Gone are the days when cabinet expansion used to get total media attention Now cricket is hogging the limelight and team selection is the most debatable issue inside television studios before every series Gone are the days when political king makers who played a major role in selecting the ministers used to grab unprecedented attention now it's the turn of national selectors Gone are the days when after every general election media persons used to spend sleepless nights talking about the likely allocation of the portfolios Which batsman is going to play at what position seems to be their major concern now Gone are the days when psephologists used to be media's prize catch Now former cricketers who can become good in house guests are in demand Gone are the days when people used to wait for general elections with bated breath The World Cup is the most awaited event now Prime Minister of the country is still a powerful man but the captain of Indian cricket team can give him a run for his money as far as popularity and media attention is concerned Nothing reflects this better than our television screen From dawn to dusk from womb to tomb cricket follows us Some of my friends say that it's a metro trend but I can say that it's catching up in far and remote areas of the country as well Often people complain about why we have extreme reaction on Team India's performance Swami Vivekananda who taught his disciples to worship God like heroes used to say There must be no fear no begging but demanding demanding the highest The true devotees are as hard as adamant and as fearless as lion In our generation politicians failed us as they became synonymous with corruption Bureaucrats failed us as they stood for delaying rather than getting the work done Film stars gave us momentary feel of bravado but then they were reel and not real life heroes In our search for heroes we zeroed in on the cricketers And this is the reason as to why we react extremely to team India's performance Cricket is more than just a game it's a matter of emotion for us Cricketers are more than just players they are heroes for us We react extremely as we love them and are emotionally attached to them If there is one place on earth where all dreams of living men have found a home from the very earliest when men began the dream of existence it's India In its infancy cricket was very much an English sport but today it is the voice of India The game has become so ingrained in our society that it's often said If you want to know India understand cricket To bring about social equality in our representative institutions and policy making bodies our political masters followed the policy of positive discrimination On the contrary the game of cricket has broken regional and other traditional barriers in the talent based environment From the game which was confined to Rajas and Maharajas today it has percolated deep down to the grass root level Team India's dressing room is truly reflective of this transformation it is equally if not more representative than the Indian parliament Most of the members of the Indian dressing room come from non cricketing backgrounds The most charismatic batsman of present generation is the son of a teacher his opening partner's father used to sell farm seeds wheat and rice The next all rounder hope of the country is the son of a muezzim and the Adam Gilchrist prototype of team India is the son of a government employee who retired as a pump operator Most of the members of the

present day Indian dressing room come from non cricketing environs If Munaf Patel is from a village called Ikhar in Gujarat Kerala born pacer Sreesanth is from Kochi Most of the members of the present Indian dressing room had nothing in the name of sports facilities And yet they managed to find a way

Future Radio Programming Strategies David MacFarland,2013-10-18 Fundamental beliefs is what the reader will be exploring here a common understanding of what the radio enterprise should be about entertainment and information A major thrust of this book is to arrive at a set of fundamental beliefs about the values and realities of the radio business in regard to entertainment programming a set of beliefs that may or may not be right true or forever but that might at least provide a basis for developing programming strategies This second edition of Future Radio Programming Strategies seeks to answer

the question What do listeners really want from radio Some of the answers are derived from users and gratifications research in the mass media Instead of focusing on what mass media do to people the users and gratifications perspective seeks to discover what people do with mass media The functionalist viewpoint of such research basically says that a medium is best defined by how people use it Having looked at some of the audience research that comes from sources other than the standard ratings companies the book then goes on to demonstrate new ways that formats production procedures and announcing styles can meet audience needs and desires Although the volume concludes with several original methods for selecting and presenting airplay music based on the audience s moods and emotional needs it does not insist upon a singular formulaic approach for constructing or modifying a music format Instead it attempts to involve the reader in thinking through the process of format development Two audio tapes are also available for use with the book The tapes contain nearly 3 hours of important detailed information and provocative points from the book Exclusive audio examples include the sense of acoustic space in music hi fi versus lo fi listening environments subjective perception of the announcer s distance from the listener audio editing rates comparison of luxury versus inexpensive car listening experiences and the components of emotions that are expressed vocally The tapes also include new sections about the threats to traditional radio from specialized digital audio services competition for the listener s attention from computer based media and additional proof of how music can be chosen on the basis of listeners emotional reactions and mood needs
