The Big Burn:

The Big Burn Timothy Egan, 2009-10-19 National Book Award winner Timothy Egan turns his historian's eye to the largest ever forest fire in America and offers an epic cautionary tale for our time On the afternoon of August 20 1910 a battering ram of wind moved through the drought stricken national forests of Washington Idaho and Montana whipping the hundreds of small blazes burning across the forest floor into a roaring inferno that jumped from treetop to ridge as it raged destroying towns and timber in the blink of an eye Forest rangers had assembled nearly ten thousand men to fight the fires but no living person had seen anything like those flames and neither the rangers nor anyone else knew how to subdue them Egan recreates the struggles of the overmatched rangers against the implacable fire with unstoppable dramatic force and the larger story of outsized president Teddy Roosevelt and his chief forester Gifford Pinchot that follows is equally resonant Pioneering the notion of conservation Roosevelt and Pinchot did nothing less than create the idea of public land as our national treasure owned by every citizen Even as TR's national forests were smoldering they were saved The heroism shown by his rangers turned public opinion permanently in favor of the forests though it changed the mission of the forest service in ways we can still witness today This e book includes a sample chapter of *SHORT NIGHTS OF THE SHADOW CATCHER*

The Big Burn Jeanette Ingold, 2002-06-01 Winner of the Western Writers of America Spur Award for Teen Fiction from the author of *Hitch* and *Paper Daughter* A must read for adrenaline junkies VOYA On a hot summer day in 1910 a teenage soldier assembled his rifle A girl argued to save trees on a mountain homestead A young man set out to fight fire None knew that soon the many blazes burning across northern Idaho would blow up and send a wall of flame racing their way Portraying a natural disaster that would dictate how the United States would fight wildfire in the 20th century *The Big Burn* brings to life a turning point in fire science forestry and history Richly drawn characters doing their best against gigantic odds will grip your heart The realistic depiction of wildfire will make you feel you were there With non fiction Field Notes and an Afterword about firefighting today it's a novel that moves from the 1900s into the 21st century Whether you're an adult or young adult reader you'll come away with a new understanding of nature and a heightened appreciation for the courage and sacrifice of firefighters and settlers Publishers Weekly Montana Book Award Honor Historically accurate and dramatically engaging Teen Reads Presents a vivid picture of a natural disaster while skillfully conveying in fluid prose the individual stories of the three young people Horn Book Fascinating and harrowing for any kid whose tastes run to disaster and survival mixed into a coming of age story *Richie's Picks* A solid adventure story with a well realized setting Booklist [Present at the Creation](#) Michael C. Blumm, 2011 This review of Timothy's Egan's 2009 book *The Big Burn* Teddy Roosevelt the Fire That Saved America lauds Egan's storytelling while questioning the title of his book Egan tells a gripping tale about the largest wildfire in North America a 1910 blaze in the Bitterroot Mountains along the largely unroaded Idaho Montana border that cost a hundred people their lives and burned an area fifty percent larger than Yellowstone National Park Egan claims that the

big wildfire secured the young U S Forest Service s role as a public land manager and established conservation as a politically viable policy that encouraged Theodore Roosevelt to attempt to recapture the presidency in 1912 However at the center of Egan s story is not Roosevelt but Gifford Pinchot whom Roosevelt appointed the first chief of the Forest Service in 1905 Pinchot convinced Roosevelt to preserve more public land outside of Alaska than any president before or since and he made the Forest Service into one of the most respected government agencies in twentieth century America But the Big Burn s legacy also led Pinchot s successors to give priority to fighting public land wildlifes which damaged the ecology and ironically led to larger wildfires The review suggests that the Pinchot Roosevelt conservation era produced more public support for environmental protection than ever in American history and that the political lessons of that era may be useful in a twenty first century challenged by catastrophic oil spills and global climate change **The Big Burn** 1910 Scot

Miller,2012 **The Big Burn** Stan Cohen,Donald C. Miller,1978 A good case could be made for predicting a calamitous forest fire that would ravage the relatively unscathed lush timber stands of the Northwest Some people shrugged and lamented that one could never predict much of the future But regardless of what people thought 1910 was to be the year of what some termed the big blowup of the big burn or the time when the mountains roared A series of 1 736 fires ravaged three million acres and killed eighty five people With abnormally low amounts of precipitation and soaring high temperatures disaster threatened imminently and the undermanned underequipped national forest service did not help the situation

Media,2022-06-13T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 Gifford Pinchot was a bit odd but he was self aware enough to know that he was considered strange He knew Roosevelt from

sportsmen circles in the Empire State and they came to the governor's mansion in Albany with Christopher Grant La Farge son of the painter John La Farge a close friend of Teddy's. The two men talked about the forest protection and the fear of a coming timber famine caused by industrial age logging. They agreed that Americans had become too shortsighted with the continent they now straddled. Roosevelt and Pinchot agreed to a boxing match. Pinchot was a backup quarterback on the football team at Yale and he was quick on his feet for a big man. He was a little worried about his six inch height advantage over T.R. who stood five feet eight inches. Roosevelt had a very delayed adolescence as he was always looking out for his best interests. He married the beautiful Alice Hathaway Lee in 1884 and was elected to the New York Assembly the same year. He was Republican minority leader at twenty five.

The Big Burn Harry Montgomery, In the late 19th century America's wilderness was rapidly shrinking under the weight of industrial expansion. Vast forests once untouched were being stripped bare by powerful timber companies seeking profit from a seemingly endless supply of trees. Railroads extended deeper into the frontier bringing with them settlers, machinery and a hunger for resources. The logging industry was booming and the land suffered under this momentum. Streams clogged with debris, mountainsides were stripped of their trees and the land that had once seemed eternal began to vanish. Yet amid this progress a growing awareness began to stir among a few voices warning that this reckless consumption could have dire consequences. The early environmental movement took root in this context. Philosophers and naturalists such as John Muir began to advocate for the protection of America's natural wonders. They believed in nature not just as a resource but as something sacred and necessary for the soul of the nation. Meanwhile others like Gifford Pinchot began to promote a more pragmatic approach: conservation rather than preservation. This idea focused on the responsible use of natural resources ensuring they could support both present needs and future generations. As the forests fell and rivers ran dark with silt these differing but passionate calls began to gain traction in public discourse. Among the most powerful champions of this growing conservation ethic was Theodore Roosevelt. Having spent his youth in the wilds of the American West, Roosevelt had a personal and political appreciation for the natural world. His presidency would become a turning point for the conservation movement. With a deep sense of urgency and a fierce independence, Roosevelt used his executive power to set aside millions of acres of forestland, establish national parks and support the formation of institutions that would protect the environment. He believed that the government had a moral responsibility to act as a steward of the land and he had little patience for those who exploited it for short term gain. Roosevelt's administration marked the beginning of an era in which conservation became national policy rather than an obscure ideal.
