BOOK JACKET *The Timberman* ,1918 *An Alternative History of Bicycles and Motorcycles* Steven E. Alford,Suzanne Ferriss,2016-04-06 An Alternative History of Bicycles and Motorcycles Two Wheeled Transportation and Material Culture accounts for the nineteenth century creation and development of two wheeled vehicles both human powered and motorized Specifically the book focuses on the period from 1885 which saw the appearance simultaneously of the Safety bicycle and the Einspur the first motorcycle to 1920 while exploring implications for later bicycling and motorcycling We argue that invention of these vehicles rather than the product of gifted individuals should be seen as the consequence of a number of historical economic cultural and political forces that intersect so unpredictably that the notion of a genius inventor is reductive The common evolutionary model of development from the bicycle to the motorcycle oversimplifies both the technology and its origins Stripping the vehicles of all their material and cultural associations such a model fails to advance our understanding of the devices their creators and their riders Taking a contemporary vehicle and tracing its lineage creates a false sense of evolutionary necessity in its creation and fails to account for the many possible developmental paths that were for whatever reason abandoned By contrast our book adopts a material culture approach a form of inquiry that stresses the connections between artifacts and social relations We consider not simply the bicycle and motorcycle as material objects but focus also on the complex socio political and economic convergences that produced the materials materials that in turn themselves shaped the vehicles appearance function and adoption by riders

Marketing Peanuts Harold Johnson Clay,Paul Maxwell Williams,1928 Pp 86 **Department Bulletin** ,1928 **North Sea Passage and the Women of Spirit** André Schulman,2013-02-01 This is a story like a novel of two generations of a fugitive family who land at Harwich in 1939 There are backward glances through Germany and Poland to the mid nineteenth century and it ends in the present day The actions take place in the villages of old Poland Nazi Berlin wartime London and seaside towns in school and the sports field in the Paris of 1945 on Alpine glaciers amongst rising stars of British politics It has two main threads the mind of Etienne and the characters of the mother the sister and later of the Cabinet Minister who was a leading persuader in the formation of the party that was to re shape British politics and was its Leader in the Lords The sister was the nearest thing

the Left had to a political hostess Theme might be said to be corruption of character associated with idealistic politics even more portentously the pre Socratic mind of Etienne through whom the action is seen overwhelmed by his present experiences and historical daydreams retarded in rationality unable to speak his mind a disorder of mists and his values dark un English unmodern North Sea Passage and the Women of Spirit is a memoir but written in the style of literary novel and will appeal to readers of that genre as well as of biography and modern history      **Ferris Wheels** Norman D.

Anderson,1992 Anderson North Carolina State University is clearly obsessed with the Ferris Wheel He describes the conception and construction of the first example at the World s Columbian Exposition in Chicago 1893 Imitators and variations are described and illustrated with period photos and patent drawings An appendix contains 115 pages of patent drawings A charming unique book that will win no graphics awards Paper edition unseen 29 95 Annotation copyright by Book News Inc Portland OR
