, Xi, 2023-08-04 Key and enabling digital tools and solutions can boost the digital transformation of economies and societies and support achieving the Sustainable Development Goals (SDGs) by 2030. Applications of Immersive Technology in Architecture, Engineering and Construction Abhinesh Prabhakaran, Abdul-Majeed Mahamadu, Colin A. Booth, Patrick Manu, 2025-06-27 This edited book addresses a gap in literature by advancing current understandings of the applications of immersive technology within the architecture engineering and construction AEC sector Globally the architecture engineering and construction AEC sector makes an

enormous contribution to the socio economic development of nations which is primarily evidenced by its creation provision of the built environment The sector has however often been criticised for inefficiencies waste and diverse forms of adverse impacts that are associated with the lifecycle of the provision of built assets design construction operations and maintenance and end of life phases Over the years the inefficiencies waste and adverse impacts have often been a catalyst for calls and initiatives to transform the AEC sector The advent of the fourth industrial revolution commonly referred to as Industry 4 0 which entails the automation and digitalisation of production presents opportunities to leverage emerging technologies to improve the image and productivity of the sector Prominent among the emerging technologies in the Industry 4 0 era is that of immersive technology which includes virtual reality mixed reality and augmented reality The capability of immersive technology to deliver beneficial impacts for multiple construction sector stakeholders throughout the construction lifecycle has been acknowledged within the industry and this continues to stimulate interest amongst practitioners policymakers and researchers Despite this phenomenon at present there is no dedicated compendium of research informed text that focusses on the multifaceted applications of immersive technology throughout the lifecycle of the provision of built assets right from concept design to end of life This book thus addresses this gap in literature by advancing current understanding of the applications of immersive technology within the AEC industry Readers will understand how the technologies are applied the resulting array of impacts including benefits drawbacks challenges and future directions for applications research and development

Northrop Frye on Myth Ford Russell, 2021-10-28 Nortrop Frye differed from other theorists of myth in tracing all of the major literary genres romance comedy satire not just tragedy to myth and ritual This volume is the most thorough presentation of his thinking on the subject *The Jersey Bulletin and Dairy World* ,1919

The Cambridge Handbook of Technology and Employee Behavior Richard N. Landers, 2019-02-14 Experts from across all industrial organizational IO psychology describe how increasingly rapid technological change has affected the field In each chapter authors describe how this has altered the meaning of IO research within a particular subdomain and what steps must be taken to avoid IO research from becoming obsolete This Handbook presents a forward looking review of IO psychology s understanding of both workplace technology and how technology is used in IO research methods Using interdisciplinary perspectives to further this understanding and serving as a focal text from which this research will grow it tackles three main questions facing the field First how has technology affected IO psychological theory and practice to date Second given the current trends in both research and practice could IO psychological theories be rendered obsolete Third what are the highest priorities for both research and practice to ensure IO psychology remains appropriately engaged with technology moving forward

The Man Who Could Fly Michael Grosso, 2015-12-14 St Joseph of Copertino began having mystical visions at the age of seven but it was not until he began practicing his faith as a Franciscan priest that he realized the full potential of his mind s power over his body he was able to levitate Throughout his priesthood St Joseph became famous for frequent

levitations that were observed on hundreds of occasions and by thousands of witnesses including many skeptics Michael Grosso delves into the biography of the saint to explore the many strange phenomena that surrounded his life and develops potential physical explanations for some of the most astounding manifestations of his religious ecstasy Grosso draws upon contemporary explorations into cognition the relationship between the human mind and body and the scientifically recorded effects of meditation and other transcendent practices to reveal the implications of St Joseph s experiences and abilities
