Rescued from the Nation Steven Kemper, 2015-01-13 Dharmapala is a galvanizing figure in Sri Lanka's recent history widely regarded as the nationalist hero who saved the Sinhala people from cultural collapse and whose protestant reformation of Buddhism drove monks toward increased political involvement and ethnic confrontation Yet he spent the vast majority of his life abroad dealing with other concerns Steven Kemper re-evaluates this important figure in the light of an unprecedented number of his writings that paint a picture not of a nationalist zealot but of a spiritual seeker earnest in his pursuit of salvation The Nation, 1899

Nucleus and Nation Robert S. Anderson, 2010-05-15 In 1974 India joined the elite roster of nuclear world powers when it exploded its first nuclear bomb But the technological progress that facilitated that feat was set in motion many decades before as India sought both independence from the British and respect from the larger world Over the course of the twentieth century India metamorphosed from a marginal place to a serious hub of technological and scientific innovation It is this tale of transformation that Robert S Anderson recounts in *Nucleus and Nation* Tracing the long institutional and individual preparations for India's first nuclear test and its consequences Anderson begins with the careers of India's renowned scientists Meghnad Saha Shanti Bhatnagar Homi Bhabha and their patron Jawaharlal Nehru in the first half of the twentieth century before focusing on the evolution of the large and complex scientific community especially Vikram Sarabhi in the later part of the era By contextualizing Indian debates over nuclear power within the larger conversation about modernization and industrialization Anderson hones in on the thorny issue of the integration of science into the framework and self-reliant ideals of Indian nationalism In this way *Nucleus and Nation* is more than a history of nuclear science and engineering and the Indian Atomic Energy Commission it is a unique perspective on the history of Indian nationhood and the politics of its scientific community Annual Report Lancaster (Mass.). Tsoukalis,2022-10-04 European integration has had many successes and failures Brexit being one of the biggest failures Despite the setbacks the EU has been acquiring more functions and members and has now reached a stage where it needs to become a political adult In this book one of the world's leading authorities on Europe provides a lucid and wide ranging appraisal of contemporary European affairs of how the EU became what it is today and the key challenges Europeans must now confront These challenges include the search for a common foreign and security policy that will also require a more symmetrical transatlantic relationship the search for democracy beyond the nation state more inclusive societies the development of the euro into a fully fledged currency a higher degree of autonomy in high technology and the greening of

economies In Tsoukalis view what is at stake in these challenges is whether the EU can exercise effective political power in a multipolar highly asymmetrical and increasingly unstable world and whether it can find a workable relationship between global markets and domestic social contracts Willing and able countries should lead the way The stakes are high and not just for Europe A declining and marginalized Europe would not be able to defend fundamental interests and values including freedom and security for its citizens And the world would greatly benefit from the moderating influence of a regional power that operates on the basis of broad consensus and compromise This bold and ambitious book based on extensive experience of European affairs will be of value to anyone interested in Europe and its future as well as anyone concerned with the great political challenges of our time **A New Nation** ,2000 **The Coming Nation** ,1909
