## **The Big Men:**

**The Big Men** Michael Shotter, 2017-07-25 The pursuit of power is as old as human history In ancient times and in various cultures it was believed that a person's power indeed their very essence could be literally extracted through a variety of means The methods by which this was accomplished were largely lost to the ages or banned and purged from historical records by kings pharaohs and the like in efforts to preserve their own power and authority Still the echoes of these ideas and techniques persist What would happen if a man living in modern society a descendant of the practitioners of those arts were to inadvertently awaken such an ability and what would be the consequences of that awakening The Big Men is a paranormal thriller that explores the perceptions manifestations and consequences of power as wielded and coveted by men in the modern era This debut novel by Michael Shotter will keep readers guessing as they are drawn into the world of such men by a young outsider capable of taking everything from them

**Big-Men and Business** Ben R. Finney, 2019-03-31 High in the New Guinea mountains a sociological drama of unique design has been unfolding since the early 1930s At that time the first of the Europeans who would take part in the area's development trekked into the remote highlands These early gold prospectors patrol officers and missionaries made the first outside contacts with the Stone Age Gorokan people These encounters ultimately catapulted the Gorokans subsistence gardeners cultivating sweet potatoes and raising pigs squarely into the twentieth century The magnitude of the economic and social changes that followed in the next forty years clearly distinguish the Gorokan case as one of the most remarkable examples of human adaptability to be witnessed in modern times Although popular thinking has it that traditional societies are change resistant and that social reforms therefore must

precede economic and other types of development the Gorokans remarkably reversed the process and passed from the Stone Age to the twentieth century marketplace in one generation Today they are heavily involved in growing coffee they have developed their own trucking industry for transporting coffee and other cash crops to market and they are venturing into the raising of beef cattle and the operation of trade stores and various businesses Big Men and Business is the record of this extraordinary case of economic change based on field study conducted in 1967 and 1968 Dr Finney interviewed many of the Gorokan leaders of this commercial revolution and draws comparisons between the Gorokan experience and that of other New Guinean peoples One of the results of his research indicates that the Gorokans may have been predisposed to entrepreneurship Traditionally a Gorokan big man was the man who acquired the valuables of his society cowrie shells mother of pearl shells pigs and bird of paradise plumes These leaders were honored for their skills in the flourishing local exchange system This fact coupled with a supportive colonial relationship and a favorable natural environment enhanced the Gorokans adaptation and thus the leap from the world of traditional exchange to one where business is conducted on a cash basis was in reality a short step Foreword by Douglas L Oliver **Africa's Big Men** Kenneth Kalu, Olajumoke
