**Joe Wilson and the Creation of Xerox** Charles D. Ellis,2011-08-31

Charley Ellis has written a magnificent portrait capturing the indomitable spirit of Joe Wilson and his instinctive understanding of the need for and commercial usefulness of a transforming imaging technology Joe Wilson and his extraordinary team which I had the good fortune to first meet in 1960 epitomized the wonderful observation of George Bernard Shaw who said Some look at things that are and ask why I dream of things that never were and ask why not Xerox and xerography are not only a part of our vocabulary but part of our everyday life Charley Ellis gives the reader a poignant understanding of just how this happened through the life adventures critical business decisions and dreams of Joseph Wilson and a cadre of remarkable individuals This book will surely join the library of memorable biographies that capture the building of America into a risk tolerant technologically sophisticated idea oriented society that thrives by understanding what Charles Darwin really said Survival will be neither to the strongest of the species nor to the most intelligent but to those most adaptable to change Frederick Frank Vice Chairman Lehman Brothers Inc

Understanding Language through Humor  
Stanley Dubinsky,Chris Holcomb,2011-09-15 Students often struggle to understand linguistic concepts through examples of language data provided in class or in texts Presented with ambiguous information students frequently respond that they do not get it The solution is to find an example of humour that relies on the targeted ambiguity Once they laugh at the joke they have tacitly understood the concept and then it is only a matter of explaining why they found it funny Utilizing cartoons and jokes illustrating linguistic concepts this book makes it easy to understand these concepts while keeping the reader s attention and interest Organized like a course textbook in linguistics it covers all the major topics in a typical linguistics survey course including communication systems phonetics and phonology morphemes words phrases sentences language use discourses child language acquisition and language variation while avoiding technical terminology
