Stanza 1

I know girls like you

The kind to run when seeing stacks of words on top of each other

I know the way it makes every part of your body stutter, shake and shatter

How the insecurity you think you’ve locked under your skin Comes flying past the surface

I know how the repeating consonants remind you of bars

The Bilingual Poet

Aneta Pavlenko

The Bilingual Poet:

The Bilingual Poet Aurelio Valls, 1986 *Fernando Pessoa : The Bilingual Portuguese Poet* Anne Terlinden, 1990 The purpose of this book is to shed light on the rather unexplored English facet of Fernando Pessoa considered one of the major Portuguese poets of the twentieth century The originality of this study also lies in its extensive use of unpublished documents Out of the bulk of Pessoa's English writings *The Mad Fiddler* has been selected it offers not only poems of better quality than most of his writings in English but it also has the advantage of being a complete and coherent suite of mystical poems A systematic comparative study of the themes in *The Mad Fiddler* and in the poems by the four Portuguese heteronyms reveals a clearer continuity and shows that Pessoa's bilingual Poetry is based on his main ontological quest which he tried to solve by means of his dramatic scattering into masks After this comparative analysis the individuality of *The Mad Fiddler* is defined Following an overview of the unpublished English writings found in the Pessoaan legacy *The Mad Fiddler* is analysed by means of Pessoa's own unpublished comments An investigation of Pessoa's private French library and of his unpublished Literary Appreciations proves how fully he understood the impact of Symbolism on the evolution of Modern Art *The Mad Fiddler* could indeed be viewed as an English echo of Pessoa's interest in modern trends in Literature and as a kind of English microcosm of Pessoa's aesthetic theory **The Bilingual Poet** Aurelio Valls, 197? **The Bilingual Text** Jan Walsh Hokenson, Marcella Munson, 2014-06-03 Bilingual texts have been left outside the mainstream of both translation theory and literary history Yet the tradition of the bilingual writer moving between different sign systems and audiences to create a text in two languages is a rich and venerable one going back at least to the Middle Ages The self translated bilingual text was commonplace in the multilingual world of medieval and early modern Europe frequently bridging Latin and the vernaculars While self translation persisted among cultured elites it diminished during the consolidation of the nation states in the long era of nationalistic monolingualism only to resurge in the postcolonial era *The Bilingual Text* makes a first step toward providing the fields of translation studies and comparative literature with a comprehensive account of literary self translation in the West It tracks the shifting paradigms of bilinguality across the centuries and addresses the urgent questions that the bilingual text raises for translation theorists today Is each part of the bilingual text a separate original creation or is each incomplete without the other Is self translation a unique genre Can either version be split off into a single language or literary tradition How can two linguistic versions of a text be fitted into standard models of foreign and domestic texts and cultures Because such texts defeat standard categories of analysis *The Bilingual Text* reverses the usual critical gaze highlighting not dissimilarities but continuities across versions allowing for dissimilarities within orders of correspondence and englobing the literary as well as linguistic and cultural dimensions of the text Emphasizing the arcs of historical change in concepts of language and translation that inform each case study *The Bilingual Text* examines the perdurance of this phenomenon in Western societies and literatures *Cool Salsa* Lori Marie Carlson, 1994-07-15 Growing

Modernism and Cultural Transfer Yael S. Feldman, 1986-12-31 It was twentieth century Modernism that introduced bilingualism into the literary arena Used as a means for the contradictory aims of universalizing or individualizing the literary idiom this practice was clearly part of the revolt against nineteenth century Romanticism and nationalism In contrast Jewish bilingualism is rooted in the long history of exilic existence its modern phase moreover is intimately related to the national revival of the Jewish people As such it fulfilled a unique role time and again literary experiments were conducted first in Yiddish the spoken language and later transferred to Hebrew the romantic classical language of the national renaissance The significance these transfers had for the historical poetics of Hebrew cannot be overestimated They were instrumental in

making what was a scriptural literature only a century ago into the modernized lively literature we know today Yet Hebrew did not give in easily It was not until the 1950s for instance that Israeli poetry caught up with the poetic understatement of Western Modernism Two decades earlier however Hebrew Modernism did make a breakthrough in America It was Gabriel Preil a Lithuanian born resident of New York who helped modernize Hebrew verse without so much as visiting the Land of Israel The emergence of his imagistic free verse in the thirties and forties constituted a bold departure from the classical romantic norms of Hebrew at the time Thereafter Israeli modernists adopted him as a precursor naturally attributing his innovations to the influence of Anglo American imagism But there is more to it than that For Preil who is currently approaching his 75th birthday is in fact the latest link in the Jewish tradition of intracultural transfer As this study shows he absorbed his poetic modernism from the New York Yiddish Modernists thereafter transferring it to Hebrew via his autotranslation and dual compositions Yael Feldman here sheds light on this particular and possibly last instance in the history of Jewish bilingualism Yet the significance of her work extends beyond the poetics of Hebrew literature For it offers unique insights into both the mechanism of literary transfer and the constraints operative within it In addition it follows Preil s recent metapoetic journey to the borders of imagism and back thereby illuminating the risks of limitation and dehumanization that have always plagued pure imagism Finally it shows how Preil s life work recapitulates the complex evolution of Western poetic Modernism with all its inherent paradoxes

The Bilingual Mind Aneta Pavlenko, 2014-02-06 If languages influence the way we think do bilinguals think differently in their respective languages And if languages do not affect thought why do bilinguals often perceive such influence For many years these questions remained unanswered because the research on language and thought had focused solely on the monolingual mind Bilinguals were either excluded from this research as unusual or messy subjects or treated as representative speakers of their first languages Only recently did bi and multilinguals become research participants in their own right Pavlenko considers the socio political circumstances that led to the monolingual status quo and shows how the invisibility of bilingual participants compromised the validity and reliability of findings in the study of language and cognition She then shifts attention to the bilingual turn in the field and examines its contributions to the understanding of the human mind
