Studying the British Crime Film Paul Elliott,2014-10-01 Ever since its inception British cinema has been obsessed with crime and the criminal One of the first narrative films to be produced in Britain the Hepworth s 1905 short Rescued by Rover was a fast paced quick edited tale of abduction and kidnap and the first British sound film Alfred Hitchcock s Blackmail 1930 centered on murder and criminal guilt For a genre seemingly so important to the British cinematic character there is little direct theoretical or historical work focused on it The Britain of British cinema is often written about in terms of national history ethnic diversity or cultural tradition yet very rarely in terms of its criminal tendencies and dark underbelly This volume assumes that to know how British cinema truly works it is necessary to pull back the veneer of the costume piece the historical drama and the rom com and glimpse at what is underneath For every Brief Encounter 1945 there is a Brighton

Rock 2010 for every Notting Hill 1999 there is a Long Good Friday 1980      **Sources for the History of London 1939-45**

*Forthcoming Books* Rose Army, 1993      *Queens of the Underworld* Caitlin Davies, 2021-10-14 This book is an extremely important part of women's social history. Read it. Maxine Peake Robin Hood Dick Turpin Ronnie Biggs the Krays All have become folk heroes glamorised and romanticised even when they killed. But where are their female equivalents? Where are the street robbers gang leaders diamond thieves gold smugglers and bank robbers? *Queens of the Underworld* reveals the incredible story of female crooks from the seventeenth century to the present. From Moll Cutpurse to the Black Boy Alley Ladies from jewel thief Emily Lawrence to bandit leader Elsie Carey and burglar Zoe Progl these were charismatic women at the top of their game. But female criminals have long been dismissed as either not real women or not real criminals and in the process their stories have been lost. Caitlin Davies unravels the myths confronts the lies and tracks down modern day descendants in order to tell the truth about their lives for the first time.      *Regulating Commercial Gambling* David Miers, 2004 Three quarters of the British population gamble mainly on the National Lottery and they generate around 46 billion pounds a year. This volume sets recent developments in the regulation and deregulation of its three primary forms betting gaming and lotteries against an account of their social and legal history. Many of the concerns that excite controversy today are little different from those with which the Home Office grappled for most of the nineteenth and twentieth centuries. Based upon Home Office files and contemporary accounts this book begins by evaluating how the law was used to control and suppress popular gambling. Miers shows how and why prohibition gave way to the recognition that regulation offered a more effective method of controlling a social pastime that by the mid twentieth century had become a feature of everyday life. Concerns over gambling have recently resurfaced as a result of Government proposals to replace the existing strict controls with a regulatory regime that will give greater scope for licensees to adopt more competitive practices. Like the introduction of the National Lottery in 1994 these proposals represent a marked departure from the traditional response to permit but not to stimulate commercial gambling. The potential for expansion in opportunities to gamble raises concerns about the accessibility of gambling to children and the possibility of increased numbers of problem gamblers. Miers examines the implementation and impact of the present law governing gaming and the National Lottery in terms of regulation and the enforcement of regulatory regimes. He focusses on how these regimes regulate the probity of the supplier the supply of gambling opportunities the nature of the transaction and the player's participation. The book concludes with an evaluation of the Gambling Bill a draft of which was published in 2003 aiming to give effect to the Government's proposals.      Nature, Society, and Thought, 1997      **Memory as Power** Alex Tepperman, Paul Bleakley, 2025-01-27 Featuring a collection of works by scholars from across a variety of disciplines this book outlines the principles of a critical historical criminology. For historical criminologists this book provides a framework of how to engage with historical material in a way that is critical in

its interrogation instructive in terms of how the past impacts upon our current and future practice and attentive to the dangers of presentism For critical criminologists this book highlights the potential benefits of looking to the past to inform our understanding of the critical issues we face in the current social cultural and political context in a purposeful historically sensitive way This remarkable volume aims to model how to practice a critical version of historical criminology that has implications for practice in the contemporary period It does so by incorporating contributions that emphasize robust high quality historical research that nonetheless speaks to issues and problems of premium concern to present minded critical criminologists bridging a gap between the past and present through an operationalization of the past that allows readers to better understand the criminological concerns of the present In this sense it can be used pedagogically as a collection of works which model critical historical criminology and is thus of instructional use alongside its research contribution
